Swimmers from the local clubs have also been selected for Victorian 7-10 Country Competition, All Junior Championships in Melbourne and Pan Pacific School Games. Last year Blue Lake Y and Mount Gambier Swim Clubs successfully ran a Junior Sports Coaching Clinic which was well represented by clubs all over the region. Currently coaches from local clubs have been working together and running some combined training sessions and are all supportive of hosting clinics in the local region.

8 November 2017

Dear City of Mount Gambier Junior Sports Assistance Fund,

**Re: Support for Mount Gambier and Blue lake Y Swimming Clubs**

This letter is to advise that Swimming SA Supports the joint application from the Blue Lake Y and Mount Gambier Swimming Clubs for financial support to conduct a junior sports clinic in Mount Gambier for their members. Both Swimming clubs participate in regular competitions on a local and state level with a number of swimmers winning medals at both Swimming SA Regional Championships and State Championships meets. Swimmers from Blue Lake Y and Mount Gambier clubs have regularly figured South Australia's yearly rankings and are progressing steadily towards national qualifying times.

Both swimming clubs have been in contact with our organisation and myself in regards to structuring a clinic to best provide an experience that will benefit all swimmers that attend. These sessions include a well-rounded schedule including education, dryland fitness and pool sessions. Part of this process has included the use of our networks to secure a high performance coach to conduct the clinic on the clubs behalf.

We are extremely happy to support an initiative that sees a development activity for talented junior swimmers within their home region negating the need for travel to Adelaide.

Should you have any questions regarding this please do not hesitate to contact me.

Regards

The Mount Gambier Golf Club has a small number of dedicated, talented junior members. These junior golfers have been competing all over the state in golf SA events and tournaments. They have been successfully representing our South East Region, Country SA and the State at different times. They have also been traveling to Adelaide to participate in high performance coaching and talent identification camps. This is all at the expense of each golfer and their family.

There are several coaching opportunities for young golfers just starting out but once the skill levels reach a certain point, more intensive training and coaching is necessary to stay on par with city peers.

Currently many city golf clubs are running their own high performance/ elite player development programs. These programs are targeted at a small group of talented and dedicated juniors who show the potential and desire to take their golf to higher levels if nurtured correctly. The Mount Gambier Golf Club Junior Foundation would like to offer its talented juniors something similar.

The golf skills and PGA coaching aspect of the program would run once a month for 3 hours. These clinics would be run by Craig Davis and would include:

- Video analysis – Technique Instruction
- High level skills training programs
- Short Game Specialised Coaching
- Wedge Layups and Distance Control
- On Course Training- Game Planning, Green Reading, Course Charting

The Golf Specific Athletic Development is the other aspect to this coaching model. This would run weekly with Kieran Ashby.

Please read the attached document for more information.

To be eligible for selection into the High Performance/ Elite Player Development Program, Young golfers would need a GA Handicap of 15 or less for boys and 25 or less for girls. Be playing in regular Club competitions and show a willingness, dedication, and commitment to furthering their golf futures.

## Experience/Skills of Coach:

### Craig Davis-

Following a successful career as an Australasian PGA tour player and a 12 month stint at the Australian Institute of Sport Craig moved into the coaching stage. He initially only worked with elite amateur players working for a high performance program called the College of Elite Golf based out of Adelaide. He then started to work with local and international PGA tour players which allowed him a fantastic insight into the world of high performance training. He collaborated with physiotherapists that work with Olympic athletes and high end bio-mechanics that worked with elite PGA tour players.

A portion of this experience He would like to bring to the players in Mount Gambier.

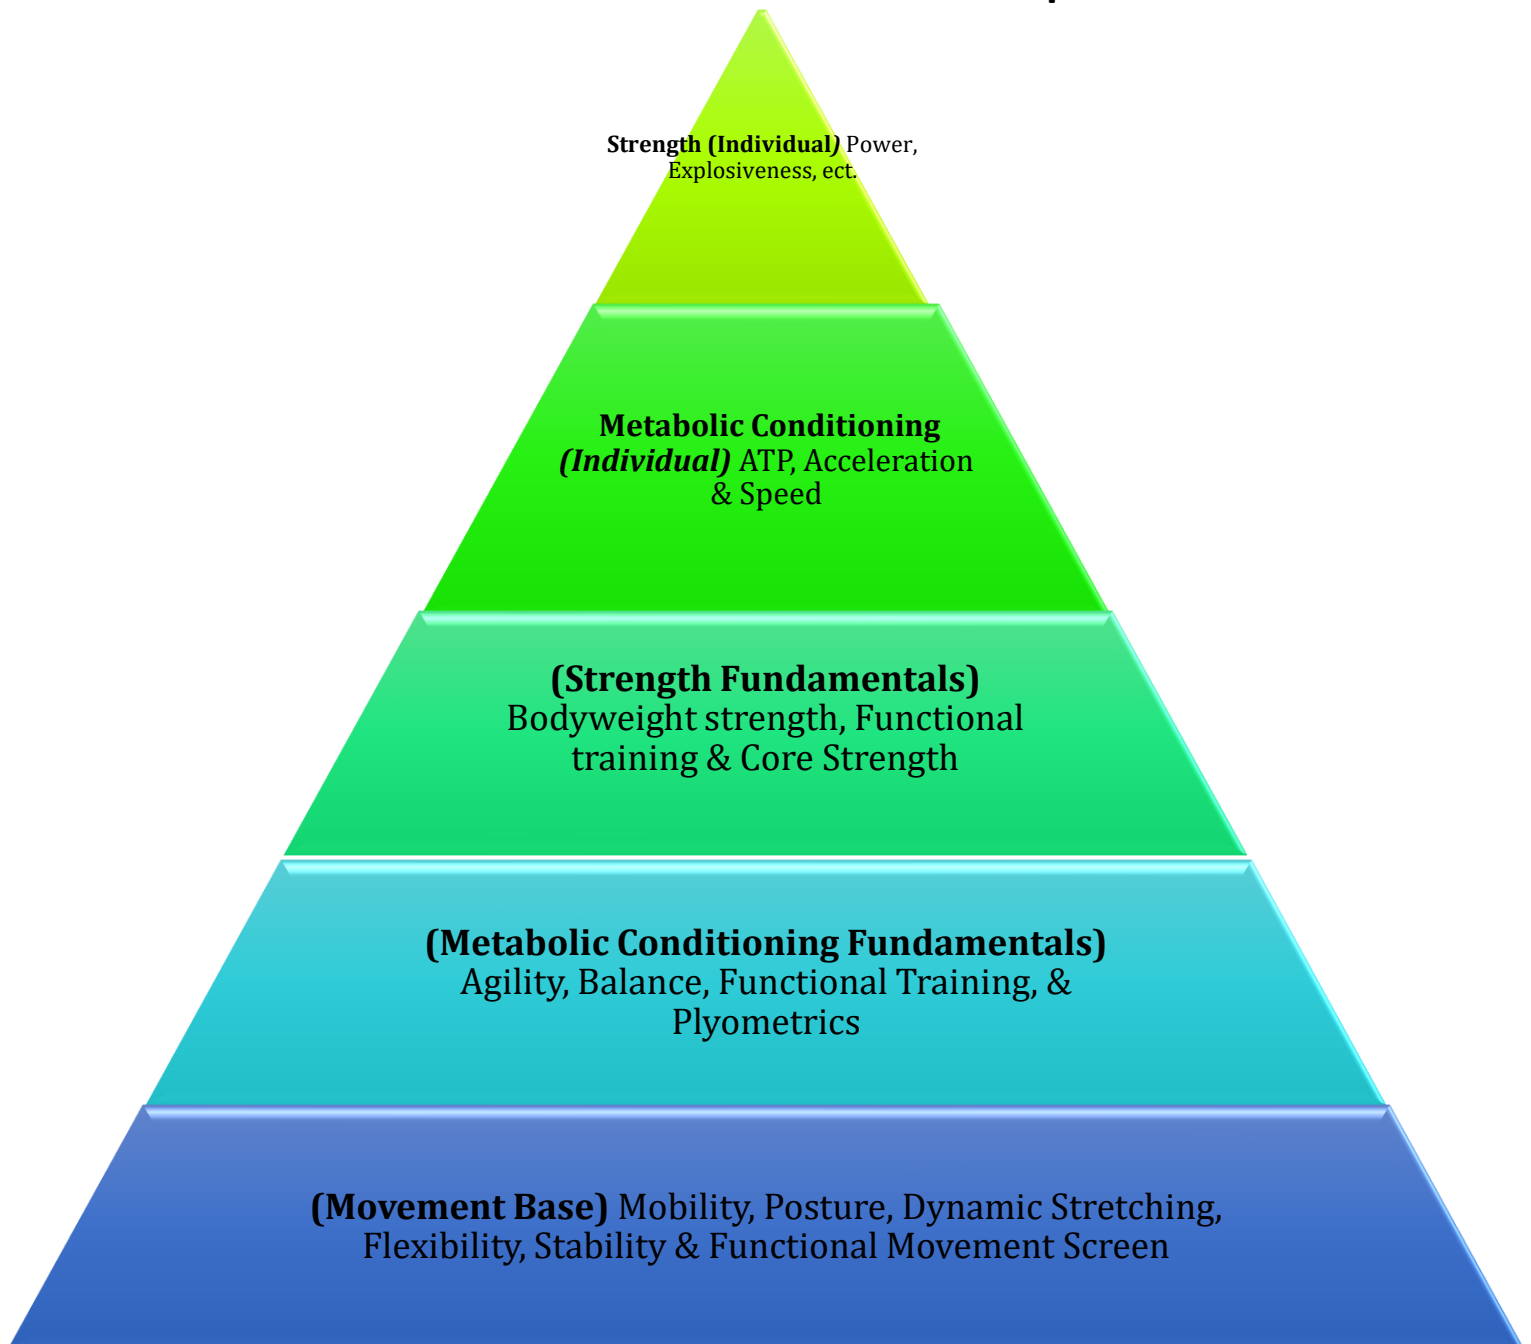

### Kieran Ashby-

Background in Sports Science and Personal Training. He is currently working with other local High Performance Junior Athletes.

# High Performance Golf Program

## Phases for Golf Athletic Development

# How would this work?

**Movement Base:** This phase is often overlooked and underutilised. If we get the basics right the rest will fall into line. Athletes will do this together five 1hr sessions over 5 weeks with the personal trainer and 5 sessions by themselves.

**Fundamentals (Metabolic Conditioning & Strength)** Build on the strong base created through movement we work on the fundamentals of strength and conditioning for golf. All athletes will do this together needing ten - 1hr sessions over 15 Weeks with the personal trainer and 20 sessions on their own

**Individual Programming** Specific to each Athlete's needs. This will be worked out through Testing and the personal trainer's observations during the initial stages. Period (24 weeks) all students will need 9 individual Personal training sessions to show the programs at 30 mins a session and be required to do 45+ programmed sessions by themselves. 3 different Individual Programs will be done over the 24 weeks each consisting of 8 weeks. Every Athlete will do three initial sessions with the personal trainer for each program making sure form and technique is correct and giving the athlete a thorough understanding of the program. Then the athletes will be expected to complete the remaining 7 weeks of each program without personal training (guidance will still occur).

## Approximate Costings

Product	Weeks	Amount	Total
One Gym Membership Each Athlete @ \$489 (corporate rate)	52	5 Memberships	\$ 2445
Movement Sessions 1 hr (All Together) @ \$80 per session	5	5 Sessions	\$ 400
