MEMBERS

NOTICE is hereby given that the Mayor has called a Special Meeting of the Council to be held at the Council Chamber, Civic Centre, 10 Watson Terrace, Mount Gambier on the following date and time:

Thursday 25 June 2026 - Council Chamber - Civic Centre (commencing at 5:30 pm)

For the purpose of:

1. Adoption of 2026/2027 Annual Business Plan, Budget and Rating Policies.
2. Adoption of Valuations and Rates Declaration year ending 30 June 2027.
3. Adoption of Long Term Financial Plan (LTFP) 2027-2036.

Please find Agenda attached.

Paul SIMPSON
CHIEF EXECUTIVE OFFICER

23 June 2026

AGENDA

Special Council Meeting

Thursday 25 June 2026

I hereby give notice that a Special Meeting of Council will be held on:

Time: 5:30 pm
Date: Thursday 25 June 2026
Location: 10 Watson Terrace, Mount Gambier
Council Chamber, Civic Centre

Paul Simpson
CHIEF EXECUTIVE OFFICER
23 June 2026

5 COUNCIL REPORTS

5.1 ADOPTION OF 2026/2027 ANNUAL BUSINESS PLAN, BUDGET AND RATING POLICIES

Author: Kahli Rolton, Manager Financial Services

Authoriser: Jane Fetherstonhaugh, General Manager Corporate and Regulatory Services

RECOMMENDATION

1. That Council report titled 'Adoption of 2026/2027 Annual Business Plan, Budget and Rating Policies' as presented on Thursday 25 June 2026 be noted.
2. That Council, having considered the public submissions at the Special Council meeting on 16 June 2026 and the feedback provided at the Audit and Risk Committee on 3 June 2026, adopts the 2026/2027 Annual Business Plan and Budget which includes R105 Rating Policy and R155 Rate Rebate Policy as attached to this report.
3. Pursuant to section 123(7) of the Local Government Act 1999 and regulation 7 of the Local Government (Financial Management) Regulations 2011, that having considered the Budget in conjunction with Annual Business Plan, determine the Budget to be consistent with, the Council's adopted Annual Business Plan per recommendation 2 above.
4. That Council adopts the Budget for the year ending 30 June 2027, as detailed in the attachments to this report which comprise:
 - (a) the budgeted financial statements including budgeted Uniform Presentation of Finances.

- (b) statement within the Annual Business Plan and Budget that the projected operating income is sufficient to meet projected operating expenses as a result of a forecast balanced budget for 2026/2027.
 - (c) estimates with respect to the council's operating surplus ratio, net financial liabilities ratio and asset renewal funding ratio as presented in the Annual Business Plan and Budget.
5. That Council authorises the Chief Executive Officer or Delegate to make any necessary changes to the 2026/2027 Annual Business Plan and Budget document arising from this meeting, together with any editorial amendments, errors or omissions and finalisation of the document's formatting and graphic design that do not materially alter the integrity of the document.

PURPOSE

To present to Council the recommendations necessary to formally adopt the 2026/2027 Annual Business Plan, Budget and Rating Policies. A separate report is to be considered in conjunction with this report for the declaration of rates.

BACKGROUND / OPTIONS

The 2026/2027 Annual Business Plan and Budget outlines Council's service delivery priorities, strategic projects, and financial commitments for the year ahead. Although in its third year, this is the second budget that Council's Strategic Plan 2024-2028 is aligned with. This plan has been developed with regard to Council's Long Term Financial Plan and Asset Management Plans and is the fourth business plan prepared for the current Council term. It also serves as a key operational and financial planning tool to deliver both statutory services and discretionary services based on community needs and aspirations.

Council's 2026/2027 budgeted expenditure is \$56.97 million across operating and capital budgets focuses on maintaining service delivery. Renewal capital projects are first priority to ensure investment in existing assets are sustained and do not burden future generations of ratepayers.

Public Consultation

Consultation feedback was received on the Draft Annual Business Plan and Budget along with Council's Draft Long Term Financial Plan.

Public consultation took place between 21 May 2026 up to and including 11 June 2026, with a special meeting held 16 June 2026 to hear verbal submissions from registered members of the public.

Public information sessions were held on Tuesday 2 June 2026 and Wednesday 3 June 2026 at Mount Gambier City Hall, with a total of 11 attendees across the two sessions and 10 individual members of the public.

Council received 12 written submissions in total via the Have Your Say Website and email and heard 3 verbal submissions throughout the consultation period. The written submissions comprised a number of questions from the public with Council receiving in excess of 111 questions between two individual members of the community. Responses to questions were made available at the special meeting held 16 June 2026.

The Audit and Risk Committee provided feedback on the Annual Business Plan and Long Term Financial Plan at their meeting held 3 June 2026 which was considered by Council at the 16 June 2026 Meeting.

A number of changes were made to this document following public consultation/updated information:

- Public consultation section updated to reflect breadth of engagement.
- General rates were updated to reflect the latest information provided by the Office of the Valuer General and the final figures for adoption. Additional data has been incorporated including cents in the dollar, the number of assessments including growth and average rates. Whilst concentrated in the “our budget” section, this information is updated in a number places throughout the plan.
- Waste Service Charge was updated to reflect the latest information provided by the Office of the Valuer General in conjunction with Council Policy for the application to relevant assessments.
- Statement under influences regarding the proposed legislative change to postpone the local government periodic elections.
- Updated Financial Statements referencing recently adopted Budget Revision 3 values and incorporating minor adjustments based on changes to rates revenue and operational expenditure to bring back to balanced budget.
- Other minor grammatical and wording improvements that do not materially change the document.

Rates

Rates revenue is critical to Council's financial sustainability, accounting for approximately 64% of total income. Council's approach to rating is underpinned by sound financial management principles, asset stewardship responsibilities, legislative obligations, and the provision of services and infrastructure across the city. Every resident benefits from Council's investment in the local economy, infrastructure, parks, libraries, and other community amenities.

For 2026/2027:

- A general rate revenue increase of 5.90% (excluding growth) is proposed; plus
- A once-off general rate revenue of 0.50% to cover State Government Cost shifting for elections
- The number of rateable assessments has grown by 1.64% over the 2025/2026 period.
- The waste service charge has increased from \$344 to \$390 per applicable assessment and is intended recover cost of providing the service.

Council plans to raise \$28.96 million from general rates (excluding the Regional Landscape Levy and service charges).

The City's average residential rates remain below the state rural average, although this needs to be considered against the community's relative socio-economic disadvantage (SEIFA Index) and separate Waste Service Charge.

This report should be read in conjunction with Council Report Adoption of Valuations and Rates Declaration year ending 30 June 2027, also presented at the Special Meeting, 25 June 2026.

Rating Policies

Rating Policies were updated as part of the recently completed review of the basis of rating. Only minor changes are proposed for items endorsed by Council following the review.

R105 Rating policy –

- Inclusion of First Home Buyers – New Dwellings 100% rebate and conditions

IMPLICATIONS TO CONSIDER

Legal	Section 123 of the Local Government Act 1999 requires Council to have an annual business plan and budget. Further guidance is provided by Sections 6 and 7 of the Local Government (Financial Management) Regulations 2011.
Financial and Budget	This document recommends Council adopts a balanced budget for 2026/2027. It is consistent with the updated Long Term Financial Plan.
Community Consultation and Engagement	Community consultation has been referenced in the body of the document due to its significance to the process. The consultation approach undertaken ensured inclusive and transparent engagement.
Other Resources	Additional FTEs, consultant support and strategic plan priority projects are incorporated into the plan to ensure effective delivery.

RISK ANALYSIS

The risk identification and categorisation relies on the City of Mount Gambier [Risk Management Policy](#).

Risk	Consequence Rating	Risk Likelihood Rating	Inherent Risk Rating	Mitigation	Residual Risk Rating
Finance - Inadequate revenue to deliver planned services	Major (4)	Unlikely (2)	Moderate	Step increases, service reviews, grant pursuit	Low
Reputation - Community dissatisfaction with service levels or rates	Moderate (3)	Possible (3)	Moderate	Clear communication, transparent process	Moderate
Legal / Regulatory / Policy – legislative and Policy Non-compliance with statutory requirements	Moderate (3)	Unlikely (2)	Moderate	Compliance monitored through governance practices and reviewed annually as part of the process	Low
Service Delivery - Inability to meet service expectation	Moderate (3)	Unlikely (2)	Moderate	Strategic workforce planning and unlocking projects	Moderate
People - Staff capacity limitation	Moderate (3)	Possible (3)	Moderate	Resourcing provisions and contractor support	Moderate
Infrastructure - Asset failure due to underinvestment	Major (4)	Unlikely (2)	Moderate	Prioritised renewal and condition monitoring	Low

APPLICATION OF STRATEGIC PLAN

This report aligns to the following strategic objectives(s):

Priority 6: Excellence in Leadership and Governance

- 6.1 Ensure Elected Council Members are meeting their civic obligations and making informed, strategic decisions in the best interests of the community.
- 6.4 Review and continually update the Long -Term Financial Plan to ensure ongoing financial sustainability to community expectations and legislative requirements.

This report contributes to delivery of the following key strategic project(s):

N/A

RELEVANT COUNCIL POLICY

[Budget Policy - B300](#)

[Community Consultation and Engagement - P195](#)

[Rates - Rate Rebate - R155](#)

[Rates - Rating - R105](#)

IMPLEMENTATION AND NEXT STEPS

Following the adoption of the Annual Business Plan and Budget 2026/2027 in June 2026:

- The budget will be formally rolled out across the organisation to all budget holders and will form the basis of financial performance reporting.
- Performance against the annual objectives and Key Performance Indicators included in this document will form the basis for quarterly Annual Business Plan Performance reporting.

Both these items are regularly reviewed, updated and reported to Council.

CONCLUSION

The 2026/2027 Annual Business Plan and Budget has been developed to support the continued delivery of services, strategic priorities, and long-term asset stewardship in a financially responsible manner. It reflects a considered balance between maintaining service levels, progressing key initiatives, and responding to ongoing economic and operational pressures. The Annual Business Plan details Council's intended programs for the 2026/2027 financial year including the annual budget and rating policies.

The Annual Business Plan is informed by Council's Long Term Financial Plan, Asset Management Plans, and Strategic Plan, ensuring alignment between short-term actions and long-term objectives.

Overall, the 2026/2027 Annual Business Plan and Budget represents a balanced and strategic approach to delivering community outcomes, maintaining service provision, and supporting long-term financial sustainability. It demonstrates Council's ongoing commitment to strong governance and prudent financial management.

Following adoption, the document will be finalised and published on Council's website in accordance with the decisions of Council.

ATTACHMENTS

1. Annual Business Plan and Budget 2026 2027 for Adoption [5.1.1 - 115 pages]

2026/2027 Business Plan and Budget

City of
Mount Gambier

Public consultation

The public consultation period for the Draft 2026/2027 Business Plan and Budget occurred between 21 May 2026 extending for 22 days up to and including 11 June 2026. Verbal submissions were heard at a special meeting of Council held 16 June 2026.

Members of the public were invited to engage via a number of platforms including:

Online: Have Your Say webiste

The Have Your Say online platform was the primary method used to access, download and submit responses for the purposes of consultation. Statics show that the community engaged with:

- 156 Aware Participants – visited at least one page
- 81 Informed Participants – downloaded a document or visited multiple pages
- 2 Engaged Participants – provided digital submission

Email Correspondence

10 emails were received from 5 individual community members or organisations and included feedback, comments and questions. Over 111 questions were received from two individual members of the public during consultation.

In person

No members of the public made submissions in person at the Civic Centre.

Public information sessions and meetings

Public information sessions were held on Tuesday 2 June 2026 at 6:00pm and Wednesday 3 June 2026 at 12:00pm at the Mount Gambier City Hall, with a total of 11 attendees across the two sessions and 10 individual members of the public. The information sessions allowed an opportunity for direct questioning and feedback with elected members and members of Council's executive and management personnel.

Verbal Submissions

A special meeting of Council was held **Tuesday 16 June 2026 at 5:00pm** to receive verbal submissions. Of which, four members of the public registered intent to speak, with three members attending in person.

Post consultation amendments

The following amendments were made to the Business Plan and Budget following release of the draft document for consultation purposes:

- Public consultation section updated to reflect breadth of engagement.
- General rates were updated to reflect the latest information provided by the Office of the Valuer General and the final figures for adoption. Additional data has been incorporated including cents in the dollar, the number of assessments including growth and average rates. Whilst concentrated in the “our budget” section, this information is updated in a number places throughout the plan.
- Waste Service Charge was updated to reflect the latest information provided by the Office of the Valuer General in conjunction with Council Policy for the application to relevant assessments.
- Statement under influences regarding the proposed legislative change to postpone the local government periodic elections.
- Updated Financial Statements referencing recently adopted Budget Revision 3 values and incorporating minor adjustments based on changes to rates revenue and operational expenditure to bring back to balanced budget.
- Other minor grammatical and wording improvements that do not materially change the document.

City of Mount Gambier acknowledges the Boandik people as the Traditional Custodians of the land and water our city sits upon today.

We respect and recognise the deep feelings of attachment and the spiritual relationship our Aboriginal and Torres Strait Islander people have with the land and water.

A message from the Mayor

As Mayor of the City of Mount Gambier, I am pleased to present the City of Mount Gambier's adopted Annual Business Plan and Budget for 2026/2027.

Each year, our Annual Business Plan and Budget provides an opportunity to pause, reflect and refocus on what matters most to our community. It sets our roadmap for the year ahead, outlining how Council will deliver services, programs and projects that support our city.

Our strategic plans inform every decision we make, helping ensure that the services and infrastructure our community relies on are delivered in a sustainable and responsible way. This plan is guided by the Mount Gambier 2035 Community Vision, our Strategic Plan 2024 - 2028, and the financial principles outlined in our Long Term Financial Plan (LTFP). By aligning with these long term strategies, we ensure that our actions

are considered, financially sound and consistent with the priorities our community has helped shape.

Elected Members and Council staff have worked collaboratively to develop this year's budget and project program, with a continued focus on maintaining essential service delivery while supporting the city's future growth and development.

The 2026/2027 plan includes a range of projects and initiatives that will strengthen our infrastructure, enhance community spaces and support economic activity. Council will continue to invest in connectivity and liveability through projects such as extending the Rail Trail and delivering improvements identified in the Shared Path Master Plan. Planning for our future remains a priority, with continued progress on the CBD Master Plan and master planning for key community spaces including Vansittart Park.

Further investment will support the activation and enjoyment of our city, including enhancements to play spaces, open spaces, signage and wayfinding, and activation of areas such as the Railway Lands precinct. At the same time, Council is strengthening its environmental focus through continued investment in waste management infrastructure and delivery of initiatives aligned with our Waste and Resource Recovery Strategy.

The Annual Business Plan and Budget reflects a balanced and measured approach, with restrained expenditure across operational services and capital works, and a continued emphasis on asset renewal, prudent financial management and intergenerational equity.

Above all, we remain committed to ensuring Mount Gambier continues to be a place where people feel proud to live, work, invest and visit.

A handwritten signature in black ink that reads "Lynette Martin". The script is fluid and cursive, with the first name being more prominent.

**Lynette Martin OAM
MAYOR**

The Business Plan and Budget sets out Council's priorities, services, programs and projects for the 2026/2027 financial year. Although in its third year, this is the second budget aligned with the 2024-2028 Strategic Plan since its adoption and details what Council plans to provide to the community for the year ahead, including measures for success.

Reflecting the aspirations, priorities and values articulated in the Community Vision, Mount Gambier 2035, the Strategic Plan 2024–2028 will guide Council's work to deliver on its vision and purpose over the four year term. The Business Plan and Budget is an important part of the City of Mount Gambier's suite of strategic planning documents. Informed by Council's Strategic Plan and Long Term Financial Plan, the Business Plan and Budget serves as the key annual operational and financial document. It is the fourth business plan and budget for this Council term, as we contribute to delivery of the community's vision.

Council provides a wide range of services to the community, some mandated under legislation, such as the *Local Government Act 1999* and others on the basis of community need or expectation. The program of services provided by Council are presented in this plan per portfolio and business unit and include capital and strategic projects. The financial information which underpins this plan is provided at the end of this document.

Our budgeted expenditure of \$56.97 million across operating and capital budgets focuses on maintaining service delivery. Renewal capital projects are first priority to ensure investment in existing assets are sustained and do not burden future generations of ratepayers.

Key budget influences

In the development of the plan we have undertaken a review of our internal environment and broader external environment that includes social, environment, economic and planning elements.

Following historical financial pressures associated with rates below inflation and the COVID-19 pandemic, 2026/2027 focuses on maintaining the long-term sustainability within current targets. This review identifies key issues that help provide the context for the development of this plan.

- The current economic environment remains volatile due to factors largely outside of Council's control. Ongoing supply chain disruptions, alongside broader global events, continue to place upward pressure on the availability and cost of materials, contractors and resources required to deliver operating and capital works programs. If these conditions persist, there is an increased risk of cost escalation and additional contingencies may be required to support delivery of the capital works program included in this Annual Business Plan and Budget.
 - Inflation remains uncertain and more variable than in recent years, creating risk of cost escalation across goods, services, labour and construction. The 2026/2027 budget has been prepared using inflation assumptions based on Deloitte Access Economics' March 2026 ten-year forecasts; however, continued volatility may result in higher-than-assumed cost increases that would place additional pressure on operating and capital budgets.
 - Interest rate settings also remain subject to change in response to global conditions and monetary policy. The 2026/2027 budget adopts interest rate assumptions based

on current Local Government Financing Authority (LGFA) interest rates using references to Deloitte Access Economics forecasts. If rates remain higher for longer, or rise further, borrowing costs and financing pressures may increase and affect Council's capacity to deliver planned capital works within current funding settings.

- Impacts of underground services continue to influence time, cost and resource requirements to deliver the capital works program.
- A cross-government approach to the development of access to Mount Gambier's natural attractions has been advocated, supported by coordinated scoping, master planning, and approval processes for infrastructure development and marketing.
- The Limestone Coast Regional Plan has been released, providing a comprehensive long term strategic framework for land use and infrastructure development in the region. This plan outlines a vision for sustainable growth, identifying key areas for housing, employment, and infrastructure needs over the next 15 to 30 years.

Significant concerns regarding the provision and timing of enabling infrastructure, including water and sewer (noting ageing assets and capacity constraints), continue to present challenges for development across the region. These constraints remain a key risk to the pace of growth anticipated in the Limestone Coast Regional Plan and may impact projected planning and development income. A conservative approach to forecasting development-related revenue is therefore required until greater certainty is achieved. Council will continue to advocate for, and engage with, key stakeholders to progress solutions that support sustainable development for the City of Mount Gambier and the broader region.

- Global influences, political shifts, the increasing adoption of Artificial Intelligence (AI) and supply chain logistics will continue to materially influence opportunities and risks for regional growth. At the same time, the State Government's priority to increase housing supply is driving continued planning reform and streamlining of development assessment processes, which may change the nature and extent of Council's role in housing regulation over time.
- In recent years in accordance with LTFP principals Council has adjusted rating to address earlier periods where rate revenue did not keep pace with rising costs and to support Council's long term financial sustainability. The increase for 2026/2027 reflects the outlook for higher inflation driven by ongoing market volatility, the continued transfer of costs from other levels of government, and is intended to help manage cost pressures, support service delivery and maintain progress against Council's Long Term Financial Plan.

City of Mount Gambier's average residential rates remain below the metro, rural and state average for South Australia.

- A review was undertaken on the cost of providing waste collection services to the community. Due to inflationary pressures that have impacted both operating and capital costs and implementation of waste reduction strategies required to meet Government mandates an increase above consumer price index (CPI) for 2026/2027 is required.

Council has not been previously charging the full cost of waste collection, kerbside recycling and green waste, including the cost of disposal to Caroline Landfill. An increase to the waste service charge will ensure that Council is able to cover the cost of service and also charge at a level that is more consistent with other South Australian Councils.

- Council has completed a Rating Review, which is available on the City of Mount Gambier website. The outcomes of the review inform this Annual Business Plan and Budget by guiding the approach to rating structure and settings, improving transparency and equity, and supporting the revenue assumptions used to fund service delivery and the capital works programs. 2026/2027 is year 1 of a 5 year staged implementation plan to amend differential rating application and improve equity while also advancing towards Council's broader strategic goals and plans.
- Council has not increased its budget to accurately reflect assessment growth and the rising cost of existing services in prior years. Assessment growth above the conservative estimate included in the adopted Long Term Financial Plan, is not absorbed. This improves Council's ability to maintain financial sustainability in relation to increases in required service provision.
- Council continues to engage specialist consultants to review electricity contracts to advantage Council's green power and reduce or limit the impacts of cost pressures seen in prior years. The desired outcome from this engagement in 2025/2026 was to reduce Council's overall electricity and potential for an increased revenue source. Forecasts continue to show improvements to Council's expenditure, even when usage has increased.
- This year, Council continues to invest in detailed condition assessments to refine our capital renewal program for major infrastructure. These adjustments are aimed at maintaining assets to a standard that meets both legislative requirements and community expectations, while improving the alignment of Council's asset consumption and informing future asset management planning.
- To meet financial targets while responding to community needs and strengthening the organisation's capacity to deliver services efficiently and effectively, additional capacity is required. The adopted budget includes provision for:
 - Priority work plan projects (as per the strategic work plan and detailed in the key assumptions section).
 - Additional resource capacity.
 - CBD planning and activation.
 - Master planning of key precincts, 2026/2027 set to focus on Vansittart Park.
 - Strategic work plan delivery (beyond those projects already identified).

These investments are essential to build the organisational capability necessary to support long-term service delivery and strategic outcomes.

- At the time of preparing this Annual Business Plan and Budget, the outcome of the proposed legislative change to postpone the local government periodic elections was unknown. The budget includes resources for election-related costs based on the most recent advice received from the Electoral Commission of South Australia.

Highlights

Key highlights in the 2026/2027 budget include:

Civic Centre

Council intends to undertake required capital renewal works to the Civic Centre roofing. This project is in partnership with Country Arts South Australia.

Central Business District (CBD)

Council undertook community consultation with PlaceScore in the 2024/2025 financial year to provide evidence-based metrics, strengths, challenges and opportunities for the Mount Gambier CBD. This was the first step towards informing the development of a Master Plan to guide the future direction for the CBD. Throughout 2025/2026 Council engaged Tract Landscape Architects and Planners to undertake the preparation of the CBD master plan, supported by specialist consultants in urban design, housing, traffic and movement, heritage, place activation and economic development. Council intends to complete the Master Plan for the CBD in the 2026/2027 financial year.

To further support work started in the 2026/2027 financial year, Council has maintained an allocation to support rapid activation and immediate implementation of actions following finalisation of the master plan.

Infrastructure grant funding

Council will use funding from the Roads to Recovery (RTR) initiative to renew existing infrastructure assets, including road reconstruction project for Lake Terrace East. In addition to funding from RTR, Council will use Special Local Road Funding (if successful) for the stage two reconstruction of Davison Drive.

Investment Attraction

To improve Council's ability to secure external funding. Increasing other sources of revenue will reduce pressure on rates in future years and maintain ability to improve and grow the city.

Valley Lake Conservation Park public toilet

Council intends to undertake capital renewal works on the public toilets located adjacent to the Valley Lake Conservation Park as part of asset management planning.

Shared paths

The Shared Path Master Plan was developed in 2024 in consultation with the community to improve connectivity and shared pathway networks that can be used by a variety of active transport users. Council intends to maintain its capital investment in new footpaths to meet objectives outlined in the Shared Path Master Plan. In 2026/2027, this investment will be used to extend the Rail Trail from O'Leary Road to Wireless Road.

Master planning - Sport Recreation and Open Space

To continue to provide quality, well-planned spaces and guide the future direction of open spaces and facilities in Mount Gambier, Council intends to complete a Master Plan for Vansittart Park with further master planning identified for Olympic Park and Hastings Cunningham Reserve in future years.

Playgrounds

Providing opportunities to play is a priority for Council. A capital allocation is included to deliver on the Play Space Implementation Plan, established following work undertaken on the Sport Recreation and Open Space Strategy which identified needs, opportunities and improvements for play spaces around the city.

Railway Lands

Council has incorporated a capital allocation for the Railway Lands precinct to help leverage external funding (including grant applications) and support community-led investment. This investment is intended to enable activation of underutilised assets and spaces across the precinct.

Signage

To improve ease of navigation throughout the city and ensure both residents and visitors can effortlessly access key destinations and attractions, Council intends to deliver wayfinding signage.

Priority Work Plan Projects

There are three foundational projects underpinning the strategic work plan that have been identified as priority 'projects' that will create both capacity and capability in Council to deliver and develop services in an efficient and effective manner. These multi-year projects started in 2024/2025 and continue to 2026/2027 where three projects are expected to deliver the following:

1) Asset management planning approach

Understanding our assets and consumption to improve efficient asset management and strategies including:

- Establishment of new asset classes.
- Asset policy framework and supporting procedures and service levels.
- Detailed condition assessments.
- Review rates of asset consumption.
- Draft asset management plans.

2) Business systems and infrastructure

Upgrading systems to improve efficiency, service delivery and customer experience including:

- Upgrade and transition to Civica Authority Altitude and selected support applications.
- Upgrade of Enterprise Records Management System, and
- Transition to a SaaS (software as a service) solution.

3) Workforce planning framework

Ensuring Council has the right skills and capability to deliver future services.

- Undertake strategic assessment of services.
- Develop organisational workforce plan and begin implementation.

Visitor Servicing Model

Council is currently reviewing its service delivery, Visitor Servicing Model.

Waste Management

During 2025/2026 Council adopted the Waste and Resource Recovery Master Plan. This plan identified leachate management at Caroline Landfill as a major risk with an action to investigate alternate leachate management options. Council has included a leachate pond as part of its capital program for 2026/2027 following investigations.

Wulanda Recreation and Convention Centre

Continued operation and activation of the Wulanda Recreation and Convention Centre will increase the ability for Mount Gambier to host major sporting competitions, conferences, events and performances providing significant social and recreational benefits and broader economic opportunities for local business. Council has included capital funding for an outdoor pool cover to increase usability and improve heating efficiencies.

Definitions

Administration / Support Services - Governance, Elected Members, organisational, support services, accounting/finance, payroll, human resources, information technology, communication, rates administration, records, occupancy, customer service, other support services, revenues, separate and special rates.

Community Services - Public order and safety, crime prevention, emergency services, other fire protection, other public order and safety, health services, pest control – health, immunisation, preventive health services, other health services, community support, senior citizens facilities, children and youth services, community assistance, other community support, community amenities, bus shelters, cemeteries / crematoria, public conveniences, car parking – non-fee-paying and other community amenities.

Culture - Library services, other library services, cultural services, cultural venues, heritage, museums and art galleries and other cultural services.

Economic development - Regional development, tourism, visitor information and other economic development.

Environment - Animal/plant boards, waste management, domestic waste, green waste, recycling, transfer station, other waste management, other environment, stormwater and drainage, street cleaning, street lighting, street-scaping, Natural Resource Management levy, and other environment.

Recreation - Parks and gardens, sports facilities – indoor, sports facilities – outdoor, swimming centres – Outdoor, and other recreation.

Regulatory services - Dog and cat control, building control, town planning, clean air/pollution control, litter control, health inspection, parking control, and other regulatory services.

Transport - Footpaths and kerbing, roads – sealed, roads – formed, roads – natural formed, roads – unformed, traffic management and other transport.

Engineering / Indirect - Depot management, indirect and general plant cost not included in other functions.

Shaping the future of Mount Gambier requires both vision and commitment to long term planning. As South Australia's largest regional capital, our city plays a pivotal role in driving development and prosperity for the Limestone Coast region.

The 2024-2028 Strategic Plan, adopted in November 2024, focuses on six strategic priorities and responds to what the community told us we should focus on as we work towards the Community Vision, Mount Gambier 2035. It charts a path to achieve our long term goals, focusing on the environment and liveability, fostering learning and innovation, enhancing infrastructure and services, stimulating economic and business growth and building a vibrant community—all guided by responsible leadership and governance.

Strategic document hierarchy

Mount Gambier 2035 – A community vision for our regional capital

- A volcanic past with a crystal clear future. In 2035, Mount Gambier is a connected hub nestled on the slopes of an ancient volcano; a haven of natural beauty. It is a place of stories, where our community is family, nurtured through growth, opportunity and connection.

The Mount Gambier community has developed a vision, Mount Gambier 2035, to shape our city's future based on its inherent strengths and shared values. This vision represents a collective agreement on what we want our community to look like in 2035.

The Mount Gambier 2035 Community Vision was developed through extensive community engagement and serves as a foundational document for Council. It informs our overarching strategic planning and reporting framework, ensuring that all Council activities and decisions are aligned with the community's goals and aspirations. Council is proud to be the custodian of this community-led vision and is committed to using it as a guiding document for planning and decision-making. This vision informs our strategic plan, which in turn guides all of Council's strategic documents.

Strategic Plan 2024 - 2028 – Four years

Council's Strategic Plan 2024 – 2028 outlines the overarching goals for the next four years, guiding resource allocation and establishing a framework for measuring and reporting progress.

The plan responds directly to the community's vision, addressing the needs and aspirations of those who live, work, study, or visit Mount Gambier. It reflects the core principles of connection, accessibility and sustainability, which the community has identified as essential to everything we do.

These priorities include the five from the Community Vision – Mount Gambier 2035, along with a sixth priority highlighting Council's commitment to strong, accountable leadership and governance.

Long Term Financial Plan (LTFP) - 10 year forecast

The LTFP shows the financial impact of the implementation of the Strategic Plan over the next 10 years and incorporates key assumptions from the Strategic Plan and Asset Management Plans. The LTFP is reviewed by Council annually.

Asset Management Plans – 10 year forecast

Asset Management Plans identify the required future expenditure on infrastructure and funding required to maintain service levels. They are aligned with the LTFP.

18

Environment and Liveability

'We are custodians of the landscape, committed to protecting and preserving our natural environments, creating a liveable city.'

What success looks like as we work towards 2028:

- Our environment is protected and restored, with the volcanic landscape, unique aquifer, volcanic soils and ancient heritage preserved as key natural areas of our identity and character.
- Our city is a leader in resource sustainability.
- Our city's green corridors and urban biodiversity are enhanced through sustainable land management and the seamless integration of path networks.

Strategic objectives and projects to prioritise this year:

- Work with key stakeholders to progress the Vision and Guiding Principles of the Crater Lakes Activation Plan.
- Implementation of agreed actions under our Waste and Resource Recovery Strategy.
- Master planning for our resource recovery and waste management services to ensure best practice for the future.

Measures of success for this year:

- Cultural Heritage Management Plan developed for the Crater Lakes Precinct, in consultation with Traditional Owners, identifying sites of cultural significance, management responsibilities and protection measures.
- Reduction in waste to landfill from the previous year.
- Reduce waste stream contamination and improve FOGO participation through targeted community education and engagement.
- Design, secure EPA approval, award tender, and confirm construction commencement for additional leachate storage capacity by June 2027 to support improved landfill operations and environmental management.

Learning and Innovation

'A regional learning hub that fosters innovation and local industries.'

What success looks like as we work towards 2028:

- Local businesses and entrepreneurial activities flourish through opportunities for collaboration and development.
- Our city attracts and retains a skilled workforce for regional growth, development and succession planning.
- Our community members are inspired to learn at any age, achieving a holistic and comprehensive approach to personal growth and development.

Strategic objectives and projects to prioritise this year:

- Implementation of the Mount Gambier Library Strategy 2023 -2027 so that our library fosters curiosity and builds connections that deliver life shaping experiences for all.
- Address the diverse needs of our community with accessible and inclusive spaces that promote creativity, learning, build connections and ensure a welcoming and safe environment.
- Deliver programs and services that enhance engagement across all age groups including creating better community connection and skill sharing.

Measures of success for this year:

- Enhance the Mount Gambier Library as a culturally welcoming place by delivering a co-designed cultural storytelling mural that acknowledges Aboriginal history and languages, in partnership with the Traditional Owners, South Australian Aboriginal Secondary Training Academy students and a local artist.
- Support vulnerable families by delivering a co-designed *Words Grow Minds* parenting workshop series at the Mount Gambier Library in partnership with local service providers.
- Enable young people to drive social impact in Mount Gambier by growing the Youth Activation Group to 10 members and supporting the delivery of four youth-led events per year using library spaces, resources, and mentorship.

Infrastructure and Services

A high quality, affordable lifestyle where people are happy, healthy and housed and able to access all available resources.'

What success looks like as we work towards 2028:

- Our city is connected through a safe, inclusive and seamless integrated transport network.
- Our quality infrastructure provides equitable access to information, services, activities and facilities.
- Our urban environment is thoughtfully designed to adapt to our diverse and growing city, ensuring access to affordable and varied housing options that meet community needs.
- Our community spaces are inclusive, safe and accessible, promoting active, healthy and connected lifestyles through enhanced open spaces, quality recreation areas and supportive infrastructure.

Strategic objectives and projects to prioritise this year:

- Continued advocacy to enhance connectivity within and beyond our city through investment and infrastructure that supports accessible public bus services, reliable air travel and rail networks for both freight and passenger transport.
- Continued implementation of the goals and priorities outlined in our Sport, Recreation and Open Space Strategy.
- Achieve a well-planned, liveable and inclusive city by influencing State and regional planning frameworks to incorporate local urban priorities.
- Commence and progress a Planning and Design Code to enable higher-density development opportunities within the City of Mount Gambier.
- Review and update our asset management planning framework to enhance our Infrastructure and Asset Management Plans ensuring that work programs are well planned and budgeted for delivery.
- Support the maintenance, development and operation of bold and interesting community, cultural and civic places and infrastructure, including the Wulanda Recreation and Convention Centre.
- Delivery of a refreshed Regional Public Health Plan underpinning our approach to the health and wellbeing of our community.
- Progression and the implementation of the priorities and actions in the Shared Path Master Plan.
- Development of a play strategy that informs the provision of play experiences that are attractive to a range of ages.

Measures of success for this year:

- Provide a formal Council response to the State Government's Regional Review of Public Transport to advocate for improved regional public transport connectivity.
- Develop and deliver a Landscape Design Framework to guide the management and development of Mount Gambier open spaces, endorsed by Council by September 2026.
- Contribute to the Greater Mount Gambier Master Plan to influence State and regional planning frameworks so that Council-identified planning priorities are appropriately considered and reflected.
- Proposal endorsed by Council and formally accepted by Department for Housing and Urban Development (DHUD) for progression to public consultation.
- Complete condition audits and valuations for infrastructure asset classes, strengthening asset condition, risk and service life data used in Council's Asset Management Plans.
- Update the Infrastructure Asset Management Plan and the 10-year Forward Works Program to reflect expanded asset segmentation, enabling improved alignment between asset consumption, renewal timing and funding within the Long Term Financial Plan.
- Deliver the adopted capital works program with regular reporting on Council progress.
- Enhance the functionality, safety and longevity of the Civic Centre by delivering roof replacement works and spatial review.
- Optimise the performance of the Wulanda Recreation and Convention Centre by prioritising maintenance works and developing a forward maintenance works program to support long term asset sustainability.
- Develop a refreshed Regional Public Health Plan (RPHP) and supporting implementation plan for Council's endorsement.
- Implementation of the shared path from O'Leary Road to Wireless Road West in accordance with Shared Path Master plan.
- Finalise a Play Strategy and use it to inform the planning and delivery of one play space.

Economic and Business Growth

'A creative, entrepreneurial mindset that creates a thriving, resilient community.'

What success looks like as we work towards 2028:

- Our resilient local economy is supported by diverse industries and employment opportunities, enhanced by connectivity through modern freight networks and efficient transport.
- Our visitor economy thrives through collaboration in sharing our storey via immersive experiences with our unique natural and cultural assets.

Strategic objectives and projects to prioritise this year:

- Work with key stakeholders to create a Master Plan for Umpherston Sinkhole/Balumbul.
- Work with key stakeholders to create a Master Plan for Vansittart Park.
- Implementation of a hub and spoke visitor servicing model.
- Implementation of signage and wayfinding that improves ease of navigation throughout the city
- Advocacy for and support of the development of modern, efficient intermodal freight networks and transport systems to improve supply chain connections and the movement of goods in and out of Mount Gambier.

Measures of success for this year:

- Develop a Master Plan for Umpherston Sinkhole/Balumbul by September 2026.
- Develop a Master Plan for Vansittart Park.
- Complete a review of the tourism hub and spoke model and present recommendations and action plan to Council for endorsement by December 2026.
- Prepare and secure Council endorsement of a Wayfinding Strategy Implementation Plan, including priorities and timeframes by September 2026.
- Prepare and present a discussion paper to support advocacy for modern, efficient intermodal freight networks that strengthen supply chain connectivity for Mount Gambier.

A Vibrant Community

'Events, activities, sport and recreation all contributing to a vibrant city during the day, at night and across the seasons.'

What success looks like as we work towards 2028:

- Our CBD and key inner-city spaces are thriving, welcoming, functional and sustainable, fostering a sense of belonging while celebrating our diversity, culture and history.
- We are a city renowned for our social and cultural diversity, creativity and heritage, supporting diverse events and experiences that bring people together and enhance social connection.
- Our city is known as a regional destination for arts and cultural experiences with a community enriched by arts, culture and live entertainment initiatives.

Strategic objectives and projects to prioritise this year:

- Delivery of a CBD activation and master plan.
- Implementation of a Riddoch Arts and Cultural Centre Strategy.
- Recognise, encourage and support artists, emerging artists, writers and performers through promotion of the arts and supporting opportunities to exhibit and perform.
- Pursue programs and opportunities that enhance the live entertainment in our city.
- Continue to pursue opportunities to reactivate the Mount Gambier Railway Station.

Measures of success for this year:

- CBD Master Plan is consulted and endorsed by Council by September 2026.
- Strengthen governance of arts and cultural experiences by developing and adopting best-practice policies for Collections, Exhibitions, Retail, and Public Art.
- Establish the Riddoch Arts and Cultural Centre as a nationally recognised flagship regional gallery through a new brand and identity.
- Activate the Riddoch Arts and Cultural Centre foyer as a vibrant retail and programming hub that supports local artists and strengthens community engagement.
- Support MusicSA in the delivery of the 2026 Regional and Remote Music Summit in October 2026.

Excellence in Leadership and Governance

'We are a professional and innovative Council, valued for our progressive, responsive and sustainable management in delivering meaningful outcomes for the community.'

What success looks like as we work towards 2028:

- We are a transparent and accountable organisation that makes informed decisions and demonstrates integrity through effective governance.
- We are a financially responsible organisation delivering sustainable, value-for-money services that meet community needs and uphold the principle of intergenerational equity.
- We care about our people ensuring we support, develop and motivate our workforce to meet community needs with capability and confidence.
- We are easy to do business with, committing to a customer-centric approach that delivers positive experiences and builds trust.

Strategic objectives and projects to prioritise this year:

- Deliver business systems and infrastructure improvements that support us to deliver our services more efficiently and effectively to the community.
- Develop and implement a workforce planning framework that informs the skill and capability requirements Council needs to deliver its services and programs.
- Develop and deliver our next Reconciliation Action Plan in partnership with the Yerkalalpata Community Reference Group.
- Update Council's Community Consultation and Engagement Policy to align with Local Government Association South Australia and Local Government Act Reforms.
- Strengthen Council's capability to secure external grant through a coordinated grant attraction strategy, supported by robust governance, accountability and acquittal frameworks.
- Continue to develop the leadership capability of our workforce in accordance with the Leadership Capability Framework.
- Ensure Council-administered grants, sponsorships and events are managed through clear, consistent and transparent policy frameworks that align funding decisions with Council priorities and deliver strong community outcomes.
- Continue the implementation of Council's Volunteer Management Plan to support and expand our volunteer workforce.
- Improve asset stewardship and decision-making by strengthening Council's asset management governance framework, policies and standards.

Measures of success for this year:

- Continue transition to Civica Altitude through the implementation of Procure to Pay, Actus and Citizen Central modules.
- Deliver a practical, evidence-based Workforce Plan endorsed by Council and embedded in future strategic financial planning by December 2026.

- Progress the next Reconciliation Action Plan in partnership with the Yerkalalpata Community Reference Group.
- Update and seek endorsement for Council's Community Consultation and Engagement Policy and Framework.
- Establish a grant attraction strategy with supporting governance policies and procedures to enable effective pursuit, management and accountability of grant funding.
- Embed consistent leadership behaviours that support a positive culture and workforce engagement through the ongoing development of leaders in accordance with the Leadership Capability Framework.
- Review and update Council's Grants and Sponsorship Policy and develop an Events Policy to ensure clear, consistent and transparent governance for Council-administered funding and event support.
- Deliver a Council-endorsed Volunteer Management Plan that strengthens and supports volunteer participation across council services and the broader community.
- Relevant asset-related policies reviewed and updated to improve Asset Management practices, Engineering Standards, Gifted Asset acceptance and permit compliance.

The City of Mount Gambier will deliver the 2026/2027 Business Plan and Budget through our organisational structure, facilities and partnerships. The organisational structure comprises the Office of the Chief Executive Officer (CEO) and three portfolios each containing business units that deliver services and key focus areas supporting the Community, Strategic Plans, and legislative requirements.

Office of the Chief Executive Officer

The Office of the Chief Executive Officer (CEO) supports the CEO to lead the City of Mount Gambier in making informed decisions to deliver on Council's priorities and to foster productive partnerships with community, commerce, industry and government entities.

The Office of the CEO is supported by 4.76 FTEs . Key service functions provided by this portfolio include:

- Oversight and strategic direction,
- Organisational capacity building,
- Advocacy, partnerships and government relationships,
- Communication and media relations,
- Mayor, Elected Member and Council administration and support, and
- Civic protocols and events.

Office of the CEO	Income '\$000	Expense '\$000	TOTAL (net) '\$000

Corporate and Regulatory Services

The Corporate and Regulatory Services portfolio plays a critical role in supporting the efficient, high-quality services and strategic insights that enhance the City of Mount Gambier's organisational capability, while fostering a culture of accountability, transparency and innovation.

The Corporate and Regulatory Services portfolio is supported by 41.11 FTEs. Key service functions provided by this portfolio include:

- Customer service,
- Development and health services,
- General inspectorate,
- Financial services and procurement,
- Corporate governance and risk management,
- Compliance and Freedom of Information,
- Technology infrastructure and records management,
- Human resource management,
- Organisational performance and development, and
- Business and strategic planning.

City Infrastructure

The City Infrastructure portfolio delivers many essential services for our community, providing and maintaining infrastructure and waste management for our community to conduct business, live and work, partake in recreational activities in a clean, safe and attractive environment.

The City Infrastructure portfolio is supported by 82.88 FTEs. Key service functions provided by this portfolio include:

- Capital Works program,
- Parks and Gardens,
- Waste facility management,
- Kerbside collections – waste, recycling, Food Organics, Garden Organics (FOGO),
- ReUse Market,
- Building maintenance,
- Infrastructure maintenance,
- Asset management planning,
- Environment and sustainability,
- Streetscaping, cleaning and lighting,
- Traffic management and maintenance,
- Public conveniences,
- Cemeteries, and
- Plant, machinery and fleet management and maintenance.

People, Place and Liveability

The People, Place and Liveability portfolio value adds, by leading and enhancing a vibrant culture, thriving economy, creative and inclusive community. It leverages partnerships to build on opportunities to create positive experiences for all who choose to live, work and enjoy our city.

The People, Place and Liveability portfolio is supported by 33.84 FTEs. Due to the nature of services provided by this portfolio, Council estimates casual staff at an additional 4.19 FTE may be utilised. Key service functions provided by this portfolio include:

- Library operations and programming,
- Community engagement,
- Community development and assistance,
- Riddoch Arts and Cultural Centre,
- Economic development,
- Investment and attraction,
- Tourism activation and operations,
- Events and activations,
- Master planning and place making, and
- Cultural heritage and venues.

Capital Works and Projects

Council is responsible for the management of a diverse asset portfolio that provides services and facilities for residents and visitors. It is essential that we manage and maintain our assets responsibly to maximise the value and service the community derives from them.

The annual capital works program is informed by:

- Elected Members and community input,
- Strategic Plan,
- The suite of Asset Management Plans,
- Long Term Financial Plan, and
- Prioritisation and capacity to deliver.

The capital works and projects budget identifies the amount of money that Council will invest in its long term physical assets including renewal and new or upgraded assets.

Renewal – refers to the amount of money that Council will spend in maintaining and replacing its existing asset base.

New/upgrade – refers to the amount of money Council will invest in new assets, or the upgrading of existing assets as identified through Council's strategies and plans.

Capital works and projects summary	Renewal \$'000	New/Upgrade \$'000	TOTAL \$'000

TOTAL		(14,283)	1,419	(12,864)

Summary

The net operating position will result in a **balanced budget**.

Projected operating income is sufficient to meet projected operating expenses. Sufficient funds are available to meet Council's program priorities, services, programs and projects for the 2026/2027 financial year.

Increased revenue and careful review of costs support:

- Market volatility due to current world events,
- Inflationary pressures, and
- Additional capacity.

The **general rate increase** will result in a 5.90% general rate increase and 0.50% to cover the impacts of Electoral Commission of South Australia cost shifting to determine the next Local Government General Election. The number of rateable assessments has grown by 1.64% over 2025/2026 period.

A **decrease** of 4% will be applied to the fixed charge component of general rates. This considers balancing equity and affordability particularly for lower-value properties.

The **Waste Service Charge** will result in an increase from \$344 to **\$390** per applicable assessment.

How the business plan and budget was prepared

The budget process was built from the bottom up using 2025/2026 operating budget as a base, with an update to incorporate ongoing changes. The LTFP was used to guide the preparation of the budget, setting targets for control and to ensure financial sustainability. The LTFP is paramount to assist Council in meeting borrowing covenants set by the Local Government Financing Authority (LGFA). This approach is consistent with previous years.

The strategic work plan was separately prioritised, with cost estimates applied and added to the base budget. These were also modelled through the LTFP where known cost implications could be reasonably applied.

At the same time, revenue assumptions, particularly fees and charges were reviewed to ensure cost recovery of user pay services to drive the relevant revenue components of the budget. Rates and the waste service charge - the most significant revenue input - was reviewed and modelled throughout the budget process.

Financial Sustainability Ratios

Operating Surplus Ratio – 0%, target positive by 2026/2027

The Operating Surplus Ratio indicates whether current ratepayers are funding the full cost of the services and programs delivered by Council in each financial year. A positive ratio reflects that ongoing revenue is sufficient to meet operational expenditure without reliance on reserves or one-off funding sources.

Council has set a target of achieving a positive operating result by 2026/2027, consistent with its Treasury Management Policy and the loan conditions established with the Local Government Finance Authority (LGFA) for the construction of the Wulanda Recreation and Convention Centre.

Council has achieved a balanced operating budget for the second consecutive year, resulting in a forecast Operating Surplus Ratio of 0% for 2026/2027. This represents a continued improvement in Council's financial performance and reflects strong fiscal discipline and prudent financial management.

How is this ratio calculated?

Operating surplus before capital revenues as a percentage of total operating revenue.

Net Financial Liabilities Ratio – 73%, target less than 100%

This financial indicator is useful in determining the level of indebtedness that Council has in comparison to its operating revenue. Council continues to achieve a net financial liabilities ratio of less than 100% of total operating revenue, with a forecast result of 73%. This is in alignment with Council's Treasury Management Policy.

How is this ratio calculated?

Net financial liabilities as a percentage of total operating revenue.

Asset Renewal Funding Ratio – 118%, target 90-110% (average 123% over life of LTFP)

This financial indicator is useful in determining if Council is maintaining all its assets. This is best demonstrated by comparing total capital renewal expenditure planned against Asset Management Plan requirements. Council will maintain an asset renewal funding ratio of greater than or equal to 100% of Asset Management Plan (aligned with Council's Treasury Management Policy), forecasting a 118% result for the 2026/2027 financial year.

The ratio being above 100% has inclusions above the asset management plans due to a timing difference between when the asset management plans were last adopted, changed assumptions included in the LTFP and need that has arisen when preparing the annual business plan and budget. This timing issue will be rectified when the asset management plans are next updated.

How is this ratio calculated?

Capital expenditure on renewal or replacement of existing assets as a percentage of Asset Management Plan allocations.

Together, these Financial Sustainability Ratios show that Council is managing its finances carefully and making decisions that balance today's needs with the needs of future generations. A balanced operating budget, a manageable level of borrowings, and strong investment in maintaining existing infrastructure all indicate that Council is living within its means while continuing to deliver essential services and projects. Council is also maintaining its assets at an appropriate standard, helping to ensure roads, buildings and facilities remain safe, reliable and fit for purpose over time.

Importantly, this approach has been formally recognised by the Local Government Finance Authority (LGFA). In correspondence dated 7 April 2026, the LGFA confirmed that all special conditions attached to Council's Wulanda-related loan facilities were met by 30 June 2025, two years earlier than required. This early achievement provides confidence that Council's finances are well managed, reduces financial risk, and demonstrates Council's ability to responsibly plan for, deliver and manage major community infrastructure now and into the future.

Borrowings

Council undertook its largest borrowings to date in recent years to fund the Wulanda Recreation and Convention Centre, a significant new infrastructure project that the community will benefit from for many years to come. These borrowings are incorporated in our budget and longer term planning.

Borrowing is undertaken in accordance with our Treasury Management Policy.

Council has established a set of guiding principles for the latest version of the LTFP, which in conjunction with the Treasury Management Policy specifies preference for when new borrowings will be considered and is mainly centred around investment in new capital projects.

Fees and charges

Our fees and charges are reviewed annually as an input to the Annual Business Plan and Budget. In recent years, Council has experienced increases in costs and in response to this, fees and charges need to be adjusted accordingly.

The review ensures that fees and charges:

- Recover the cost of service or incrementally move toward recovery,
- Are comparable with market rates and competitor neutrality,
- Are aligned with strategic and operational plans and policies,
- Take into account other influences such as environmental, community expectations, relevant legislation.

There are a number of fees and charges Council cannot directly influence. These are Statutory Fees and are set by the Government prescribed under other Acts.

A complete list of fees and charges for 2026/2027 will be available online at www.mountgambier.sa.gov.au from 1 July 2026.

Risks

It should be noted that there are a number of risks that cannot yet be quantified in this year's Annual Business Plan and Budget as their impact at this time is unknown or pending further advice.

- Market volatility due to world events outside Council control.
- Ongoing inflationary pressures and interest rates.
- The Waste and Resource Recovery Master Plan, together with the Waste and Resource Recovery Strategy 2023–2030, has charted Council's whole-of-life roadmap for waste management services and assets, including the Waste Transfer Station, ReUse Market, Caroline Landfill and kerbside collections. Following endorsement of this work, Council has proceeded to develop detailed implementation strategies (including costings and prioritisation) for key projects such as waste reduction initiatives, leachate management, improved material diversion and recovery, optimisation of the Caroline Landfill layout, and optimisation of kerbside collection services.

- Last year, costing principles for the allocation of internal costs to capital projects were introduced. While a base approach has been implemented and reflected in this budget, this will be reviewed, refined and improved over the coming years.
- Supply chain lead time on significant plant and equipment items may exceed the span of the financial year. This is due to Euro 6 compliance requirements on plant introduced and world events prolonging volatility.
- SA Water infrastructure remains a pertinent issue for the region and could result in reduced development revenue for Council.
- There are a number of service reviews underway with the outcome of these reviews unknown at the time of preparation of this Annual Business Plan and Budget.

Rates and Service Charges

Rate revenue is an integral part of Council's resourcing, accounting for approximately 63% of total revenue for 2026/2027. As a result, Council's rating strategy and policies are a key component of the annual planning process.

In determining rate revenue, consideration is given to both internal and external influences on Council including strategic management plans, stewardship of assets and infrastructure, provision of services to meet community expectation, taxation principles, capacity to pay and legislative compliance.

Every resident benefits in some part from the general amenity of the Council area. This amenity includes the local economy, general Council operations and the ability of every resident to use Council facilities and infrastructure including parks, gardens, libraries, etc.

The 2026/2027 Annual Business Plan and Budget includes a general rate increase of 5.90% and 0.50% increase to cover the impacts of Electoral Commission of South Australia cost shifting to determine the next Local Government Election. The number of rateable assessments has grown by 1.64% over 2025/2026 period.

The Waste Service Charge will result in an increase from \$344 to \$390.

Council plans to raise \$28.96 million from general rates (excluding Regional Landscape Levy and service charges).

Rates modelling

Methodology

Our rates are determined by multiplying the applicable **rate in the dollar** by the **capital valuation** of rateable land in the council area plus a **fixed charge** (as detailed below).

Valuation methods

Council has the option of adopting one of two valuation methodologies to assess the properties in its area for rating purposes:

- **Capital value** - The value of the land and all improvements on the land; or,
- **Annual value** - A valuation of the rental potential of the property.

Capital value is used as the basis for valuing land within the Council area. This method is the most commonly used in South Australia and values the land and all of the improvements on the land. It is considered the fairest and most efficient method of distributing the rate responsibility across all ratepayers because:

- Relative wealth - Is the most appropriate measure of relative wealth in the community.
- Capacity to pay - As a measure of wealth, it most closely reflects the property owners' capacity to pay.
- Taxation principle - It equates with the taxation principle that people should contribute to community, social and physical infrastructure in accord with their capacity to pay as measured by property wealth.

Fixed charge

A component of the total rate will be a fixed charge on every rateable property. This fixed charge applies to all ratepayers and continues to raise less than half of the total rate revenue (before rebates and remissions) required for the 2026/2027 financial year. The reasons for including a fixed charge component are:

- Range of services - To deliver a range of services to the community, Council must maintain various internal support, infrastructure and administrative services. No particular group of ratepayers benefits more than any other from the provision of these services.
- Equal contribution – It is appropriate that all ratepayers contribute equally to the cost of administering Council's services and activities.

A fixed charge ensures all rateable properties pay a base amount to the cost of administering Council activities and maintaining the services and infrastructure that supports each property.

Council is limited to the amount that can be raised by the fixed charge in that it cannot raise more than 50% of its general rate revenue from the fixed charge component. In 2026/2027 Council proposes to raise 34% of its general rate revenue by way of a fixed charge, a reduction of 4% on the last financial year. This reduction was endorsed as part of the recently completed Review of the Basis of Rating 2026 and considers balancing equity and affordability, particularly for lower-value properties while ensuring all ratepayers contribute to shares services. This is a good outcome for lower-valued properties resulting in a decrease of \$34 for the fixed charge component.

Total expected revenue							
	2025/2026	2026/2027	Change	2025/2026	2026/2027		Change
Fixed charge	\$10,183,955	\$9,844,998	-3.33%	\$684	\$650	(q)	-\$34

- (q) Fixed charge - A fixed charge can be levied against the whole of an allotment (including land under a separate lease or licence) and only one fixed charge can be levied against two or more pieces of adjoining land (whether intercepted by a road or not) if they are owned by the same owner and occupied by the same occupier. Refer to the Rating Policy for details.

Differential (rate in the dollar)

In addition to a fixed charge, Council will declare differential general rates in the dollar according to the use of the land within the Council area. In applying differential general rates,

Council has considered and is satisfied that the rating system addresses the issue of consistency and comparability across all Council areas, particularly as it relates to the various sectors of the business and wider community.

Council will declare differential general rates in the dollar based on the use of the land, as follows:

Category	Land Use Description
1	Residential
2	Commercial - Shop
3	Commercial – Office
4	Commercial – Other
5	Industrial - Light
6	Industrial – Other
7	Primary Production
8	Vacant Land
9	Other

The main reasons for applying differential rates are:

- Ability to pay,
- Potential income taxation deductions,
- Materially heavier/lighter use of services by, ratepayers/employees/customers/suppliers, and,
- Provide a disincentive to withholding land from development.

Changes to the application of differential rating were recently endorsed by Council as part of the strategic review of the basis of rating. The outcome of the review resulted in a staged implementation plan to amend differential rating application and improve equity over a 5 year period, with 2026/2027 being the first year of implementation.

Summary of differential rates

Land Use	2026/2027	2027/2028	2028/2029	2029/2030	2030/2031
Residential	100%	100%	100%	100%	100%
Commercial (office, shop and other)	250%	230%	220%	210%	200%
Industrial (other and light)	250%	230%	220%	210%	200%
Primary Production	130%	160%	190%	220%	250%
Vacant Land	250%	250%	250%	250%	250%
Other	100%	100%	100%	100%	100%

	Total expected revenue			No. of rateable properties		Average per rateable property				Cents in the \$
	2025/2026	2026/2027	Change	2025/2026	2026/2027	2025/2026	2026/2027		Change	2026/2027

Land Use (General Rates - GROSS)

Residential	\$18,841,035	\$20,445,500	8.52%	13,067	13215	\$1,441	\$1,547	(p)	\$106	.195275

Regional Landscape Levy	\$1,497,501	\$1,544,358	(f)	3.13%
Waste collection	\$4,973,208	\$5,702,970	(g)	14.67%
	\$31,419,242	\$34,198,846		
Less: Discretionary rebates	(\$40,000)	(\$50,000)	(l)	
Expected total rates revenue	\$31,379,242	\$34,148,846	(m)	8.83%
	$(m)=(e)+(g)+(l)$			

Notes

(a) General rates (existing properties) - In 2026/2027 this will reflect the revenue from properties that existed in 2025/2026. Please note that 2025/2026 has been restated so that year on year numbers are comparable.

(b) General rates (new properties) - In 2026/2027 this will include newly created assessments. New assessments calculated for 2025/2026 do not carry forward.

(c) General rates (GROSS) - General rates revenue prior to the application of any rebates, remissions or objections.

(d) Mandatory rebates - Councils are required under the *Local Government Act 1999* to provide a rebate to qualifying properties under a number of categories. The rates which are foregone via mandatory rebates are redistributed across the ratepayer base (i.e. all other ratepayers are subsidising the rates contribution for those properties who receive the rebate). Please refer to R155 Rate Rebate Policy for further details.

(e) General rates (NET) - Presented as required by the Local Government (Financial Management) Regulations 2011 reg 6(1)(ea). Please note: The percentage figure in (e) relates to the change in the total amount of general rates revenue to be collected from all rateable properties, not from individual rateable properties (i.e. individual rates will not necessarily change by this figure).

(f) Regional Landscape Levy - Councils are required under the Landscape South Australia Act 2019 to collect the levy on all rateable properties on behalf of the State Government. The levy

helps to fund the operations of regional landscape boards who have responsibility for the management of the State's natural resources. Council collects this levy on behalf of State Government and does not retain the revenue nor determine how the revenue is spent.

(g) Waste collection (Waste Service Charge) Waste management is one of the largest costs to the community and Council encourages ratepayers to consider their personal environmental impact and the associated costs. This service charge of \$390 is intended to be cost recovery including bin collection, waste treatment and disposal and maintaining, improving and replacing the service.

(l) Discretionary rebates - A Council may grant a rebate of rates or service charges in a number of circumstances. The rates which are foregone via Discretionary Rebates are redistributed across the ratepayer base (ie. all other ratepayers are subsidising the rates contribution for those properties who receive the rebate). Please refer to R105 Rating Policy and R155 Rate Rebate Policy for further details.

(m) Expected total rates revenue - Excludes other charges such as penalties for late payment and legal and other costs recovered. It also excludes a provision for objections. The amount recorded on the financial statements, is inclusive of all these items.

Estimated growth in number of rateable properties

	2025/ 2026 (as adopted)	2026/ 2027	Notes	Change
Number of rateable properties	14,924	15169	(n)	245
	<i>Actual</i>			

Notes

(n) "Growth" - As defined in the Local Government (Financial Management) Regulations 2011 reg 6(2) is defined in the regulations as where new properties have been created which has added rateable properties to Council's ratepayer base. Growth can also increase the need and expenditure related to infrastructure, services and programs which support these properties and residents.

(o) Average per rateable property - Calculated as general rates for a category, including any fixed charge but excluding any separate rates, divided by number of rateable properties within that category in the relevant financial year.

Estimated average general rates per rateable property

	2025/ 2026 (as adopted)	2026/ 2027	Notes	Change
Average per rateable property	\$1,796*	\$1,909*	(o)	\$113
	(o)=(c)/(n)			

*Does not include WSC.

Property valuations - Councils use property valuations to calculate each rateable property's contribution to the required rate revenue total.

Rates apportionment - Councils do not automatically receive more money because property values increase, but this may alter how rates are apportioned (or divided) across each ratepayer (ie. some people may pay more or less rates, this is dependent on the change in value of their property relative to the overall valuation changes across the Council area).

Total general rates - The total general rates paid by all rateable properties will equal the amount adopted in the budget.

The estimated 'average' - This is based on the total of all rateable properties and is therefore not necessarily indicative of either the rate or change in rates that individual ratepayers will experience. It should be noted (as above) that Council has not calculated an estimate of number of rateable properties. At this stage, the calculations have been estimated on the most recent data provided by the Office of the Valuer General.

 City of Mount Gambier	R105 RATING POLICY	Version No:	18.0
		Issued:	17 February 2026
		Next Review:	May 2027

1. INTRODUCTION

Councils are required to raise revenue for governance, administration and the delivery of goods and services to the community.

Council's major source of revenue is Rates, derived as a tax on land within the Council area. All ratepayers receive benefits from paying rates, but those benefits are consumed in different quantities and types over the life of the ratepayer.

This document sets out the policy of the City of Mount Gambier ("Council") for setting and collecting rates from its community.

2. PURPOSE

Chapter 10 of the *Local Government Act 1999* ("the Act") prescribes Council's powers to raise rates. The Act provides the framework within which the Council must operate, but also leaves room for the Council to make a range of policy choices. This document includes reference to:

- Compulsory features of the rating system.
- The policy choices that the Council has made on how it imposes and administers the collection of rates.

3. SCOPE

Strategic Focus

In determining a suitable Rating Policy, Council has taken into consideration:

- The Council's Strategic Management Plan
- Council's Long Term Financial Plan
- Council's Annual Business Plan and Budget
- Council's Treasury Management Policy
- Required funding for future Asset Replacement (Infrastructure and Asset Management Plan)
- The current economic climate of our City and its district
- The specific issues faced by our community
- The impact of general rate increases upon our community, either generally or for specific classes of the community
- The impact of rates on our community and the need to balance our community's capacity to pay with the needs and desires of the wider interests that form our community.
- Local Government advice from Essential Services Commission of South Australia (ESCOSA)

There will continue to be economic pressures applying to the Council in a number of ways that will have an impact on the Council's budget and as a result will place pressure on rates.

Electronic version in CM is the controlled version.

Printed copies are considered uncontrolled. Before using a printed copy, verify that it is the current version.

 City of Mount Gambier	R105 RATING POLICY	Version No:	18.0
		Issued:	17 February 2026
		Next Review:	May 2027

4. POLICY STATEMENT

4.1 Communication of the Policy

Section 123 of the Local Government Act 1999 requires a Council to prepare an Annual Business Plan and Budget. As per Section 123 (2) (d) of the Act, the Annual Business Plan must set out the rates structure and policies for the financial year. A summary of the Annual Business Plan must be included with the first rates notice.

4.2 Method Used to Value Land

Councils may adopt one of two valuation methodologies to value the properties in their areas. They are:

- Capital Value – the value of the land and all the improvements on the land.
- Annual Value – a valuation of the rental potential of the property.

The City of Mount Gambier has decided to continue to use Capital Value as the basis for valuing land within the Council area. The Council considers that this method of valuing land provides the fairest method of distributing the rate burden across all ratepayers because property value is considered a reasonable indicator of income and capital value, which closely approximates the market value of a property and provides the best indicator of overall property value.

4.3 Adoption of Valuation

The City of Mount Gambier will adopt the most recent valuations made by the Valuer-General. If a ratepayer is dissatisfied with the valuation made by the Valuer-General then the ratepayer may object to the valuation referred to in the rate notice by writing served personally or by post on the Valuer-General within 60 days after the date of service of the notice, provided they have not:

- previously received a notice or notices under the *Local Government Act 1999* referring to the valuation and informing them of a 60-day objection period, the objection period is 60 days after service of the first such notice; or
- Previously had an objection to the valuation considered by the Valuer-General.

The Valuer-General may extend the 60-day objection period where it be shown there is reasonable cause to do so by a person entitled to make an objection to a valuation.

Objections can be submitted to the Office of the Valuer-General via:

Online:	www.valuergeneral.sa.gov.au
Email:	OVGobjections@sa.gov.au
Post:	GPO Box 1354, Adelaide 5001
Fax:	08 8115 5709
In Person:	Land Services SA, Level 9, 101 Grenfell Street, Adelaide

 City of Mount Gambier	R105 RATING POLICY	Version No:	18.0
		Issued:	17 February 2026
		Next Review:	May 2027

4.4 Objection to Valuation

A person may object to a valuation of the Valuer-General by notice in writing, setting out the full and detailed grounds for objection, including any supporting information, and the Valuer-General must consider the objection. If the person then remains dissatisfied with the valuation the person has a right to a review. Applications must be made within 21 days of receipt of the notice of the decision (in relation to the objection) from the Valuer-General. A payment of the prescribed fee for the review to be undertaken together with the review application must be lodged in the State Valuation Office, who will then refer the matter to an independent Valuer. If the person remains dissatisfied with the valuation then they may apply to the South Australian Civil and Administrative Tribunal (SACAT) for a review of the decision.

The address of the Office of the Valuer-General is:

Online: www.valuergeneral.sa.gov.au
Email: OVGObjections@sa.gov.au
Post: GPO Box 1354, Adelaide 5001
Fax: 08 8115 5709
In Person: Land Services SA, Level 9, 101 Grenfell Street, Adelaide

The Council has no role in the valuation review process & the lodgement of an objection does not change the due date for payment of rates.

4.5 Notional Values

Certain properties may be eligible for a notional value under the Valuation of Land Act 1971. This can relate to certain primary production land or where there is State heritage recognition. A notional value is generally less than the capital value and generally results in a reduced rate liability being incurred.

Application by the ratepayer for a notional value must be made to the Office of the Valuer-General.

The address of the Office of the Valuer-General is:

Online:	www.valuergeneral.sa.gov.au
Email:	OVGObjections@sa.gov.au
Post:	GPO Box 1354, Adelaide 5001
Fax:	08 8115 5709
In Person:	Land Services SA, Level 9, 101 Grenfell Street, Adelaide

4.6 Business Impact Statement

Current Economic Environment

Council will consider the impact of rates on all businesses in the Council area, including industry, commercial and primary production sections. In considering the impact, Council will assess the following matters:

- Those elements of Council's Strategic Management Plan relating to business development.

 City of Mount Gambier	R105 RATING POLICY	Version No:	18.0
		Issued:	17 February 2026
		Next Review:	May 2027

- Relevant economic forecast reports.
- Council's recent development approval trends.
- The operating and capital projects and new programs for the coming year that will principally benefit industry and business development.
- Valuation changes.
- Consumer Price Index (CPI) and Local Government Price Index (LGPI) Movements.

Council recognises the importance of supporting and encouraging a diverse and healthy business sector.

4.7 Council's Revenue Raising Powers

All land within a council area, except for land specifically exempt (e.g. Crown land, Council occupied land and other land prescribed in the Local Government Act – refer Section 147 of the Act), is rateable. The Local Government Act provides for a Council to raise revenue for the broad purposes of the Council through a general rate, which applies to all rateable properties, or through differential general rates, which apply to classes of properties. In addition, Council can raise separate rates, for specific areas of the Council or service rates or charges for specific services. The Council also raises revenue through fees and charges, which are set giving consideration to the cost of the service provided and any equity issues. The list of applicable fees and charges is available at the Mount Gambier Civic Centre, 10 Watson Terrace, Mount Gambier or on our website at www.mountgambier.sa.gov.au. A Goods and Services Tax at a rate determined under the Goods and Services Tax Act 1999 will be charged on those fees not given exemption under the Act.

4.8 Fixed Charge

Council has decided that a component of the total rate will be a fixed charge on every eligible rateable property.

Each year Council declares a fixed charge as part of its rating strategy.

Section 152 of the Act provides for a fixed charge component of rates. Council's reasons for including a fixed charge component are:

- To be able to deliver a range of services to the community, Council must maintain a range of internal support and administrative services. No particular group of ratepayers benefit more than any other group of ratepayers by the provision of the support and administrative services.
- The Council therefore considers it appropriate that all ratepayers contribute equally to the cost of administering Council's activities and services.

The fixed charge will affect all eligible ratepayers and is set to raise less than one half of total rate revenue (before rebates and remissions, in accordance with legislative provisions).

The fixed charge is uniformly paid by each eligible ratepayer, irrespective of capital value, has the effect of limiting the impact changes in valuation have on individual assessments.

Where two or more adjoining properties have the same owner and occupier only one fixed charge is payable by the ratepayer.

 City of Mount Gambier	R105 RATING POLICY	Version No:	18.0
		Issued:	17 February 2026
		Next Review:	May 2027

Applications for “adjoining properties” must be in writing addressed to Chief Executive Officer (as per 4.25 of this Policy) and will only be considered by Council within the relevant financial year received.

No application will have an effect on past fixed charges levied.

4.9 Differential General Rates

In addition to the use of a Fixed Charge, Council will declare differential general rates in the dollar according to the use of the land. The Local Government Act 1999, allows councils to differentiate rates based on the use of the land, the locality of the land or on the use and locality of the land. Current categories of land use defined by the Local Government (General) Regulations 1999 are:

1. Residential
2. Commercial-Shops
3. Commercial-Office
4. Commercial-Other
5. Industrial-Light
6. Industrial-Other
7. Primary Production
8. Vacant Land
9. Other.

Councils rationale for differential rates is to provide consideration to:

- Capacity to pay;
- Benefits received from Council resources;
- Potential income taxation deductions;
- Materially heavier/lighter use of services by ratepayers/employees/customers/suppliers; and,
- Provide a disincentive to withholding land from development.

4.10 Land Use

Land use is a factor to levy differential rates and is provided by the Office of the Valuer-General.

As part of the valuation process the Office of the Valuer-General applies a land use to each assessment to identify the predominant use of the land. This land use is applied by various taxing authorities. Council generally applies this land use for rating purposes, however under the Act, Council is the relevant authority that determines land use for rating purposes. The rating land use applied by Council must meet the definitions under Development Regulations. As such the local government land use may vary from that used by other taxing authorities.

If a ratepayer is of the opinion that a particular land use has been wrongly attributed to the ratepayer's land by the council for the purpose of levying differential rates, the ratepayer may object to the attribution of that land use.

Your objection must be lodged in writing and directed to Council within 60 days of being notified of the land use.

 City of Mount Gambier	R105 RATING POLICY	Version No:	18.0
		Issued:	17 February 2026
		Next Review:	May 2027

The Office of the Valuer General provides “Objection to Land Use” fact sheets in an aim to provide assistance in understanding the process to undertake if you are dissatisfied with the land use. Details are available from the Office of the Valuer General online via [FactSheet-LandUseCodes.PDF \(valuergeneral.sa.gov.au\)](#) or by contacting the Office of the Valuer General directly:

Online: www.valuergeneral.sa.gov.au

Post: GPO Box 1354, Adelaide 5001

Fax: 08 8115 5709

In Person: Land Services SA, Level 9, 101 Grenfell Street, Adelaide

Note: Lodgement of an objection does not change the due date for the payment of rates.

4.11 Land Use Category Primary Production

From 01/07/2026 any property with a land use category of Primary Production that contains a “principal place of residence” will be deemed as having a predominate land use of Residential. Accordingly, the differential residential rate to be applied.

If a ratepayer is of the opinion that a particular land use has been wrongly attributed to the ratepayer’s land by the council for the purpose of levying differential rates, the ratepayer may object to the attribution of that land use.

The objection must be lodged in writing and directed to Council within 60 days of being notified of the land use. The objection must include supporting evidence that the property does not meet Council’s criteria.

4.12 Minimum Rate

Council does not use the minimum rate provisions, instead Council uses the combination of fixed charge and valuation based rating.

4.13 Limestone Coast Landscape Levy

From 1 July, 2020 the new *Landscape South Australia Act 2019* replaced the *Natural Resource Management Act 2004*. The Council is in the new Limestone Coast Landscape area and is required under the new Act to make a specified annual contribution to their Regional Landscape Board. As such, Council collects the levy on behalf of the State Government for no gain to Council.

The Council is simply operating as a revenue collector for the Landscape Levy in this regard. It does not retain this revenue nor determine how the revenue is spent.

4.14 Service Charges

In accordance with Section 155 of the Act a Council may impose a service rate on rateable land within its area for a **prescribed service**. A prescribed service is described as treatment or provision of water, collection, treatment or disposal of waste, a television transmission service or any other service prescribed by the regulations for the purposes of this definition.

Electronic version on TRIM is the controlled version.

 City of Mount Gambier	R105 RATING POLICY	Version No:	18.0
		Issued:	17 February 2026
		Next Review:	May 2027

Council is focused on environmentally sound waste management practices and will impose a Waste Service Charge (WSC) as a tool to become more responsive to waste management related costs and share the costs and benefits within the community.

The WSC will be charged on the basis of the service being available at the property. It will exclude vacant land and primary production where there is no dwelling on the land and will be charged irrespective if the land owner/occupier is using the service or not. The WSC will be for a full financial year i.e. 1st July to 30th June with no pro rata charged applied.

The charge includes:

- a 140L domestic waste bin and weekly collection service
- a 240L recycling bin and fortnightly collection service
- a 240L green waste bin and fortnightly collection service * (bin not included)

Where two or more adjoining properties have the same owner and occupier only one waste service fee is payable by the ratepayer.

Rateable recreational or sporting activities (community groups) will be provided x1 general waste and x1 recycle bin.

A rate rebate will not be available on Waste Service Charge.

The provision for Waste Service Collection is not available for properties receiving 100% Council rebate.

4.15 Cost of Living Concessions

Eligible Pensioners, Low Income Earners and Self-Funded Retirees

Pensioners, low income earners or Self-Funded Retirees may be entitled to a State Government cost of living concession. The cost of living concession helps those on low or fixed incomes with their cost of living expenses, whether that be electricity, gas, water bills or council rates.

Eligibility is based on living arrangements as at 1 July each year. Applications for the each financial year can be submitted by contacting the Concession Hotline on 1800 307 758.

Applications are administered by the State Government. Payment of rates must not be withheld pending assessment of an application by the State Government as penalties apply to unpaid rates.

4.16 Payment of Rates

The Council will collect rates quarterly on the dates to be specified on the rates notice, in the following months:

- September
- December
- March
- June

Electronic version on TRIM is the controlled version.

Printed copies are considered uncontrolled. Before using a printed copy, verify that it is the current version.

Page 7 of 15

 City of Mount Gambier	R105 RATING POLICY	Version No:	18.0
		Issued:	17 February 2026
		Next Review:	May 2027

Rate notices will be issued quarterly however the total outstanding balance of rates may be paid at any time.

Rates may be paid:

- Over the Internet - www.mountgambier.sa.gov.au
- By telephone: using credit card, phone 1300 276 468, 24 hours a day 7 days per week (BPoint Number 1345263)
- By BPay: Use Biller Code 464263
- By direct debit: from savings or cheque account
- By post: P O Box 56, Mount Gambier SA 5290
- In person: at the Council Offices during Council business hours Monday to Friday excluding public holidays
- By Centrepay deductions from social security payments
- Any Australia Post outlet.
- Flexipay

Any ratepayer who may, or is likely to, experience difficulty with meeting the standard instalments and due dates can contact the Council to discuss alternative payment arrangements. Note, fines and interest may still be levied in accordance with the Act.

4.17 Late Payment of Rates

The Local Government Act provides that Councils impose a penalty of 2% on any payment for rates, whether instalment or otherwise, that is received late. A payment that continues to be late is then charged an interest rate, set each year according to a formula in the Act, for each month it continues to be late. Interest charged on late payments is charged on both the amount of the rate arrears and any interest that has previously been imposed. The purpose of this penalty is to act as a genuine deterrent to ratepayers who might otherwise fail to pay their rates on time, to allow councils to recover the administrative cost of following up unpaid rates and to cover any interest cost the Council may incur because it has not received the rates on time.

The City of Mount Gambier imposes late payment penalties strictly in accordance with the Local Government Act. The ability to remit penalties in whole or part is a power vested in Council. At the City of Mount Gambier each case will be considered on its merit based on the information provided.

4.18 Fines on Unpaid Rates

If an instalment of rates is not paid on or before the date on which it falls due—

- (a) the instalment will be regarded as being in arrears; and
- (b) a fine of 2 per cent of the amount of the instalment is payable; and
- (c) on the expiration of each full month from that date, interest at the prescribed percentage of the amount in arrears (including the amount of any previous unpaid fines and including interest from any previous month) accrues.

In respect of unpaid Council rates no fines and/or interest charges will arise where the arrears amount is less than \$40.

 City of Mount Gambier	R105 RATING POLICY	Version No:	18.0
		Issued:	17 February 2026
		Next Review:	May 2027

4.19 Outstanding Rates

Council will apply prudent debt collection practices in the recovery of outstanding rates in compliance with the Local Government Act 1999 and follow an ongoing assessment of arrears and systematic approach to debt recovery.

In accordance with the provisions of the Local Government Act, where an instalment of Rates is not paid on or before the date on which it falls due, Council will:

- (a) Send a reminder notice to the principal ratepayer with outstanding rate balances advising that payment is overdue;
- (b) Proceedings for collection of outstanding rate balances after that time may be collected by legal process.

The Chief Executive Officer is empowered to exempt this Policy in necessitous circumstances, in accordance with the delegated powers issued pursuant to the provisions of the Local Government Act.

The Chief Executive Officer is empowered to take the necessary action to instigate collection by legal process where principal ratepayers have made no genuine attempt to respond to the requests for payment.

The Chief Executive Officer is authorised to write off outstanding and/or bad debts provided:

- (a) The debt is considered by the Chief Executive Officer to be unrecoverable;
- (b) The outstanding debt is less than \$100.

4.20 Appeals Against Assessments

Pursuant to the provisions of the Local Government Act 1999, Council shall refund any rate amount overpaid as a result of an objection, review or appeal in respect of a valuation.

Council shall not apply or credit any such amount overpaid against future liabilities for rates on the land subject to the rates, unless requested to do so by the ratepayer.

4.21 Debt Recovery

Council has determined that Rate Payments will be applied in accordance with the provisions of Section 183 of the Act.

When Council receives a payment in respect of overdue rates the Council applies the money received in accordance with Section 183 of the Local Government Act, as follows:

- Firstly – to satisfy any costs awarded in connection with court proceedings
- Secondly – to satisfy any interest costs
- Thirdly – in payment of any fines imposed; and
- Fourthly – in payment of rates, in date order of their imposition (starting with the oldest account first).

 City of Mount Gambier	R105 RATING POLICY	Version No:	18.0
		Issued:	17 February 2026
		Next Review:	May 2027

4.22 Rebate of Rates - Mandatory

The Local Government Act requires councils to rebate the rates payable on some land uses. Specific provisions are made for land used for health services, community services, religious purposes, public cemeteries, the Royal Zoological Society and educational institutions. These rebates vary from 75% to 100% and will be applied upon application and on verification.

Councils Rate Rebate Policy (incorporating Rate Rebate Application) is available from the Council website - www.mountgambier.sa.gov.au.

Rate rebates do not apply to Council Waste Service Charge.

The provision for Waste Service Collection is not available for properties receiving 100% Council rebate.

4.23 Rebate of Rates - Discretionary

The Local Government Act 1999 enables Council (upon application and subject to certain eligibility criteria) to grant discretionary rebates of up to 100% for land used for the purposes of a community benefit and that meet certain legislative and Council Policy criteria.

Council (by Policy) has agreed to grant specific Rate Rebates pursuant to the said Act.

Councils Rate Rebate Policy (incorporating Rate Rebate Application) is available from the Council website - www.mountgambier.sa.gov.au.

Rate Rebates do not apply to Council Waste Service Charge.

4.24 Rate Relief Options

4.24.1 Rate relief options apply where an owner/occupier/principal place of residence property with a Category 1 (Residential) Land Use experiences an increase in general rates payable, for the preceding financial year as compare to the general rates payable for the current financial year (excluding any rebates/remissions) and where that increase, in monetary terms, is greater than 15%.

The amount of the rate rebate is the amount of gross rates for the current year over and above the calculation referred to above. I.e. the difference (in monetary terms) between the general rates imposed in the preceding financial year plus 15%. (All calculations referenced herein are gross rates figures. I.e. exclusive of any rebates/remissions/concessions).

The rebate will not apply where:

- (a) Any such increase is due in whole or part to an increase in valuation of the land in the Assessment because of improvements made to it worth more than \$20,000. or
- (b) Any such increase is in whole or part because the zoning or land use category of the land has changed. or

 City of Mount Gambier	R105 RATING POLICY	Version No:	18.0
		Issued:	17 February 2026
		Next Review:	May 2027

- (c) Any such increase is due in full or part to the use of the land being different for rating purposes on the date the Council declared its general rates for the current financial year than on the date the Council declared its general rates for the preceding financial year. or
- (d) The ownership of the rateable property has changed since 1st July in the preceding financial year i.e. the residential property has changed ownership and the new owners have purchased the residential property at the new current market value. or
- (e) The subject property boundary(s) have been altered in some way e.g. subdivision, boundary alignment etc. i.e. the subject property is not the exact same property, for valuation purposes, as assessed in the previous financial year. or
- (f) Other factors considered relevant by the Chief Executive Officer that do not warrant the granting of the discretionary rate rebate.

The rebate will only apply to:

- (a) A ratepayer in respect of their principal place of residence only, excluding second and subsequent properties and all other non principal place of residence properties.
- (b) The current financial year only then subject to an annual review.

Where an entitlement to a Residential Rate Capping ceases or no longer applies during the course of a financial year, the Council is entitled to recover full rates for the financial year. ~~(Refer Section 4.25)~~

4.24.2 Vacant Land

The vacant land rate in the dollar is set higher than the residential rate in the dollar.

For those owners of vacant land who intend to develop that land, in the short term as their principal place of residence (as opposed to land speculation), may be entitled to a rebate on Council rates.

Applications must be in writing with the maximum rebate calculated so that the rates payable are equivalent to the average residential land use.

4.24.3 First Home Buyers – New Dwellings

Council has endorsed a Rebate of 100% of the differential residential component of rates for a maximum period of two (2) years, to those ratepayers in respect of their rateable land who meet the following minimum requirements:

- a) Have built a new residential dwelling (or purchased off the plan) on the rateable land; and
- b) Are a first home buyer who has received financial support through the Australian Government's First Home Buyers Scheme towards their newly built home; and
- c) They retain the property as their principal place of residence during the entire period of receiving the rate.

Electronic version on TRIM is the controlled version.

Printed copies are considered uncontrolled. Before using a printed copy, verify that it is the current version.

Page 11 of 15

 City of Mount Gambier	R105 RATING POLICY	Version No:	18.0
		Issued:	17 February 2026
		Next Review:	May 2027

Applications must be in writing addressed to The Chief Executive Officer and include documents confirming receipt of the Australian Government's First Home Buyers Scheme and confirmation property to be their principal place of residence.

The Fixed Charge, Waste Service Charge and Regional Landscape Levy to still apply.

Where an entitlement to a First Home Buyers rebate ceases or no longer applies during the course of a financial year, the Council is entitled to recover full rates for the financial year

4.24.4 Postponement of Rates - Seniors

Section 182A of the Act provides for applications to be made to Council for a postponement of the payment of the prescribed proportion of rates for the current or future financial years if:

- (a) the person is a prescribed ratepayer, or is the spouse of a prescribed ratepayer; and
- (b) the rates are payable on land that is the principal place of residence of the prescribed ratepayer; and
- (c) the land is owned by the prescribed ratepayer and his or her spouse and no other person has an interest, as owner in the land.

The Act defines a 'prescribed ratepayer' as a person who holds a current State Seniors Card issued by the State Government; or who has the qualification(s) to hold such a card and has applied for the card but has yet to be issued with the card.

All Postponement Applications will be considered and must comply with the provisions of Section 182A of the Act and Regulation 18 of the Local Government (General) Regulations 2013.

4.25 Hardship

Any ratepayer experiencing difficulties in meeting rates payments or experiencing hardship will be able to access payment plans tailored to meet their particular circumstances. All arrangements will be strictly confidential.

4.26 Applications

All applications for rebates, remissions or postponements must be in writing, addressed to the Chief Executive Officer, City of Mount Gambier, P O Box 56, Mount Gambier SA 5290 and include sufficient details to identify the relevant property and support the application.

Application forms are available from Council's website www.mountgambier.sa.gov.au.

Please refer to Council's *Rate Rebate Policy* for further information.

4.27 Sale of Land for Non-Payment of Rates

The Local Government Act provides that a Council may sell any property where the rates

Electronic version on TRIM is the controlled version.

Printed copies are considered uncontrolled. Before using a printed copy, verify that it is the current version.

Page 12 of 15

 City of Mount Gambier	R105 RATING POLICY	Version No:	18.0

		Next Review:	May 2027

have been in arrears for three years or more. The Council is required to provide the principal ratepayer and the owner (if not the same person) with details of the outstanding amounts and advise the owner of its intention to sell the land if payment of the outstanding amount is not received within one month. The City of Mount Gambier enforces the sale of land for non-payment of rates after 3 years or more in accordance with the provisions of the Act.

4.28 Changes to Assessment Records

All changes to postal address of ratepayer/owner and changes of ownership of a property must be notified promptly to Council in writing.

4.29 Disclaimer

A rate cannot be challenged on the basis of non-compliance with this policy and must be paid in accordance with the required payment provisions.

Where a ratepayer believes that the Council has failed to properly apply this policy it should raise the matter with the Council. In the first instance contact Council's General Manager Council Business Services on (08) 8721 2555 to discuss the matter. If, after this initial contact, a ratepayer is still dissatisfied they should write to the Chief Executive Officer, City of Mount Gambier, P O Box 56, Mount Gambier SA 5290, or email rates@mountgambier.sa.gov.au.

		Next Review:	May 2027

5. REVIEW & EVALUATION

This Policy is scheduled for review by Council annually and will be reviewed as required by any legislative changes which may occur.

6. AVAILABILITY OF POLICY

This Policy will be available for inspection at Council's principal office during ordinary business hours and on the Council's website www.mountgambier.sa.gov.au. Copies will also be provided to interested members of the community upon request, and upon payment of a fee in accordance with Council's Schedule of Fees and Charges.

 City of Mount Gambier	R155 RATE REBATE POLICY	Version No:	16.0
		Issued:	17 February 2026
		Next Review:	May 2027

1. INTRODUCTION

It is the policy of the City of Mount Gambier (the Council) that a rebate of rates in respect of any rateable land in the Council area will be available only when the applicant satisfies the requirements under the Local Government Act 1999 (the Act) and where appropriate, the requirements of this Policy.

2. SCOPE

- 2.1 The Act sets out in Chapter 10, Division 5 (Sections 159 to 166) those provisions applicable to the Council granting a rebate of rates to persons or bodies.
- 2.2 The Council has decided to adopt a Policy to assist it in its decision making functions relative to the operation of the rate rebate provisions contained in the Act.
- 2.3 This Policy is intended to provide guidance to the community as to the grounds upon which a person or body is, or may be entitled to receive a rebate of rates and the matters that the Council will take into account in deciding an application for a rebate.
- 2.4 In accordance with the rebate provisions contained in the Act, this Policy sets out the type of use in respect of land where the Council must grant a rebate of rates and the amount of that rebate and these types of land use where the Council has a discretion to grant a rebate of rates.

3. DEFINITIONS

Act the *Local Government Act 1999* (SA)

Council the elected Council Body

Discretionary Rebate rebates where Council may apply a rebate in accordance with criteria specified in the Act

Mandatory Rebate rebates where Council must grant in accordance with the Act

Rating the overall process of raising revenue by way of levying rates and charges

Rebate/s an amount that a rate or charge may be reduced in accordance with sections 159-166 of the Act

4. PURPOSE

- 4.1 Section 159(3) of the Act provides that the Council may grant a rebate of rates under the Act if it is satisfied that it is appropriate to do so.
- 4.2 The Act provides for a mandatory rebate of rates in specified cases and the amount of that mandatory rebate (see Clause 5 below).

*Electronic version in CM is the controlled version.

Page 1 of 18

 City of Mount Gambier	R155 RATE REBATE POLICY	Version No:	16.0
		Issued:	17 February 2026
		Next Review:	May 2027

4.3 The Act also provides that where the Council must grant a rebate of rates under the Act, and the amount of that rebate is fixed by the Act at less than 100%, the Council **may** increase the amount of the rebate.

4.4 The Act provides, at Section 166 for the Council to provide a discretionary rebate of rates in the cases set out in that Section.

5. MANDATORY REBATES

5.1 The Council must grant a rebate in the amount specified in respect of land uses which the Act provides will be granted a rebate.

5.2 Rates on the following land will be rebated at **100%**:

5.2.1 Health Services

Land being predominantly used for service delivery or administration by a hospital or health centre incorporated under the *South Australian Health Commission Act 1976*.

5.2.2 Religious Purposes

Land containing a church or other building used for public worship (and any grounds), or land solely used for religious purposes.

5.2.3 Public Cemeteries

Land being used for the purposes of a public cemetery.

5.2.4 Royal Zoological Society of SA

Land (other than land used as domestic premises) owned by, or under the care, control and management of the Royal Zoological Society of South Australia Incorporated.

5.3 Rates on the following land will be rebated at **75%**:

5.3.1 Community Services

Land being predominantly used for service delivery or administration (or both) by a community services organisation. A "*community services organisation*" is defined in the Act as a body that –

- 5.3.1.1 *Is incorporated on a not for profit basis for the benefit of the public; and*
- 5.3.1.2 *Provides community services without charge or for a charge that is below the cost to the body of providing the services; and*
- 5.3.1.3 *Does not restrict its services to persons who are members of the body.*

 City of Mount Gambier	R155 RATE REBATE POLICY	Version No:	16.0
		Issued:	17 February 2026
		Next Review:	May 2027

It is necessary for a community services organisation to satisfy all of the above criteria to be entitled to the mandatory rebate.

The Act further provides that eligibility for a rebate by a community services organisation is subject to it providing one or more of the following community services:

- 5.3.1.4 Emergency accommodation;
- 5.3.1.5 Food or clothing for disadvantaged persons;
- 5.3.1.6 Supported accommodation:
Local Government Act defines as:
 - (a) *Residential care facilities that are approved for Commonwealth funding under the Aged Care Act 1997 (Cwlth); or*
 - (b) *Accommodation for persons with mental health difficulties, intellectual or physical difficulties, or other difficulties, who require support in order to live an independent life; or*
 - (c) *Without limiting paragraph (b), accommodation provided by a community housing provider registered under the Community Housing Providers National Law that is incorporated on a not-for-profit basis for the benefit of the public, other than accommodation provided by such a body:*
 - (i) *that has as a principal object of the body the provision of housing for members of the body; or*
 - (ii) *that is excluded from the ambit of this paragraph by the Minister by notice published in the Gazette;*
- 5.3.1.7 Essential services, or employment support, for persons with mental health disabilities, or with intellectual or physical disabilities;
- 5.3.1.8 Legal services for disadvantaged persons;
- 5.3.1.9 Drug or alcohol rehabilitation services; or
- 5.3.1.10 the conduct of research into, or the provision of community education about, diseases or illnesses, or the provision of palliative care to persons who suffer from diseases or illnesses.
- 5.3.1.11 Disadvantaged person are persons who are disadvantaged by reason of poverty, illness, frailty or mental, intellectual or physical disability.

5.3.2 Educational Purposes

- 5.3.2.1 Land occupied by a government school under a lease or licence and being used for educational purposes; or
- 5.3.2.2 Land occupied by a non-government school registered under The Education and Early Childhood Services (Registration and Standards) Act 2011 and being used for educational purposes; or
- 5.3.2.3 Land being used by a University or University College to provide accommodation and other forms of support for students on a not for profit basis.

Electronic version in CM is the controlled version.

Printed copies are considered uncontrolled. Before using a printed copy, verify that it is the current version.

Page 3 of 18

		Issued:	17 February 2026
		Next Review:	May 2027

- 5.4 Where the Council is satisfied from its own records or from other sources that a person or body meets the necessary criteria for a mandatory 100% or 75% rebate, the Council will grant the rebate of its own initiative. Where the Council's records or other sources do not meet the criteria, it will require the person or body to apply for the rebate in accordance with Clause 10 of this Policy.
- 5.5 Where a person or body is entitled to a rebate of 75% the Council may, pursuant to Section 159(4) of the Act, increase the rebate up to a further 25%. The Council may grant the further 25% rebate upon application or on its own initiative. In either case the Council **will** take into account those matters set out at Clauses 6 of this Policy and **may** take into account any or all of those matters set out at Clause 6 of this Policy.
- 5.6 Where an application is made to the Council for a rebate of up to a further 25% the application will be made in accordance with this Policy and the Council will provide written notice to the applicant of its determination of that application.
- 57 Council has delegated the determination of entitlement to Mandatory Rebates to the Chief Executive Officer.

6. DISCRETIONARY REBATES

- 6.1 The Council may in its absolute discretion grant a rebate of rates or service charges in any of the following cases pursuant to Section 166 of the Act: -
- 6.1(a) *where it is desirable for the purpose of securing the proper development of the area (or a part of the area);*
 - 6.1(b) *where it is desirable for the purpose of assisting or supporting a business in its area;*
 - 6.1(c) *where it will be conducive to the preservation of buildings or places of historic significance;*
 - 6.1(d) *where the land is being used for educational purposes;*
 - 6.1(e) *where the land is being used for agricultural, horticultural or floricultural exhibitions;*
 - 6.1(f) *where the land is being used for a hospital or health centre;*
 - 6.1(g) *where the land is being used to provide facilities or services for children or young persons;*
 - 6.1(h) *where the land is being used to provide accommodation for the aged or disabled;*
 - 6.1(i) *where the land is being used for a residential aged care facility that is approved for Commonwealth funding under the Aged Care Act 1997 (Commonwealth) or a day therapy centre;*
 - 6.1(j) *where the land is being used by an organisation which, in the opinion of the Council, provides a benefit or service to the local community;*
 - 6.1(k) *where the rebate relates to common property or land vested in a community corporation under the Community Titles Act 1996 over which the public has a free and unrestricted right of access and enjoyment;*

 City of Mount Gambier	R155 RATE REBATE POLICY	Version No:	16.0
		Issued:	17 February 2026
		Next Review:	May 2027

- 6.1(l) *where the rebate is considered by the Council to be appropriate to provide relief against what would otherwise amount to a substantial change in rates payable due to:*
- (i) *a redistribution of the rates burden within the community arising from a change to the basis or structure of the Council's rates; or*
 - (ii) *a change to the basis on which land is valued for the purpose of rating, rapid changes in valuations, or anomalies in valuations.*
- 6.1(m) *where the rebate is considered by Council to be appropriate to provide relief in order to avoid a liability to pay a rate or charge that is inconsistent with liabilities that were anticipated in the annual Business Plan or a liability that is unfair or unreasonable;*
- 6.1(n) *where the rebate is to give effect to a review of a decision of the Council under Chapter 13 Part 2; and*
- 6.1.(o) *where the rebate is contemplated under another provision of this Act.*
- 6.2 *A council must, in deciding whether to grant a rebate of rates or charges under Section 166, subsection (1)(d), (e), (f), (g), (h), (i) or (j), take into account:*
- (a) *The nature and extent of council services provided in respect of the land for which the rebate is sought in comparison to similar services provided elsewhere in its area; and*
 - (b) *The community need that is being met by activities carried out on the land for which the rebate is sought; and*
 - (c) *The extent to which activities carried out on the land for which the rebate is sought provides assistance or relief to disadvantaged persons; and*
 - (d) *May take into account other matters considered relevant by the council.*

The Council may take into account, but not limited to, the following:

- (i) Why there is a need for financial assistance through a rebate;
- (ii) The level of rebate (percentage and dollar amount) being sought and why it is appropriate;
- (iii) The extent of financial assistance, if any, being provided to the applicant and/or in respect of the land by Commonwealth or State agencies;
- (iv) Whether the applicant has made/intends to make applications to another Council;
- (v) Whether, and if so to what extent, the applicant is or will be providing a service within the Council area;
- (vi) Whether the applicant is a public sector body, a private not for profit body or a private for profit body;

 City of Mount Gambier	R155 RATE REBATE POLICY	Version No:	16.0
		Issued:	17 February 2026
		Next Review:	May 2027

- (vii) Whether there are any relevant historical considerations that may be relevant for all or any part of the current Council term;
- (viii) The desirability of granting a rebate for more than one year in those circumstances identified at Clause 4.2 of this policy;
- (ix) Consideration of the full financial consequences of the rebate for the Council;
- (x) The time the application is received;
- (xi) the availability of any community grant to the person or body making the application;
- (xii) whether the applicant is in receipt of a community grant; and
- (xiii) Any other matters, and policies of the Council, which the Council considers relevant.

6.3 The Council has an absolute discretion to:

- (a) *Grant a rebate of rates or service charges in the above cases; and*
- (b) *Determine the amount of any such rebate to a maximum of 100% of the relevant rate.*

6.4 A Discretionary rebate of rates or charges provided under subsection 166(1)(a),(b) or (k) may be granted for a period exceeding one year, but not exceeding 10 years.

6.5 A Discretionary rebate of rates or charges provided under subsection 166(1) (l) may be granted for a period exceeding one year, but not exceeding three years.

6.6 Discretionary rebates granted under this policy will be reviewed in accordance with Section 166(3) (3a) or at the time of reviewing the policy (Section 10).

6.7 Persons or bodies that or who seek a discretionary rebate will be required to submit an application form to the Council and provide such information as stipulated on the application form and any other information that the Council may reasonably require.

7. RECREATIONS GROUNDS RATES AND TAXES EXEMPTION ACT 1981

The Recreations Grounds Rates and Taxes Exemption Act 1981 exempts certain land used for sport or recreation in South Australia from rates and taxes. Such land is, therefore, not rateable pursuant to section 147(d) of the Recreation Grounds Rates and Taxes Exemption Act 1981.

To be eligible, certain criteria **must** be met.

- 7.1 the land must be vested in a council; or under the care, control or management of a Council, and the public is entitled to access to the land for the purpose of sport or recreation; **and**

Electronic version in CM is the controlled version.

Page 6 of 18

 City of Mount Gambier	R155 RATE REBATE POLICY	Version No:	16.0
		Issued:	17 February 2026
		Next Review:	May 2027

- 7.2 The land vested in trustees or in an association and the public is entitled, in pursuance of rights granted in perpetuity, to access the land for the purpose of sport or recreation; **and**
- 7.3 The land Occupied under a lease, licence or permit granted by a council and used by the occupier for the purposes of sport or recreation; **and**
- 7.4 The whole of the income derived from the land used for the maintenance, repair or improvement of the land.

Enquiries and application for Recreation Grounds Rates and Taxes Exemption should be directed to Council.

8. LIMESTONE COAST LANDSCAPE LEVY

From 1 July, 2020 the new *Landscape South Australia Act 2019* (the Act) replaced the *Natural Resource Management Act 2004*. Local Government continues to play a key role in collection of the Regional Landscape Levy. Councils are required under the Act to make a specified contribution to their Regional Landscape Board. Council recovers this contribution by imposing a separate rate on individual rateable properties in the Council area.

The Council will provide a concession or rebate off the Landscape levy for rateable properties who presently receive a mandatory or discretionary rebate of rates. The level of the Landscape Levy concession will be equivalent (in percentage terms) to the level of rate rebate Council has granted to those same rateable properties.

9. SERVICE CHARGE

In accordance with Section 155 of the Act a Council may impose a service rate on rateable land within its area for a **prescribed service**. A prescribed service is described as treatment or provision of water, collection, treatment or disposal of waste, a television transmission service or any other service prescribed by the regulations for the purposes of this definition.

Council is focused on environmentally sound waste management practices and will impose a Waste Service Charge (WSC) as a tool to become more responsive to waste management related costs and share the costs and benefits within the community.

The WSC will be charged on the basis of the service being available at the property. It will exclude vacant land and primary production where there is no dwelling on the land and will be charged irrespective if the land owner/occupier is using the service.

A rate rebate will not be available on Council Waste Service Charge.

The provision for Waste Service Collection is not available for properties receiving 100% Council rebate.

		Next Review:	May 2027

10. APPLICATIONS

- 10.1 The Council will inform the community of the provisions for rate rebates under the Act by the inclusion of suitable details in the Council's Business Plan (and on the Draft Annual Business Plan) in accordance with Council's adopted Public Consultation Policy.
- 10.2 Application forms are available from the Council Office located at The Civic Centre, 10 Watson Terrace, Mount Gambier, telephone 8721 2555 or download from the Council website www.mountgambier.sa.gov.au.
- 10.3 All persons or bodies that/who want to apply to the Council for a rebate of rates must do so by completing and lodging a Rate Rebate Application on or before 31st March in each year to be considered for a rebate in the new rating year commencing 1st July of each year. The Council reserves the right to refuse to consider applications received after that date. However, applicants which satisfy the criteria for a mandatory 100% rebate will be granted the rebate at any time.
- 10.4 The Act provides that the Council may grant a rebate of rates or charges on such conditions as the Council considers fit.
- 10.5 The Council may, for proper cause, determine that an entitlement to a rebate of rates under the Act no longer applies.

Where an entitlement to a rebate of rates ceases or no longer applies during the course of a financial year, the Council is entitled to recover rates, or rates at the increased level (as the case may be), proportionate to the remaining part of the financial year.

- 10.6 It is an offence for a person or body to make a false or misleading statement or representation in an application or to provide false or misleading information or evidence in support of an application made (or purporting to be made) under the Act.

The maximum penalty for this offence is \$5,000.

- 10.7 If a person or body has the benefit of a rebate of rates and the grounds on which the rebate has been granted cease to exist, the person or body must immediately inform the Council of that fact and (whether or not the Council is so informed) the entitlement to a rebate ceases. If a person or body fails to do so that person or body is guilty of an offence.

The maximum penalty for this offence is \$5,000.

If an entitlement to a rebate of rates ceases or no longer applies during the course of a financial year, the council is entitled to recover rates, or rates at the increased level (as the case may be), proportionate to the remaining part of the financial year.

 City of Mount Gambier	R155 RATE REBATE POLICY	Version No:	16.0
		Issued:	17 February 2026
		Next Review:	May 2027

- 10.8 The Council will, in writing, advise an applicant for a rebate of its determination of that application within sixty (60) business days of receiving the application or of receiving all information requested by the Council. The advice will state whether the application:

10.8.1 Has been granted and the amount of the rebate; or

10.8.2 Has not been granted and the reason(s) why.

- 10.9 A person or body that is aggrieved by a determination of Council in respect of an application for a rate rebate may seek a review of that determination by writing to the Council in accordance with Council's Internal Review of Decisions Policy.

All applications for rebates, remissions or postponements must be in writing, addressed to the Chief Executive Officer, City of Mount Gambier, 10 Watson Terrace, Mount Gambier SA 5290 or emailed to "rates@mountgambier.sa.gov.au"

11. DELEGATION

- 11.1 The Council has delegated its power, pursuant to Section 44 of the Act, to grant applications for mandatory rebates which meet the requirements of the Act.
- 11.2 The Council has delegated its power to refuse applications for an increase of mandatory rebates to a greater percentage than that provided by the Local Government Act.
- 11.3 The Council has delegated its power, pursuant to Section 44 of the Act, to determine applications for discretionary rebates.

12. RATE RELIEF OPTIONS

12.1 Retirement Villages

For the purpose of providing a rebate to Retirement Villages, particularly upon issues arising from circumstances where the ratepayer(s) claim to provide or maintain infrastructure that might otherwise be maintained by the Council, a rebate does not generally apply. The power to provide a rebate will be exercised as appropriate and in accordance with the Act.

All applications for rebates, remissions or postponements must be in writing, addressed to the Chief Executive Officer, City of Mount Gambier, 10 Watson Terrace, Mount Gambier SA 5290 or emailed to: "rates@mountgambier.sa.gov.au"

13. REVIEW AND EVALUATION

This Policy is scheduled for review by the Council annually. However, the Policy will be reviewed as required by any legislative changes which may occur.

Electronic version in CM is the controlled version.
Printed copies are considered uncontrolled. Before using a printed copy, verify that it is the current version.

- ☐ Land occupied by a government school under a lease or licence and being used for educational purposes; **or**
- ☐ Land occupied by a non-government school registered under The Education and Early Childhood Services (Registration and Standards) Act 2011 and being used for educational purposes; **or**
- ☐ Land being used by a University or University College to provide accommodation and other forms of support for students on a not for profit basis.

3.3 **Discretionary** - (Section 166 of the Local Government Act 1999)

The Council may in its discretion grant a rebate of rates or service charges in any of the following cases. Please indicate which of the following is applicable to your application:

- ☐ The rebate is desirable for the purpose of securing the proper development of the area (or a part of the area);
- ☐ The rebate is desirable for the purpose of assisting or supporting a business in its area;
- ☐ The rebate will be conducive to the preservation of buildings or places of historic significance;
- ☐ The land is being used for educational purposes;
- ☐ The land is being used for agricultural, horticultural or floricultural exhibitions;
- ☐ The land is being used for a hospital or health centre;
- ☐ The land is being used to provide facilities or services for children or young persons;
- ☐ The land is being used to provide accommodation for the aged or disabled;
- ☐ The land is being used for a residential aged care facility that is approved for Commonwealth funding under the Aged Care Act 1987 (Commonwealth) or a day therapy centre;
- ☐ The land is being used by an organisation which, in the opinion of the Council provides a benefit or service to the local community;
- ☐ the rebate relates to common property or land vested in a community corporation under the Community Titles Act 1996 over which the public has a free and unrestricted right of access and enjoyment;

City of Mount Gambier AT A GLANCE

OVERVIEW

The Essential Services Commission finds the City of Mount Gambier's historical, current and projected financial performance **mostly sustainable**. This takes into account the Council's completion of the Wulanda Recreation and Convention Centre in 2022, a significant infrastructure project for the community, and planned average rate increases of **4.8** percent per property over the next 10 years (well above forecast CPI of 2.6 percent per annum). There are some risks for ratepayer affordability if operating costs are not constrained through a strategic approach to efficiency and savings initiatives. Asset sustainability risks may also emerge if past asset management planning practices of potentially under-funding asset renewal and replacement continue.

FINANCIAL PERFORMANCE

RISKS IMPACTING SUSTAINABILITY

- ⚠ Financial sustainability is dependent upon rates growth well above CPI.
- ⚠ Constraint in the level of operating expenses is needed to ensure affordability risks are minimised.
- ⚠ Proposed further investment in new and upgraded assets will create a stream of future renewal requirements (including repairs and maintenance) that will increase ongoing costs.
- ⚠ Not prioritising the renewal of its assets, which may increase asset sustainability risks or result in lower service levels to its community.

KEY FACTS

- ▶ Population in 2023 was **27,846 residents** ⁽¹⁾
- ▶ Council covers **33.9 square kilometres** ⁽¹⁾
- ▶ **14,534** rateable properties in 2022-23 ⁽²⁾
- ▶ **\$24.9 million** of rates income in 2022-23 ⁽²⁾
- ▶ Value of assets held in 2022-23 equals **\$399.8 million** ⁽²⁾

1 Executive summary

1.1 Summary of observations

The Essential Services Commission of South Australia finds the City of Mount Gambier projected financial performance and position to be **mostly sustainable**, but notes the Council's sustainability relies on community support for average rate increases well above forecast Consumer Price Index (CPI) inflation. The Council is forecasting an operating surplus by 2026-27, despite a much higher operating cost base that relates to the recently constructed Wulanda Recreation and Convention Centre.

The City of Mount Gambier had relatively low operating surplus ratios from 2013-14 to 2022-23, which were at times negative, but averaging 0.7 percent per annum over that period. While operating surpluses appear on average modest but positive, the Commission notes that historical asset renewal and replacement requirements, set out in Infrastructure and Asset Management Plans, were not fully funded. The Council's investment in new and upgraded assets has resulted in depreciation increasing, indicating that future renewal and replacement costs will be higher in real terms over the long run, commensurate with the larger asset base. The Council has forecast an average operating surplus ratio of 2.5 percent over the period from 2024-25 to 2032-33, supported by average annual rate increases of 4.8 percent per property.

The Commission recommends that the Council develop a plan detailing cost savings measures and targets to ensure financial sustainability is maintained and to reduce the reliance on ratepayers. There is some concern for future ratepayer affordability, given the relatively lower socio-economic conditions, however, historically there have been relatively lower average residential rates in the Mount Gambier region compared to similar councils.

The Commission also observes the pace at which the City of Mount Gambier proposes to repay borrowings accrued in the development of the Wulanda Recreation and Convention Centre might represent an unnecessary burden for current ratepayers. It might be prudent for the City of Mount Gambier to consider a longer repayment period, noting the intergenerational nature of the asset.

The Commission commends the City of Mount Gambier for its well-developed strategic planning processes and commitment to community consultation.

1.2 Summary of Recommendations

The Commission acknowledges the City of Mount Gambier's good planning and asset management practices, in particular:

- ▶ annually updating and developing its Strategic Management Plans, in consultation with stakeholders and the community
- ▶ developing separate Asset Management Plans for each asset group and coordinating the data in the Asset Management Plans with the Infrastructure and Asset Management Plan, budget, and Long-Term Financial Plan, and
- ▶ holding community consultations and conducting surveys to identify community priorities and desired service levels as part of the planning process for its strategic management plans.

The Commission recommends that the City of Mount Gambier:

1. **Disclose** material changes to its capital expenditure forecasts as part of its annual review and update to its Long-Term Financial Plans.
2. **Develop** a plan to achieve cost saving measures and targets and report annually in the budget and the Long-Term Financial Plans as appropriate, to provide evidence of controlling the growth in costs and achieving efficiencies across its operations and service delivery.

OFFICIAL

3. **Review** its planned pace of repayment of debt, balancing rate increases, financial costs, and intergenerational equity.
4. **Review** its depreciation assumptions and the underlying valuations and useful life data to ensure that depreciation accurately reflects the rate of asset consumption and ensure that asset renewal and replacement is fully funded.
5. **Review** its pace of development of new and upgraded assets, having regard to rates affordability, the affordability of the stream of future liabilities created by new and upgraded assets, and the need to prioritise and fully fund asset renewal and replacement.
6. **Review** its approach to addressing financial sustainability risks, in consultation with its community, with a view to limiting future increases in rates and improving affordability for ratepayers.

OFFICIAL

2 About the advice

2.1 Background

State Parliament has tasked the Essential Services Commission (**Commission**), South Australia's independent economic regulator and advisory body, to provide advice on material changes proposed by local councils in relation to elements of their strategic management plans (**SMP**), and on the proposed revenue sources, including rates, which underpin those plans.¹

A primary purpose of the Local Government Advice Scheme (**Advice** or **the Scheme**) is to support councils to make financially sustainable strategic decisions in their annual business plans (**ABP**) and budgets, in the context of their long-term financial plans (**LTFP**) and infrastructure and asset management plans (**IAMP**).² The LTFP and the IAMP are both required as part of a council's SMP.³ Financial sustainability encompasses intergenerational equity,⁴ program (service level) and rates stability in this context.⁵ The other main purpose is for the Commission to consider ratepayer contributions in the context of all revenue sources, as outlined in the LTFP.⁶ In addition, the Commission has discretion to provide advice on any other aspect of a council's LTFP or IAMP it considers appropriate, having regard to the circumstances of that council.⁷

The first cycle of the scheme extends over four years from 2022-23 to 2025-26, and the Commission has selected 17 councils for advice in the third year (2024-25) of the Scheme, including the City of Mount Gambier (**Council**).

This report provides the Local Government Advice for the Council in 2024-25.

The Council is obliged under the *Local Government Act 1999* (**LG Act**) to publish this advice and its response, if applicable, in its 2025-26 Annual Business Plan (including any draft ABP) and in subsequent plans until the next cycle of the Scheme.⁸ The Council is not compelled under the **LG Act** to follow the advice.

The Commission thanks the Council for meeting with Commission staff and for providing information to assist the Commission in preparing this advice.

2.2 The Commission's approach

In providing the Advice for the Council, the Commission has followed the approach it previously explained in the Framework and Approach – Final Report (**F&A**).⁹

The Commission has considered the Council's SMP documents (set out in the box below), with a particular focus on its performance and outlook against three financial indicators: the Operating Surplus Ratio (**OSR**), the Net Financial Liabilities Ratio (**NFLR**) and the Asset Renewal Funding Ratio (**ARFR**).¹⁰

¹ Amendments to the LG Act (s122(1c) to (1k) and (9)) specify the responsibilities for the Commission and local councils for the Local Government Scheme Advice. The Commission must provide advice to each council in accordance with the matters outlined in s122(1e), (1f) and (1g).

² Commonly referred to as asset management plans.

³ The objectives of the advice with reference to a council's LTFP and IAMP are presented under LG Act, s122(1g). LG Act s122(1) specifies the requirements of a council's SMP, including the LTFP and IAMP.

⁴ 'Intergenerational equity' relates to fairly sharing services and the revenue generated to fund the services between current and future ratepayers.

⁵ Commission, *Framework and Approach – Final Report*, August 2022, pp. 2-3, available at www.escosa.sa.gov.au/advice/advice-to-local-government.

⁶ LG Act s122(1f)(a) and (1g)(a)(ii).

⁷ LG Act s122(1f)(b) and (1g)(b).

⁸ LG Act s122(1h).

⁹ Commission, *Framework and Approach – Final Report*, August 2022, available at www.escosa.sa.gov.au/advice/advice-to-local-government.

¹⁰ The indicators are specified in the Local Government (Financial Management) Regulations 2011. Since 2011, each council has been required to refer to these three indicators in its plans, annual budget, mid-year budget review and annual financial statements. The councils can adopt their own target range for each ratio, but the

OFFICIAL

Analysis of these three indicators captures financial and service sustainability, in addition to cost control and affordability risk.¹¹

The City of Mount Gambier – Strategic Management Plan Documents

- ▶ Annual Business Plan and Budget 2024/2025 (June 2024)
- ▶ Annual Business Plan and Budget Summary 2024/2025 (June 2024)
- ▶ Long-Term Financial Plan 2025 – 2034 (June 2024)
- ▶ Asset Management Summary 2025 – 2034 (June 2024)
- ▶ Building and Structures Asset Management Plan 2025 – 2034 (June 2024)
- ▶ Infrastructure Asset Management Plan 2025-2034 (June 2024)
- ▶ Plant and Equipment Asset Management Plan 2025 – 2034 (June 2024)
- ▶ Long-Term Financial Plan 2024 – 2033 (June 2023)

The Commission notes that most of the Council's asset base is covered by its existing asset management plans (**AMP**), and asset valuations for those assets have been conducted within the last four years.

Given that the Commission must, in providing advice, have regard to the objective of councils maintaining and implementing their **IAMP** (usually termed **AMP**) and **LTFP**,¹² it has also considered the Council's performance in that context. Findings regarding the content of the Council's **AMP**, and the alignment between its **LTFP** and **AMP**,¹³ are discussed in section 5.

The Commission has also reviewed the Council's template data which contains its 2023-24 **LTFP** forecasts for 2023-24 to 2032-33, as well as its 2022-23 **LTFP** forecasts, historical financial data, the number of rateable properties and Council staff (Full Time Equivalent or **FTE**) numbers from 2012-13 onwards.^{14 15} The charts and tables in the Advice are primarily sourced from these datasets. In addition, the Commission has reviewed the Council's audit committee reports, and other public information, as appropriate.

The Commission has reported estimates in nominal terms, for consistency with the Council's plans and actual rate levels, but it has compared estimated inflation impacts to these trends as a guide to identify 'real' rather than 'inflationary' effects. In the charts, the Consumer Price Index (**CPI**) line shows the cumulative growth in the **CPI** (Adelaide) series from 2012-13, and then projections of this series from 2023-24 based on the Reserve Bank of Australia (**RBA**) (Australia-wide) inflation forecasts (to the December quarter 2026), and the midpoint of the **RBA** target range (2.5 percent) thereafter.

Finally, in formulating this Advice, the Commission has had regard to all discussions and engagement with the Council, including the face-to-face onsite meeting at the Council offices and the individual circumstances of the Council, consisting of:

- ▶ its location as an urban regional council

Commission has adopted the previously suggested Local Government Association (**LGA**) target ranges as a basis for its analysis, which were established and agreed during the development of the **LGA** Financial Sustainability Papers (2006-2011).

¹¹ The F&A listed 29 analytical questions that the Commission has answered in assessing the Council's performance against these indicators to determine affordability, cost control and other sustainability risks.

¹² **LG Act** s122(1g)(a)(i).

¹³ As required under s122(1b) of the **LG Act**.

¹⁴ Sourced from the Local Government Grants Commission (including data reported by the Office of the Valuer-General) and the Council's data.

¹⁵ The Council's estimates for the 2023-24 financial year, relied on at the time of preparing this advice, were unaudited.

OFFICIAL

- ▶ its income level (\$42.1 million in 2022-23), and
- ▶ the size of its rates base (14,534 rateable properties as at 2022-23¹⁶).

Throughout this paper the Commission has identified several key points and assigned the following risk category to those points:

Legend:  Low-risk  Moderate-risk  High-risk

¹⁶ Based on the estimated number of property assessments in 2022-23.

3 Council profile

The City of Mount Gambier is classified by the Commission as an 'Urban Regional' council and is one of nine in this category in South Australia.¹⁷ The Council encompasses a total land area of 33.9 square kilometres and is located in the South-East of South Australia, approximately 420 kilometres from Adelaide and approximately 17 kilometres from the Victorian border. It has an estimated resident population of 27,846 (at 30 June 2023),¹⁸ and 14,534 rateable properties (at 30 June 2023).¹⁹

The City of Mount Gambier was established as a council in 1876 and is uniquely encircled by the District Council of Grant.

Figure 1: Council area

The Council region also has the following attributes:

- ▶ stable rateable property growth of approximately 0.8 percent per annum²⁰
- ▶ population density of 822 persons per square kilometre²¹
- ▶ 231.5 kilometres of sealed roads and laneways, and 1.0 kilometres of unsealed roads and laneways²²
- ▶ its largest employment sectors are in health care and social assistance (16.7 percent), retail trade (12.6 percent), manufacturing (9.5 percent), and education and training (8.7 percent),²³ and
- ▶ a median population age of 41.2 years.²⁴

OFFICIAL

4 Material plan amendments in 2024-25

Council has made several amendments to its 2024-25 budget and forward projections, partly for inflation and partly for other revenue and spending initiatives. The material amendments to some of its main financial forecasts are listed in the table below (in nominal terms).²⁵ To ensure a comparable analysis of estimates between the 2023-24 and 2024-25 LTFPs, the Commission has reviewed the nine overlapping years' statistics: 2024-25 to 2032-33 and identified material amendments accordingly.

4.1 Key points

- ✓ Good practice of annually updating and developing its strategic management plans in consultation with stakeholders and community.
- ⚠ Increased forecast capital expenditure by 55.4 percent (or \$39.9 million) in its 2024-25 LTFP estimates.

Table 1: Summary of Material Plan Amendments

Selected Financial Item	Sum of 2024-25 to 2032-33 estimates in 2023-24 LTFP (\$ million)	Sum of 2024-25 to 2032-33 estimates in 2024-25 LTFP (\$ million)	Change in 2024-25 estimates (\$ million)	Change in 2024-25 estimates (percent)
Rates	305.7	346.4	+40.8	+13.3
Grants, subsidies and contributions	47.9	52.5	+4.6	+9.6
Total operating income	464.6	524.7	+60.2	+12.9
Employee costs	161.6	179.3	+17.7	+11.0
Materials, contracts and other expenses	174.5	199.5	+25.0	+14.3
Depreciation, amortisation and impairment	104.9	123.1	+18.2	+17.3
Total operating expenses	451.2	513.2	+62.0	+13.7
Capital expenditure on renewal of assets ²⁶	57.7	78.7	+21.0	+36.4
Capital expenditure on new and upgraded assets ²⁷	14.3	33.1	+18.9	+132.3

²⁵ This table shows only selected financial items to demonstrate the material amendments made by the Council in its 2023-24 estimates. It excludes various financial items and individual items do not sum to totals.

²⁶ The capital expenditure estimates are based on the 2023-24 LTFP estimates provided by the Council to the Commission (in an Excel template).

²⁷ Footnote 26 applies.

OFFICIAL

4.2 General observations on the LTFP, ABP and IAMP

The Commission has observed that the Council has employed a consultative process when developing its SMP and budgets. Each year the Council undertakes a review and update of its LTFP, which is considered by Council's Audit and Risk Committee, with recommendations further considered by Council.²⁸ The first year of the adopted LTFP provides the high-level framework for the development of the Council's annual budget. The LTFP and ABP (and Budget) are developed within the Council's overall strategic planning framework.

From February to June each year, the Council's AMP are reviewed and updated, having regard to any forecast expenditure changes resulting from changed circumstances. The Council advises that all major AMP have been updated in 2024, in line with legislative requirement to review these within two years of council elections.²⁹ Most infrastructure assets have undergone an asset revaluation within the last three years.

The Commission noted that the Council's IAMP does not include all assets, and that there are separate AMP for buildings and structures, and plant and equipment (among others), and these are summarised together in the Council's Asset Management Summary document.

The Commission commends the Council's approach to updating and developing its SMP, ABP and budgets.

4.3 Changes to operating performance

The Council has projected in its 2024-25 LTFP an increase in total operating income of \$60.2 million (or 12.9 percent) across the nine-year comparative period to 2032-33 compared to the 2023-24 LTFP (as shown in the table above). This reflects a range of changes to its income forecasts, notably:³⁰

- ▶ an increase in rates income by 13.3 percent (compared to the previous LTFP projections), which are driven by the Council's need to recover rising costs, including higher capital expenditure estimates following an update to its AMP, and
- ▶ an increase in 'grants, subsidies and contributions' by 9.6 percent, reflecting federal grants in 2024-25 and 2025-26 for the design and implementation of the Sport, Recreation and Open Space Strategy.

The Council projects a total increase in operating expenses of \$62.0 million (or 13.7 percent) across the nine-year comparative period to 2032-33. The Council has provided some explanations to the Commission, summarised below:

- ▶ Employee costs reflect the insourcing of cleaning services previously undertaken by external contractors. In 2024-25 an additional 1.5 FTE were added as ongoing positions to meet strategic requirements for volunteer management and parks/gardens. Overall, an additional two FTE per annum are being forecast by the Council to meet increased services due to population growth and to implement future strategic initiatives. This proposed cumulative increase in staffing seems high and could be an area in which savings could be identified over the forecast period.
- ▶ 'Materials, contracts and other' expenses, increase (of 14.3 percent) reflects a review of running costs of Wulanda Recreation and Convention Centre, which has been in operation for more than 12 months (the increase in reimbursement income offset some of this). There has also been an increase in costs across purchases for infrastructure items, plant and equipment and contracting services.

²⁸ Under s.122(4)(a)(i) of the LG Act the Council must undertake a review of its long-term financial plan on an annual basis.

²⁹ LG Act s122(4)(a) and (b). General elections were last held for SA councils on 11 November 2022.

³⁰ Based on the Council's Financial Reporting template (including its reasons for material amendments) provided to the Commission.

OFFICIAL

- ▶ Depreciation expenses reflect updates following asset condition audits and valuations undertaken in 2023 for infrastructure and buildings, which were not incorporated into the previous (2023-24) LTFP.

4.4 Observations on Indexation

The Council applies CPI-based inflation adjustments to its cost and revenue estimates. It assumes CPI increases of 2.9 percent in 2024-25, 2.6 percent in 2025-26, and then reverts to approximately the mid-point of the RBA target range of 2.5 percent over the remaining planning period.³¹ These CPI projections are generally consistent with the Council's previous (2023-24) LTFP, and do not appear to account for the material changes in Council's financial forecasts.³² The Council's inflation forecasts are also generally consistent with current RBA forecasts averaging 2.6 per annum between 2023-24 and 2033-34.³³

The Council's stated assumptions for indexation in its 2024-25 LTFP are transparent and based on its annual review of estimates. Overall, the Commission considers the documentation of these assumptions are appropriate, and the Council should continue to review inflation forecasts in its budget and forward projections. This will assist interested parties in identifying 'real' rather than inflationary effects in material plan amendments.

4.5 Increase to capital expenditure estimates

The Council's 2024-25 LTFP projections indicate a material increase in capital expenditure for asset renewals (by \$21.0 million or 36.4 percent) and for new and upgraded assets (by \$18.9 million or 132.3 percent), compared to the previous years' LTFP projections (for the period from 2024-25 to 2032-33). This gives rise to a total capital expenditure increase of \$39.9 million or 55.4 percent.

The Council advises that the proposed higher spend arises from:

- ▶ recent updates to AMPs for asset renewals, including reflecting higher asset values for buildings, stormwater and retaining walls, and
- ▶ higher investment in new and upgraded assets in 2027-28 for the design and implementation of the Sport, Recreation and Open Space Strategy.

The Commission's review of the Council's LTFP indicates that further transparency around the key reasons for its capital expenditure estimates (between annual updates) may be of benefit to stakeholders and allow for future assessments of financial sustainability. These material changes should be clearly documented as part of its annual LTFP reviews, and accordingly, the Commission recommends that Council:

1. **Disclose** material changes to its capital expenditure forecasts as part of its annual review and update to its Long-Term Financial Plans.

³¹ City of Mount Gambier, *Long-Term Financial Plan 2025-2034*, June 2024, p. 29.

³² City of Mount Gambier, *2024 – 2033 Long-Term Financial Plan*, June 2023, p. 23.

³³ The forecast average annual growth in the CPI from 2024-25 to 2033-34 is estimated to be 2.6 percent based on the RBA forecasts for the CPI (Australia-wide) to December 2026 (and the Commission's calculations of average annual percentage growth) and the midpoint of the RBA's target range (2.5 percent) from 2025-26.

OFFICIAL

5 Financial sustainability

5.1 Operating performance

5.1.1 Key points

- ▲ Operating surpluses were reported in five of the last 10 years (between 2013-14 and 2022-23), resulting in an average OSR of 0.7 percent.
- ▲ The projected turnaround in forecast operating performance is driven by sharp increases in rates income in 2024-25 and 2025-26, and ongoing annual increases by 5.3 percent per annum (including growth in rateable properties of 0.5 percent per annum).
- ▲ From 2013-14 to 2022-23, total operating expenses increased at an average annual rate of 7.0 percent (in part due to the commencement of operation of the Wulanda Recreation and Convention Centre) and are forecast to increase by 3.0 percent per annum on average over the next 10 years. There are risks to the Council's operating performance if expenses are not constrained.

5.1.2 Operating Surplus Ratio

Figure 2: Operating surplus ratio – historical and forecast

The Council's OSR³⁴ has fluctuated over the historical period. It has been negative at times, and below the target range suggested by the Local Government Association (LGA). It has averaged 0.7 percent over the period from 2013-14 to 2022-23. This indicates the Council has marginally operated sustainably, that is, its accumulated operating income has marginally exceeded its accumulated operating expenses (see Figure 3).

The key reason for past operating deficits, particularly in 2020-21 (at the start of the pandemic) is due to the Council keeping the increase in rates below the rate of inflation.³⁵ At the same time, the Council

³⁴ The operating surplus ratio is defined as: Operating Surplus (Deficit) ÷ Total Operating Income. The general target is to achieve, on average over time, an operating surplus ratio of between zero and 10 percent (Local Government Association of South Australia, *Financial Sustainability Information Paper 9 - Financial Indicators Revised*, May 2019 ([LGA SA Financial Indicators Paper](#)), p. 6).

³⁵ City of Mount Gambier, *2020/21 Annual Business Plan and Budget*, June 2020, p. 10, available at: <https://cdn.mountgambier.sa.gov.au/docs/2020-2021-Annual-Business-Plan-Budget.pdf>.

OFFICIAL

increased capital expenditure on new and upgraded assets, such as for the Wulanda Recreation and Convention Centre.

Figure 3: Total income and expenses – historical and forecast

The Council's unaudited financial information for 2023-24 shows an operating deficit of \$7.3 million (or OSR of negative 18.4 percent). Over half of this deficit is attributed to the timing and recognition of the 2023-24 Financial Assistance Grants of \$4.4 million, which was paid to the Council in advance in 2022-23.³⁶ Thereafter, the Council is forecasting a return to an operating surplus in 2026-27, and this progressively increases resulting in an OSR of 6.9 percent in 2033-34. This relies on annual increases in rates income materially above forecast inflation. It will be important for Council to consider how to increase income from non-rate sources and / or seek to reduce operating expenditure, to reduce the reliance on ratepayers.

5.1.3 Operating Income

The Council's primary source of income over the period from 2013-14 to 2022-23 was from rates, which on average, accounted for 66.7 percent of total operating income. Rate income increased on average by 4.4 percent per annum from 2013-14 to 2022-23 (when growth in the number of rateable properties averaged 0.8 percent and CPI growth averaged 2.6 percent). Over the same period, user charges (accounting for 15.3 percent of total operating income) increased by an average of 7.8 percent per annum, in part, driven by income from Wulanda Recreation and Convention Centre. 'Grants, subsidies and contributions' (accounting for 13.8 percent of total operating income historically) can be 'lumpy' from year to year³⁷ and the three-year average of \$173 per rateable property in 2015-16 is compared with the three-year average of \$430 per rateable property in 2022-23, reflecting an increase in value in real terms (or 13.9 percent increase per annum in nominal terms).

Over the forecast period from 2024-25 to 2033-34, total income is increasing at an annual average of 4.2 percent, incorporating income from rates increasing by an average of 5.3 percent per annum, which includes growth in the number of rateable properties of 0.5 percent per annum. This means that the average rates revenue per property is forecast to increase by 4.8 percent per annum, almost double the RBA's average forecast inflation of 2.6 percent per annum over the same period.

The Council's forecasts indicate higher average increases in rates income relative to other income sources, and it is not clear whether conservative estimates are being made by the Council in its LTFP for

³⁶ The Local Government Grants Commission sets out the quarterly payment schedule for Financial Assistance Grants (among other grants), available at <https://www.dit.sa.gov.au/local-government/grants-commission/grant-payments>.

³⁷ Due to the timing of different grants and sometimes advance grant payments (as for the 2023-24 Financial Assistance grant allocation, which was received and accounted for in 2022-23).

OFFICIAL

non-rate income sources, such as for grants or statutory charges. There may be an opportunity for Council to review and optimise user charges to ensure cost recovery, however overall, the Commission recognises there may be limitations in achieving higher income from non-rate sources, given the generally lower socioeconomic environment of the region.

5.1.4 Expenditure

Total operating expenses increased at an average annual rate of 7.0 percent over the historical period (over two and half times the rate of historical inflation), and, in part, is driven by the operating costs associated with the Wulanda Recreation and Convention Centre. Over the forecast period, total operating expenses are forecast to increase at an average annual rate of 3.0 percent. This is due, in part, to forecast increases in employee costs at an annual average rate of 4.7 percent; increases in 'materials, contracts and other' expenses at an average annual rate of 2.3 percent; and increases in depreciation expenses at an average annual rate of 3.3 percent.

Council notes that employment costs are increasing, in part due to cleaning services being insourced, which derives a corresponding saving, as well as allowing for an additional 1.5 FTE for ongoing positions to meet strategic requirements for volunteer management and parks/gardens in 2024-25. Overall, the Council assumes it will increase staff by two FTE per annum over the period to 2033-34 to meet increased services due to population growth and for future strategic initiatives. Figure 4 shows the forecast increase in all expense types.

Figure 4: Expenses by category – historical and forecast

OFFICIAL

Figure 5: Expenses by category – proportions

Figure 5 shows the proportional share of expenses by category and indicates that historical shares from 2013-14 are generally consistent with forecast shares in 2033-34.

Figure 6: Expense by rated property - historical and forecast

Figure 6 illustrates that expenses per property increased above CPI for the historical period at an average of 6.2 percent per annum; however, is projected to increase by only 2.5 percent per annum, on average, over the period from 2024-25 to 2033-34 (which is broadly consistent with average forecast CPI over this period). While the Council is projecting a smaller rate of growth in operating costs, it is forecasting these on a much larger cost base, in part due to the costs associated with the Wulanda Recreation and Convention Centre.

It is noted that the Council has reported a full years' financial performance for the Wulanda Recreation and Convention Centre, which resulted in a gross operating deficit of \$1.2 million in 2023-24.³⁸ The Council has recognised that while it anticipated an initial operating deficit for the Wulanda Recreation and Convention Centre, it has worked to reduce the Centre's deficit.

³⁸ Available at <https://www.mountgambier.sa.gov.au/news/wulanda-operations-financial-performance-and-costs>.

OFFICIAL

5.1.5 Commission's recommendations on operating performance

The Council's forecast operating surpluses relies on growth in rates income as well as lower rate of growth in operating expenses. However, the Commission observes the Council does not provide an explanation for the strategies or initiatives (in its LTFP) to achieve this lower rate of cost growth. In general, it might be beneficial for the Council to develop additional cost reduction plans with annual cost reduction targets, and with achievements reported against budgets, to demonstrate accountability and provide transparency to the ratepayers. If the Council fails to restrain costs, its sustainability will be at risk.

Accordingly, the Commission recommends that the Council:

2. **Develop** a plan to achieve cost savings measures and targets and report annually in the budget and the Long-Term Financial Plan as appropriate, to provide evidence of controlling the growth in costs and achieving efficiencies across its operations and service delivery.

5.2 Net financial liabilities

5.2.1 Key points

- ✓ Between 2013-14 and 2022-23, the NFLR averaged 40.3 percent.
- ⚠ In 2023-24 the Council's borrowings peak at \$37.1 million and resulting in the NFLR of 112.1 percent.
- ✓ Between 2023-24 and 2032-33, the NFLR is forecast to trend downwards, and to average 57.2 percent.

Over the historical period from 2013-14 to 2022-23, the Council's NFLR³⁹ has remained within the LGA target range of zero to 100.0 percent, with an average ratio of 40.3 percent. After peaking at 112.1 percent in 2023-24 (unaudited), over the forecast period from 2024-25 to 2033-34, the NFLR progressively reduces from 99.7 percent in 2023-24 (unaudited) to 18.6 percent (or averages 57.2 percent). The ratio indicates that the Council is generally able to fund its financial obligations from operating income over the historical period, and will do so over the forecast period (see Figure 7).

³⁹ The net financial liabilities ratio is defined as: Net financial liabilities ÷ Total operating income. This ratio measures the extent to which a council's total operating income covers, or otherwise, its net financial liabilities. The suggested LGA target range is between zero and 100.0 percent of total operating income, but possibly higher in some circumstances (LGA SA Financial Indicators Paper, pp. 7-8).

OFFICIAL

Figure 7: Net financial liabilities ratio – historical and forecast

The Council has predominantly used borrowings from the Local Government Finance Authority of South Australia (LGFA) for its operating and investment needs. The progressive increase in borrowings from 2020-21 is mainly associated with the construction and operating needs of the Wulanda Recreation and Convention Centre. As a result, the Council has reported borrowings to have peaked in 2023-24 (unaudited) at \$37.1 million (with a NFLR of 112.1 percent), followed by rapid repayment over the forecast period, to a borrowing balance of \$2.8 million in 2033-34.

Figure 8: Total income and net financial liabilities – historical and forecast

Net Financial Liabilities are financial liabilities offset by cash and other financial assets. As seen in Figure 8, after reaching a peak of \$48.4 million in 2024-25, net financial liabilities are forecast to decrease in line with the Council reduction in borrowings.

It appears from the Council's budget and LTFP that it seeks to reduce debt through rate increases (materially above forecast CPI inflation) and through lower rate of growth in operating expenses (although this is on a much larger cost base).

In the Commission's view, the planned rapid pace of repayment of debt might represent an unnecessary burden for ratepayers, evidenced by the planned high annual growth in rates payable, leading to concerns about affordability and intergenerational equity.

OFFICIAL

5.2.2 The Commission's recommendations on financial liabilities

The Commission notes that the Wulanda Recreation and Convention Centre is a long-term asset that will benefit current and future generations. Council could consider longer-term debt assumptions to reduce intergenerational equity risk (where current ratepayers pay for assets that will benefit future ratepayers). The Commission recommends that the Council:

3. **Review** its planned pace of repayment of debt, balancing rate increases, financial costs, and intergenerational equity.

5.3 Asset renewals expenditure

5.3.1 Key points

-  Between 2013-14 and 2022-23, the ARFR averaged 73.1 percent.
-  From 2024-25 to 2033-34, the Council is forecasting to align its asset renewal and replacement spending to its asset management plans, averaging \$8.9 million per annum (in nominal terms).
-  An emerging gap exists in renewal expenditure (relative to depreciation) which may indicate issues with asset valuations, assessed remaining useful lives, or proposed capital expenditure.

5.3.2 Council's approach to asset management

The Council advises that as part of its asset revaluations in 2023, it reviewed the useful life of its assets for the purposes of the forward work program and incorporated this asset condition and useful life of assets into the AMP. The Council also stated that it intends to review the useful life of its assets annually, moving forward. The Commission notes and encourages this good practice.

The Council currently has AMP for all major asset classes and has implemented a rolling schedule to update its plans in line with its legislative commitments.⁴⁰ The Council has advised that, following the community consultation phase, most of its AMP were reviewed and updated and were endorsed by its Audit and Risk Committee and the Council during calendar year 2024.⁴¹

The Council has asset class AMP for: infrastructure, buildings and structures, plant and equipment, Caroline landfill, and library information technology and sundry. The AMPs provide a breakdown of the assets within each respective asset class and the proposed capital works and repairs and maintenance expenditure are included into the Council's LTFP.

The Council's capital works program includes 10 years of asset renewal projections, in alignment with the Council's LTFP, with the exception of the Caroline Landfill, which had not been updated at the time the Asset Management Summary was prepared. The Council's Strategic Workplan 2024-2027 indicates that significant work will be undertaken on asset management planning and the approach will be reviewed.

⁴⁰ Under s.122(1a)(b) of the LG Act the council must in effect develop and adopt an IAMP, relating to the management and development of infrastructure and other major asset classes by the council for a period of at least 10 years.

⁴¹ These include individual AMPs cover buildings and structures, infrastructure, plant and equipment, Caroline Landfill, and library information technology and sundry.

OFFICIAL

Figure 9: Asset renewal funding ratio (renewal expenditure gross) – historical and projected

An ARFR of 100.0 percent indicates that a council is fully funding the asset renewal and replacement requirements set out in its IAMP. The LGA suggests a range of 90.0 percent to 110.0 percent in any year, noting that the ratio should average out at 100.0 percent over time.

As shown in Figure 9, the ARFR (gross) was volatile over the 10-year historical period and averaged 77.6 percent, indicating that the Council's asset renewal and replacement requirements may not be sufficiently funded (or aligned to its AMP). This creates a risk of deterioration of existing assets, with potential reduction in the level of services and potential additional costs for maintenance.

Figure 10: Asset renewal funding ratio (depreciation based) – historical and forecast

Asset renewals can also be evaluated by the depreciation-based ARFR, which has tracked lower than the recommended minimum level (for the IAMP-based ratio) of 90.0 percent, averaging 63.1 percent in the period to 2023-24, and forecast to average only 62.4 percent per annum to 2033-34.

OFFICIAL

Figure 11: Net asset renewal expenditure and depreciation – historical and forecast

Figure 11 shows that historically (between 2013-14 to 2022-23) depreciation expenses outpaced renewal capital expenditure by \$28.9 million over ten years and the gap is projected to increase over the forecast period by a further \$52.7 million. This may indicate an underspend in asset renewal and replacement expenditure, or a greater focus on expenditure on new or upgraded assets, or recorded asset lives are understated (thereby overstating depreciation), or a combination of these.

Figure 12: Total capital expenditure by category – historical and projected

Figure 12 shows the expenditure on new and upgraded assets relative to renewal and replacement of existing assets. Capital expenditure on new or upgraded assets over the historical period (from 2020-21 to 2022-23) totalled \$69.6 million and peaked in 2021-22 with expenditure of \$35.1 million for new and upgraded assets. This related to the Wulanda Recreation and Convention Centre, which opened to the public in December 2022. The construction cost of \$62.5 million was funded by a combination of grants and debt.⁴²

⁴² \$25 million from a combination of Federal and State Government and \$350,000 from the District Council of Grant with the balance funded by Council debt.

OFFICIAL

Over the forecast period (from 2024-25 to 2033-34), capital expenditure on new or upgraded is forecast to average \$4.0 million per year which is an increase of 24.3 percent from the historical period when Wulanda Recreation and Convention Centre is excluded.⁴³

The Commission is concerned with the historical level of spending on new and upgraded assets, while expenditure on asset renewal and replacement appears to be under-funded. For the forecast period, the Council plans to fully fund asset renewal and replacement requirements (in line with its AMP), as indicated by Figure 9.

Further, a consequence of spending on new and upgraded assets creates a stream of future liabilities, as the community must continue to fund the renewal and replacement of those new assets as well as the existing asset base. This must be considered relative to affordability for the community and the Council's capacity to renew and replace the existing and new assets.

Figure 13: Value of asset stock per rateable property – historical and projected

Asset stock per rateable property increased sharply in 2022-23 with the development of the Wulanda Recreation and Convention Centre. The Council forecasts that the value of asset stock per rateable property will increase on average by 1.9 percent per annum from 2024-25 to 2033-34.

5.3.3 The Commission's recommendations on asset renewals expenditure

The Commission recommends that the Council:

4. **Review** its depreciation assumptions and the underlying valuations and useful life data to ensure that depreciation accurately reflects the rate of asset consumption and ensure that asset renewal and replacement is fully funded.
5. **Review** its pace of development of new and upgraded assets, having regard to rates affordability, the affordability of the stream of future liabilities created by new and upgraded assets and the need to prioritise and fully fund asset renewal and replacement.

⁴³ Capital expenditure for new assets averaged \$3.2 million per annum when the \$62.5 million for the construction of the Wulanda Recreation and Convention Centre is excluded.

OFFICIAL

6 Advice on current and projected rate levels

6.1 Key points

- ▲ Growth in rate revenue per property averaged 3.7 percent or \$53 per annum for each property between 2013-14 and 2022-23, which is 1.1 percentage points above average CPI for the same period.
- The budgeted general rate increase for 2024-25 is 10.0 percent per property, which is materially higher than the Council anticipated charging in previous forecasts.
- The forecast rate increases per property from 2024-25 to 2033-34 are projected to be an average of 4.8 percent per annum or a cumulative increase of \$1,086 over this period, which is well above the RBA's CPI inflation forecast of an average of 2.6 percent per annum.
- ▲ Affordability risk among the community for the further rate increases appears to be moderate to high, based on a range of factors, including an assessment of the economic resources available to the community, the current relatively low average residential rates, and the forecast increases in rates over the term of the LTFP.

Figure 14: Average rates revenue per property – historical and projected

6.2 Historical rates growth

The Council's growth in rate revenue per property has averaged 3.7 percent per annum or \$53 per annum for each property over the past 10 years,⁴⁴ to reach an estimated average of \$1,713 per property in 2022-23 (see Figure 14). This growth rate was higher than the average CPI increase of 2.6 percent annually during the same period.⁴⁵

⁴⁴ From 2013-14 to 2022-23.

⁴⁵ CPI Adelaide (all groups) increased by 2.6 percent per annum on average over the period from 2013-14 to 2022-23, based on historical ABS statistics. Available at <https://www.abs.gov.au/statistics/economy/price-indexes-and-inflation/consumer-price-index-australia/>.

OFFICIAL

Figure 15: Income Proportions (%)

Rate revenue represented 66.7 percent on average over the 10-year period from 2013-14 to 2022-23 (see Figure 15). Over this period income from grants represented approximately 13.8 percent, and income from user charges approximately 15.3 percent. The Council also had income from 'amounts received specifically for new and upgraded assets' (such as for the Wulanda Recreation and Convention Centre) which has been significant at times.⁴⁶

As previously noted, the number of rateable properties increased from 13,584 (in 2013-14) to 14,534 (in 2022-23) representing an average growth of 0.8 percent per annum. It is forecast to increase to 15,380 rateable properties, at an average growth rate of 0.5 percent per annum, over the period from 2024-25 to 2033-34.

The Council also has relatively lower 'general rates' compared to similar councils; however, this also reflects its relatively higher average rates for commercial ratepayers, and lower average rates for residential ratepayers.⁴⁷

6.3 Proposed rate increases for 2024-25

The Council has budgeted for average general rates increase of 10.0 percent or \$152 per property in 2024-25.⁴⁸ The rates increase recognises the Council's higher cost base and financial sustainability risks and is 9.7 percentage points higher than the Adelaide CPI for the annual period to March 2024 of 4.3 percent. This proposed rate increase is also higher than the Council anticipated charging for the year 2024-25 (in its previous LTFP projections of 6.2 percent). The Council also assumes 1.1 percent growth in the number of rateable properties (which is approximately 0.3 percentage points higher than its historical average).

The Council has adopted differential rate categories to apply to ratepayers based on the land use category of rateable property.⁴⁹ The Council has adopted 'rate in the dollar'⁵⁰ amounts which are applied across its land use categories, and these are expected to be comprehensively reviewed during 2024-25.

⁴⁶ Not accounted for in Figure 15.

⁴⁷ Refer to Councils in Focus rates data for 2021-22 available at https://councilsinfocus.sa.gov.au/councils/city_of_mount_gambier. The Commission is not relying on these rate comparisons for its advice; the data source provides one indicator, among many, which has informed its advice on the appropriateness of the rate levels. Other rate charges such as for waste management and the regional landscape levy do not form part of this comparison.

⁴⁸ City of Mount Gambier, Annual Business Plan 2024/2025, June 2024, pp. 45-47.

⁴⁹ The categories of rateable property consist of: residential, primary production, and other; and commercial, industry, and vacant land.

⁵⁰ Section 152(1) of the LG Act provides that a general rate may be a rate based on the value of the land subject to the rate (commonly referred to as the 'rate in the dollar').

OFFICIAL

On a proportional revenue basis, residential ratepayers are expected to account for around 70.5 percent of 2024-25 general rates revenue, followed by commercial (19.3 percent), industry (5.8 percent), vacant land (3.1 percent), and primary production and other (1.3 percent).⁵¹

Other than general rates income (which represents around 80.6 percent of total rates income in 2024-25),⁵² the Council collects income from waste collection (around 14.8 percent) and from the Regional Landscape Levy (around 4.7 percent), though the Regional Landscape Levy funds are passed through to the State Government. Rates income from waste collection is anticipated to increase by 43.9 percent in 2024-25 or \$92 per rateable property.

6.4 Projected further rate increases

The Council has projected further average increases in rates income of 5.3 percent per annum over the period from 2024-25 to 2033-34, including growth in rateable properties. As a result, the average rates per property are forecast to increase by 4.8 percent per annum over the forecast period, which is 1.8 times the forecast average inflation of 2.6 percent per annum.⁵³

As noted previously, the Council appears to have considered several long-term planning assumptions, and importantly is seeking to address financial sustainability risks (and forecasting a return to an operating surplus by 2026-27), predominantly through modelling high long-term increases in rates based on RBA's CPI inflation forecast plus 2.0 percent.⁵⁴ The Council is also looking to pay down the borrowings accrued through the construction of the Wulanda Recreation and Convention Centre, primarily repaid through rates and user charges over the next 10 years.

The Council is seeking to undertake a comprehensive review of its rating strategy,⁵⁵ and the Commission suggests that community support for the significant rate increases is obtained (and affordability is considered). Further, to reduce the reliance on ratepayers, the Council could explore additional strategies to generate income, such as ensuring appropriate cost recovery on services for the Wulanda Recreation and Convention Centre or explore other revenue sources.

The Council's 2024-25 LTFP effectively projects a cumulative increase of \$1,086 per existing ratepayer (to \$3,148 per annum) by 2033-34 (refer to Figure 14).⁵⁶

6.5 Affordability risk

The affordability risk among the Council's community for these further rate increases appears to be moderate to high, on balance, when considering:

- ▶ the Council's relatively low socio-economic indexes for areas (SEIFA) economic resources ranking for the council area⁵⁷
- ▶ the relatively low average general rates for residential ratepayers compared to similar councils

⁵¹ City of Mount Gambier, *Annual Business Plan 2024/2025*, June 2024, p. 48.

⁵² Net of discretionary rebates.

⁵³ The forecast average annual growth in the CPI from 2025-26 to 2033-34 is estimated to be 2.6 percent based on the RBA forecasts for the CPI (Australia-wide) to December 2026 (and the Commission's calculations of average annual percentage growth) and the midpoint of the RBA's target range (2.5 percent) from 2026-27.

⁵⁴ City of Mount Gambier, *Long-Term Financial Plan 2025-2034*, June 2024, p. 16.

⁵⁵ City of Mount Gambier, *Long-Term Financial Plan 2025-2034*, June 2024, pp. 4-5.

⁵⁶ The CPI forecasts in the chart are based on RBA forecasts and then a return to long term averages (2.5 percent per annum), and this can be different to Council's own inflation and rate increase assumptions.

⁵⁷ The City of Mount Gambier area is ranked 13 among 71 South Australian 'local government areas' (including Anangu Pitjantjatjara and Maralinga Tjarutja Aboriginal community areas and 'unincorporated SA') on the Australian Bureau of Statistics SEIFA Index of Economic Resources (2021), where a lower score (e.g., 1) denotes relatively lower access to economic resources in general, compared with other areas, available at <https://www.abs.gov.au/statistics/people/people-and-communities/socio-economic-indexes-areas-seifa-australia/2021>.

OFFICIAL

- ▶ the potential bill shock for rate payers in 2024-25 due to budgeted increase in general rates of \$152 per rateable property, and in waste management charges by \$92 per rateable property,
- ▶ the effect of cumulative increases in rates per property of approximately 4.8 percent per annum over the period to 2033-34, almost double the forecast rate of inflation, and
- ▶ a number of community concerns, with several submissions received by Council during the 2024-25 budget process, some ratepayers expressing concerns about the 2024-25 rate increase.⁵⁸

6.5.1 The Commission's advice on affordability risk

Affordability risk can also be viewed in the context of the Council's financial and asset sustainability risks, specifically, the Council is not projecting an operating surplus until 2026-27 and will rely on significant step-up in rates in 2024-25 to 2025-26. Its past asset management planning also suggests further investment in asset renewals is required to maintain existing service levels. The community's capacity to pay for these increases appears to be low (based on the SEIFA index), and as previously noted Council should consider increasing non-rate income sources and/or implement cost savings initiatives to reduce the reliance on ratepayers.

Accordingly, the Commission recommends that the Council:

6. **Review** its approach to addressing financial sustainability risks, in consultation with its community, with a view to limiting future increases in rates and improving affordability for ratepayers.

⁵⁸ See City of Mount Gambier, *Special Council Meeting Agenda – 18 June 2024, Item 4.1 2024/2025 Draft Annual Business Plan and Budget – Community Consultation Feedback – Report No. AR24/38805*, pp. 4-13, available at <https://cdn.mountgambier.sa.gov.au/agendas-minutes/Notice-and-Agenda-Special-Council-Meeting-18-June-2024-Website-PDF.pdf>.

OFFICIAL

7 The Commission's next advice and focus areas

In the next cycle of the scheme, the Commission will review and report upon the Council's:

- ▶ ongoing performance against its LTFP estimates and how it has incorporated updates to asset valuations and depreciation, including the sequencing of the plan updates to ensure that the LTFP is informed by current values
- ▶ the identification and reporting of cost savings and operating efficiencies
- ▶ capital expenditure programs, including how it has continued to provide funding to the renewal of assets, and
- ▶ the Council's efforts to minimise any emerging affordability risks.

5.2 ADOPTION OF VALUATIONS AND RATES DECLARATION YEAR ENDING 30 JUNE 2027

Author: Kahli Rolton, Manager Financial Services

Authoriser: Jane Fetherstonhaugh, General Manager Corporate and Regulatory Services

RECOMMENDATION

1. That Council report titled 'Adoption of Valuations and Rates Declaration year ending 30 June 2027' as presented on Thursday 25 June 2026 be noted.
2. That, pursuant to section 167(1) and (2) of the Local Government Act 1999 Council adopts, for rating purposes for the 2026/2027 financial year, the Valuer General's valuations of the capital values applicable to land within the area of the Council, totalling \$8,153,993,260 and that the date of adoption of the valuations is 25 June 2026.
3. That, pursuant to sections 152(1)(c), 153(1)(b) and 156(1)(a) of the Local Government Act 1999, and in order to raise rates in the amount of \$28,955,876, Council declares differential general rates for rateable land within the Council area for the 2026/2027 financial year as follows:
 - (a) 0.195275 of a cent per dollar of assessed capital value on rateable land of land use category (a) 'Residential' and category (i) 'Other'; and
 - (b) 0.253858 of a cent per dollar of assessed capital value on rateable land of land use category (g) 'Primary Production'; and
 - (c) 0.4881880 of a cent per dollar of assessed capital value on rateable land of land use category (b) 'Commercial-Shop', category (c) 'Commercial Office', category (d) 'Commercial-Other', category (e) 'Industry-Light', category (f) 'Industry Other' and category (h) 'Vacant Land' use.
4. That pursuant to section 152 (1)(c)(ii) of the Local Government Act 1999, the Council imposes in respect of the 2026/2027 financial year, a fixed charge on rateable land within the Council area to the sum of \$650.35.
5. That pursuant to section 155(2)(a) of the Local Government Act 1999 the Council imposes a Waste Service Charge of \$390.00 for the 2026/2027 financial year on all land to which it provides or makes available the prescribed waste service of bin collection, treatment and disposal in order to raise the amount of \$5,702,970.
6. That in the exercise of the powers contained in section 69 of the Landscape South Australia Act 2019 and section 154 of the Local Government Act 1999, in order to reimburse to the Council the amount contributed to the Limestone Coast Landscape Board, being \$1,544,358 differential separate rates based on a fixed charge of an amount that depends upon the use of the land on all rateable land in the Council's area and in the area of the said Board for the 2026/2027 financial year are declared as follows:
 - (a) \$98.05 per assessment on rateable land of category (a) 'Residential', category (h) 'Vacant Land' and category (i) 'Other';
 - (b) \$142.00 per assessment on rateable land of category (b) 'Commercial-Shop', category (c) 'Commercial-Office' and category (d) 'Commercial-Other';
 - (c) \$228.00 per assessment on rateable land of category (e) 'Industry-Light' and category (f) 'Industry-Other';
 - (d) \$419.00 per assessment on rateable land of category (g) 'Primary Production'.

7. That pursuant to section 153 (3) of the Local Government Act 1999 and for the financial year ending 30 June 2027 but subject to the criteria set out in the Annual Business Plan 2026/2027 being met, the Council fixes a maximum increase to the general rate of 15% over the amount of the general rate liability for the 2025/2026 financial year in respect of any rateable land that constitutes the principal place of residence of a principal ratepayer and determines that any amount in excess of the 15% be remitted.
8. That pursuant to section 181(2) of the Local Government Act 1999 the Council declares that quarterly payment of rates and charges in respect of the 2026/2027 financial year be payable on or before:
Friday 4 September 2026
Friday 4 December 2026
Friday 5 March 2027
Friday 4 June 2027

PURPOSE

This report provides Council with the legal requirements as set out in the Local Government Act 1999 to finalise the annual budget process regarding adoption of rates and charges by way of a series of separate resolutions for the:

- Adoption of the capital valuation of land for the purpose of rating;
- Declaration of the attribution of land uses and codes;
- Declaration of differential general rates;
- Declaration of fixed charge;
- Declaration of Waste Service Charge;
- Declaration of differential separate rate in accordance with the Landscape South Australia Act 2019 ('the Act');
- Declaration of residential rate cap, and;
- Payment of Council rates.

BACKGROUND / OPTIONS

Council is required to declare a general rate after it has adopted its Annual Business Plan and Budget for the relevant financial year to which the rate relates and no later than 15 August in that financial year.

Council must not declare a rate for a particular financial year without first adopting the valuations that apply to land within its area for rating purposes for that year. The valuations have been prepared based on Capital Value as provided by the Office of the Valuer-General.

Council remains committed to environmentally sound waste management practices and will impose a Waste Service Charge (WSC). The WSC enables Council to more effectively respond to waste management costs and to equitably distribute these costs and benefits across the community. The charge is applied where the service is available to a property and is calculated on a full cost recovery basis.

This report should be read in conjunction with Council Report – Adoption of 2026/2027 Annual Business Plan, Budget and Rating Policies as presented at the 25 June 2026 Special Meeting which provides details of supporting documents, information and explanation.

Councils are required to raise revenue to support governance, administration, and service delivery, with rates being the primary source of income derived from land within the Council

area. While all ratepayers benefit from the payment of rates, the nature and extent of those benefits vary over time and between individuals.

Council must consider the impact of rates and service charges on all ratepayers, ensuring consistency, fairness and equity on how rates are applied across the residential, business, and broader community sectors.

Under the Landscape South Australia Act 2019, Councils are required to collect the landscape levy from all rateable properties on behalf of the State Government. The levy helps to fund the operations of regional landscape boards who have responsibility for the management of the State's natural resources. Council collects this levy on behalf of the State Government and does not retain or control how the revenue is spent.

At its meeting on 19 May 2026, Council endorsed the Draft 2026/2027 Annual Business Plan and Budget for public consultation. That report included the draft rating estimates relevant at the time required under regulation 6, together with the Rate and Rate Rebate policies. The Draft Annual Business Plan clearly noted that the rating figures were subject to change pending updated valuation advice from the Office of the Valuer-General.

Public consultation took place between 21 May 2026 and 11 June 2026, with a special meeting held 16 June 2026 to hear verbal submissions.

IMPLICATIONS TO CONSIDER

Legal	Council is required to adopt valuations and declare rates and charges in accordance with the <i>Local Government Act 1999</i> and <i>Landscape South Australia Act 2019</i> . The recommendations contained within this report have been prepared to meet statutory requirements for the 2026/2027 financial year.
Financial and Budget	Adoption of the proposed rates, charges and levies will enable Council to raise the revenue required to fund the services, programs and infrastructure works adopted within the 2026/2027 Annual Business Plan and Budget and maintain long-term financial sustainability.
Community Consultation and Engagement	Public consultation on the Draft 2026/2027 Annual Business Plan and Budget was undertaken from 21 May 2026 to 11 June 2026, with a Special Council Meeting held on 16 June 2026 to hear verbal submissions. Community feedback was considered as part of the budget and rating adoption process.
Other Resources	Existing Council resources, including finance, governance, customer service and information technology systems, will be utilised to implement the adopted rates and charges, issue rate notices and administer collections in accordance with legislative requirements.

RISK ANALYSIS

The risk identification and categorisation relies on the City of Mount Gambier [Risk Management Policy](#).

Risk	Consequence Rating	Risk Likelihood Rating	Inherent Risk Rating	Mitigation	Residual Risk Rating
Finance - Insufficient rate revenue raised to fund Council operations	Major (4)	Unlikely (2)	High	Compliance with the adopted Annual Business Plan and Budget,	Moderate

and approved budget commitments				financial modelling, review of valuations, and adoption of rates in accordance with legislative requirements.	
Reputation - Community dissatisfaction regarding rates increases, charges and rating decisions.	Moderate (3)	Likely (4)	High	Public consultation undertaken, transparent reporting, adoption of Rating Policy, community education and communication regarding rate impacts and services funded.	Moderate
Legal / Regulatory / Policy - Non-compliance with the Local Government Act 1999 or Landscape South Australia Act 2019 when declaring rates and charges.	Significant (5)	Unlikely (2)	High	Legal review of reports and resolutions, adherence to statutory processes, public consultation requirements completed, and governance oversight.	Low
Service Delivery - Delay in adoption of rates resulting in impacts to revenue collection and service delivery.	Major (4)	Unlikely (2)	Moderate	Adoption of rates before statutory deadlines, established budget and rating processes, and ongoing financial management and monitoring.	Low
People - Increased customer enquiries, complaints or staff workload associated	Moderate (3)	Possible (3)	Moderate	Staff training, customer service support, clear public information, and escalation processes for	Low

with rate notices and rate changes.				complex enquiries.	
Infrastructure - Failure of rating systems or valuation data processing impacting rate generation and billing.	Major (4)	Unlikely (2)	Moderate	System controls, information technology support, data validation, backup processes, and testing prior to rate notice issuance.	Low
Environmental - Inappropriate funding of waste management services affecting environment ally sustainable waste outcomes	Moderate (3)	Unlikely (2)	Moderate	Waste Service Charge applied to support waste collection, treatment and disposal services, ongoing monitoring of waste management costs and service performance.	Low

APPLICATION OF STRATEGIC PLAN

This report aligns to the following strategic objectives(s):

N/A

This report contributes to delivery of the following key strategic project(s):

N/A

RELEVANT COUNCIL POLICY

[Rates - Rate Rebate - R155](#)

[Rates - Rating - R105](#)

IMPLEMENTATION AND NEXT STEPS

Following adoption, rates will be generated and issued in accordance with legislative timeframes. Monitoring will occur throughout the financial year.

CONCLUSION

Council has undertaken the required processes to determine rates and charges for the 2026/2027 financial year in accordance with legislative requirements and community consultation.

Council may now adopt the valuations and declare rates for the year ending 30 June 2027, finalising the annual budget process.

5.3 ADOPTION OF LONG TERM FINANCIAL PLAN (LTFP) 2027-2036

Author: Kahli Rolton, Manager Financial Services

Authoriser: Jane Fetherstonhaugh, General Manager Corporate and Regulatory Services

RECOMMENDATION

1. That Council report titled 'Adoption of Long Term Financial Plan (LTFP) 2027-2036' as presented on Thursday 25 June 2026 be noted.
2. That Council note the Audit and Risk Committee feedback, verbal and written submissions received from members of the public considered at the Special Council meeting held on 16 June 2026 as part of the broader Draft 2026/2027 Annual Business Plan and Budget and Draft Long Term Financial Plan Consultation.
3. That Council adopt the Long Term Financial Plan 2027-2036 as attached to this Report.
4. That Council authorises the Chief Executive Officer or Delegate to make any necessary changes to the Long Term Financial Plan 2027-2036 document arising from this meeting, together with any editorial amendments, errors or omissions and finalisation of the document's formatting and graphic design that do not materially alter the integrity of the document.

PURPOSE

Council is required to develop and adopt a Long Term Financial Plan (LTFP) in accordance with the Local Government Act and Regulations. Council has decided to review the LTFP annually aligned with the timing of the Annual Business Plan.

This report presents the recommendation necessary to formally adopt the Long Term Financial Plan 2027-2036.

Separate reports are to be considered in conjunction with this report for the adoption of the Annual Business Plan and Budget and Declaration of Rates and Valuations as presented at this Special Meeting.

BACKGROUND / OPTIONS

The Long Term Financial Plan (LTFP) for 2027–2036 has been prepared to guide the financial decision-making and planning of the City of Mount Gambier over the next ten years. The LTFP is an essential component of Council's Strategic Management Plans and is reviewed annually to ensure it remains relevant to the evolving needs of the community, organisation, changing economic conditions and influences on Council.

The LTFP has been developed through internal collaboration between Council's Executive Leadership Team and Elected Members and has been informed by a series of workshops in conjunction with annual business planning. The LTFP provides a forward financial framework that aligns with Council's Strategic Plan 2024–2028, Asset Management Plans, and the Mount Gambier 2035 Community Vision.

Key Highlights

The LTFP 2027–2036 outlines the City of Mount Gambier's financial strategy over the next ten years and presents a strong position for community consultation.

Pleasingly, the LTFP demonstrates that Council has achieved its key financial sustainability targets- Operating Surplus Ratio, Net Financial Liabilities Ratio, and Asset Renewal Funding Ratio set by the Local Government Finance Authority prior to 30 June 2027. This achievement is the result of careful financial management, improved budget processes, and a focus on long-term planning. It provides Council with a more stable platform from which to consider future investment, service delivery, and community priorities.

The Plan is built on the following key assumptions:

- **Rate Revenue Growth:** Average annual rate revenue increase of 3.58% (excluding growth and waste service charge) over the life of the plan.
- **Operational Expenditure:** Reflects CPI-based indexation, known service level adjustments, strategic work plan priorities and incorporation of enterprise bargaining outcomes.
- **Capital Expenditure:** Based on capital works forecasts and current Asset Management Plans (AMPs), including renewal, new, and upgrade works. Some additional items have been added above the AMPs due to new or changed assumptions prior to AMPs being updated. It should be noted that adoption of AMPs are within the legislative requirements.
- **Borrowings:** Short-term use of borrowings to support capital delivery, with a projected repayment trajectory that maintains net financial liabilities within target. Notably, loans continue to decrease over the life of the Plan, with a slight uptake in the last three years due to fit-for-future new capital investment projects and new borrowings to fund such projects in alignment with the LTFP financial strategy and guiding principles.
- **Grants and Other Income:** Continued receipt of Federal Assistance Grants and known external funding commitments; conservative estimates for discretionary grant funding.

How the LTFP Addresses ESCOSA's Observations and Recommendations

The LTFP is a primary document that will be reviewed by ESCOSA on a four year rotating schedule as part of a range of strategic planning documents with advice provided to the Council. Most recent advice was received by Council in February 2025.

The LTFP has been prepared in the context of achieving financial sustainability while maintaining service levels and managing long-term asset obligations. It directly addresses both key observations and formal recommendations made by the Essential Services Commission of South Australia (ESCOSA) through a considered approach to capital investment, borrowings, asset management, and rate setting. The LTFP addresses these observations and recommendations through the following measures:

- **Rates and Affordability:** The Plan takes a balanced approach to rate increases, with a focus on long-term stability. While initial increases are necessary to return to sustainability, the additional 2% margin for a sustainable position reduces progressively over the life of the plan. By the end of the 10-year period, rate increases are equal to CPI, reflecting improved financial health and community affordability considerations.
- **Cost Control and Efficiency:** A key focus of the Plan is improving operational efficiency and identifying cost savings. Council is progressing a structured approach to service reviews and workforce planning, underpinned by a Continuous Improvement Program. These initiatives aim to contain cost growth and deliver measurable savings over time and are ongoing.
- **Asset Management and Depreciation:** The upcoming Asset Priority Project will further strengthen this by reviewing depreciation assumptions, detailed condition audits and asset valuations to ensure sufficient and sustainable funding for asset renewal and replacement. Further the project seeks to align the City of Mount Gambier with other Australian cities whereby segmentation and componentisation of assets is increased allowing improvement in renewal capital programming.
- **Capital Investment Discipline:** The LTFP has incorporated new financial strategy/guiding principles that outline focus on renewal of assets over new projects.

Where new capital projects are included, the guidelines present an approach to borrow for new funding in consideration of intergenerational equity. This also decreases the impact on current ratepayers to cover costs of new projects/services where future generations will also benefit.

- **Transparency and Community Engagement:** Community consultation sought feedback on the draft Plan and help inform future prioritisation decisions in conjunction with the annual business plan.

Target Setting for Future Annual Business Plan and Budgets

Council uses the LTFP to frame its Annual Business Plan and Budget by setting high-level parameters and targets that will assist Council in maintaining a financially sustainable position including strategic work prioritisation, fit-for-future projects to continue to grow and enhance a world class regional city and ensuring oversight of future asset renewal requirements are factored in and allowed for even where they fall outside the scope of the 10 year horizon.

Public Consultation

Consultation feedback was received on the Draft Annual Business Plan and Budget along with Council's Long Term Financial Plan.

Public consultation took place between 21 May 2026 and 11 June 2026, with a special meeting held 16 June 2026 to hear verbal submissions and answer questions from the public.

Public information sessions were held on Tuesday 2 June 2026 and Wednesday 3 June 2026 at the Mount Gambier City Hall with a total of 11 attendees across the two sessions and 10 individual members of the public.

Council received 12 written submissions and heard 3 verbal submissions throughout the consultation period across both the Annual Business Plan and Budget and LTFP. The written submissions comprised a number of questions from the public with Council receiving in excess of 111 questions between two individual members of the community. Responses to questions were made available at the special meeting.

Changes to the Draft Plan

A number of changes were made to this document following public consultation/updated information:

- General rates were updated to reflect the latest information provided by the Office of the Valuer General and final figures for adoption. This includes an increase in the growth of assessments to 1.64%.
- Rephrasing of depreciation across the plan to correct an error. All key financial indicators remain within target, however the projected profits in year 9 and 10 of the plan have reduced to adequately cover anticipated increase in phasing over the last 2 years. Subsequently, profits have increased in earlier years due to the rephrasing.
- Financial Statements updated to reflect budget review 3 for 2025/2026.
- Formatting Amendments and minor typographical adjustments.

It should be noted that due to the integrated nature of the LTFP, changes made in one year, may impact future years of the Plan because of the compounding effect.

Audit and Risk Committee

The Audit and Risk Committee made the following recommendations.

Long Term Financial Plan

1. *That the Audit and Risk Committee report titled 'Draft Long Term Financial Plan 2027 to 2036 for Public Consultation' as presented on Wednesday 3 June 2026 be noted.*
 2. *That the Audit and Risk Committee provides feedback on Council's Draft Long Term Financial Plan 2027-2036 and/or the associated processes and risks, as follows:*
 - *Commend administration on the financial strategy and guiding principles contained in the Long Term Financial Plan.*
 - *Consider setting a target of operating surplus in future considerations of Long Term Financial Plans.*
- And this feedback be incorporated with the public consultation feedback to be presented to Council for consideration before the adoption of the Draft Long Term Financial Plan 2027-2036.*

Previous Adoption of LTFP

The LTFP was previously adopted by Council in June 2025.

IMPLICATIONS TO CONSIDER

Legal	Section 122 of the Local Government Act 1999 a Council must develop and adopt a Long Term Financial Plan for a period of at least 10 years. A Council may review its strategic management plans at any time, but must undertake a review of its Long Term financial plan as soon as practicable after adopting the Council's Annual Business Plan (ABP) for a particular financial year; and in any event, undertake a comprehensive review within 2 years after each general election of the Council.
Financial and Budget	Council forecasts financial sustainability across the life of the long term financial plan.
Community Consultation and Engagement	Refer inclusion in body of document.
Other Resources	n/a

RISK ANALYSIS

The risk identification and categorisation relies on the City of Mount Gambier [Risk Management Policy](#).

economic environment.				benefits of plan, phased rate path.	
Legal / Regulatory / Policy - Non-compliance with legislative requirements	Moderate (3)	Possible (3)	Moderate	Review legislation annually and consider ESCOSA advice when preparing strategic documents	Moderate
Service Delivery - Inability to maintain or improve service levels due to insufficient funding or poor cost control.	Major (4)	Possible (3)	High	Prioritise core services, complete service reviews, invest in workforce planning and efficiency programs.	Moderate
People - Staff stress or low morale if efficiency targets result in under-resourcing or unclear expectations	Moderate (3)	Possible (3)	Moderate	Align workforce planning with service needs, communicate change clearly, and support staff through transitions.	Low
Infrastructure - Asset deterioration or failure due to underfunding of renewal and maintenance.	Major (4)	Possible (3)	High	Ensure alignment between asset management plans and LTFP, review depreciation assumptions, prioritise renewal spend.	Moderate
Environmental - Delays or underinvestment in environmentally sustainable infrastructure or services.	Minor (2)	Possible (3)	Low	Include environmental considerations in capital planning, seek grant funding for sustainability projects.	Low

APPLICATION OF STRATEGIC PLAN

This report aligns to the following strategic objectives(s):

Priority 6: Excellence in Leadership and Governance

- 6.4 Review and continually update the Long -Term Financial Plan to ensure ongoing financial sustainability to community expectations and legislative requirements.

This report contributes to delivery of the following key strategic project(s):

N/A

RELEVANT COUNCIL POLICY

[Asset Accounting](#)
[Asset Management - A900](#)
[Budget Policy - B300](#)

IMPLEMENTATION AND NEXT STEPS

Targets from the LTFP will be communicated to Council staff to inform the 2026/2027 Annual Business Plan and Budget process.

CONCLUSION

The Long Term Financial Plan is a high-level strategic planning document that supports Council's budgeting and decision-making processes. It provides a forward view of Council's financial position and assists Council staff and Elected Members to plan for the delivery of facilities, services and infrastructure in a financially sustainable manner.

The Plan reflects Council's current strategic priorities, including future infrastructure and service delivery requirements, and considers the timing of revenue, expenditure and project delivery. Ongoing review, proactive planning and financial modelling remain critical to supporting Council's long-term financial sustainability and capacity to respond to community expectations.

To support transparency, the final LTFP also reflects changes made since the draft document was released for consultation, including updated rating information, revised depreciation phasing, updated financial statements and minor editorial amendments. These changes have been broadly identified in this report to ensure Council and the community can clearly understand how the final Plan has been refined following consultation and updated information.

While Council uses the LTFP to inform its Annual Business Plan and budget, the plan is a roadmap and as such does not determine the rates or charges in each year.

Executive Summary and Statement of Financial Sustainability

Executive Summary

The Long Term Financial Plan (LTFP) 2027–2036 provides the financial framework to deliver the City of Mount Gambier's strategic objectives while maintaining long term financial sustainability. The Plan demonstrates that Council can fund essential services, manage assets responsibly, and meet its financial targets over the ten-year period.

Key outcomes over the life of the Plan include:

- Balanced or small surplus operating outcomes from 2026/2027 onward.
- Asset renewal consistently funded at or above 100% of required levels.
- Debt reducing to sustainable levels while supporting intergenerational equity for new projects.

The LTFP was developed in consultation with Council's Executive Leadership Team and Elected Members. Workshops were held that considered and explored the principles to which the plan was developed and options that balanced the need to achieve financial targets, resources to deliver the strategic work plan, community expectations and to cover the true cost of waste services.

Chief Executive Officer (CEO) Statement of Financial Sustainability

The key objective of preparing a comprehensive and informed LTFP is to enable Council to maintain financial sustainability in the medium to long term whilst achieving the objectives and standards detailed in Council's suite of strategic management plans.

This means Council will be able to manage and maintain current and predicted services and service levels including infrastructure requirements to adequately provide for the needs of the city and community expectations.

Determines organisational financial capacity and sustainability

Legislative compliance

Informs the Annual Business Plan and Budget processes by taking a multi-year perspective

To fund our major intergenerational project of the Wulanda Recreation and Convention Centre, the LTFP has applied debt as a means to achieve intergenerational equity. This ensures that the cost of construction of this project is shared across current and future ratepayers, consistent with those that will benefit from the use of this new facility.

Council has three Key Financial Indicators (KFIs) per Council's Treasury Management Policy that measure financial sustainability. It should be noted that all three KFIs achieve the targets set by Council's Treasury Management Policy (T150) in 2026/2027 and will continue to.

- **Operating Surplus Ratio** - The ratio is positive over the 10 year period with an average ratio of 0.96%, achieving balanced budgets in 2026/2027 and small surpluses from 2027/2028 onwards.
- **Net Financial Liabilities Ratio** - The average ratio over the 10 years is 42%, with a declining trend over the medium term of the LTFP and slight uptake in later years funding new capital projects.
- **Asset Renewal Funding Ratio** - The Asset Renewal Ratio averages 123% over the 10 years of the LTFP and is consistently above 100% each year. The LTFP is aligned with the forward works program and Asset Management Plans with additional inclusions for Fit-for-Future City Projects and known major building renewals that have not yet been incorporated to the Asset Management Plans.

These indicators are evaluated in more detail within this document and together, show that Council will maintain financial sustainability in the short, medium and long term.

Purpose and Legislative Context

The purpose of this LTFP is to guide Council's financial decision-making in a sustainable and transparent manner. The Plan is prepared in accordance with Section 122 of the Local Government Act 1999 and is reviewed annually on a rolling ten-year basis.

The Plan is regularly reviewed due to the opportunities and challenges facing our community and city. This is especially important and timely, due to the volatile economic environment we are experiencing with factors outside of our control influencing our decisions, operations and planning.

The LTFP is designed as a 'high-level' summarised document focusing on the future planning of Council's financial operations, particularly in relation to key components such as rate increases, service levels to our community, asset replacement/renewal and loan indebtedness over the period 2027-2036. It projects:

- **Statement of Comprehensive Income** - Details the profit and loss account (operating surplus/(deficit) and capital transactions);
- **Statement of Financial Position (Balance Sheet)** - This presents the financial position of Council at a given date. It comprises three main components: assets, liabilities and equity;
- **Statement of Cashflows** - This shows the amount of cash and cash equivalents entering and leaving the Council;
- **Uniform Presentation of Finances** - The Net Lending/(Borrowing) for the Financial Year result is a measure that takes account of both operating and capital activities for the financial year; and
- **Statement of Changes in Equity** - This reflects the movement in equity reserves during the period, being the financial performance of the year plus any other comprehensive income gains.

The LTFP is developed in the context of our strategic framework and sets a road map to implement the community's priorities. It provides targets for future annual business plans and budgets and guidance in terms of direction and financial capacity. It does not determine the rates and charges for the future. Where key assumptions such as growth, indexation, interest rates, capital investment or service levels change, this may drive changes in the annual business plan and budget.

Strategic Alignment

The LTFP aligns with Mount Gambier 2035, the Strategic Plan 2024–2028, Asset Management Plans, and the Annual Business Plan and Budget. Together, these documents ensure integrated planning and responsible resource allocation.

The LTFP guides and is guided by other key strategic management documents as set out below.

- The **Mount Gambier 2035 Community Vision** (10 year plan) was developed through extensive community engagement and serves as a foundational document for the Council. It informs our overarching strategic planning and reporting framework, ensuring that all Council activities and decisions are aligned with the community's goals and aspirations. The Council is proud to be the custodian of this community-led vision and is committed to using it as a guiding document for planning and decision-making. This vision informs our strategic plan, which in turn guides all the Council's strategic documents.
- The **Strategic Plan** (4 Year Plan) outlines the overarching goals for the next four years, guiding resource allocation and establishing a framework for

measuring and reporting progress. It directly responds to the community's vision, addressing the needs and aspirations of those who live, work, study, or visit Mount Gambier. It sets out the expected outcomes from Council's actions, organised under six strategic priorities, including the five from the Community Vision – Mount Gambier 2035, and a sixth priority emphasising strong, accountable leadership and governance.

- The **Long Term Financial Plan** (10 year plan) shows the financial impact of the implementation of the Strategic Plan over the next 10 years and incorporates key assumptions from the Strategic Plan and Asset Management Plans.
- **Asset Management Plans** (10 year plans) identify the required future expenditure on infrastructure and funding required to maintain service levels. They are aligned with the LTFP.
- Each year, Council prepares an **Annual Business Plan** (1 year plan) guided by its strategic and financial framework. The Plan translates Council's medium and long term strategic directions into clear annual priorities, actions and deliverables. It outlines the outcomes Council aims to achieve within the year, the services to be delivered, the key measures of success, and the budget required to support these activities.

Financial Strategy and Guiding Principles

Council's long-term financial strategy is underpinned by clearly defined guiding principles that support consistent and informed decision-making, while improving transparency for the community and shaping how the plan is developed, modelled and assessed over time. The guiding principles help to understand Council's long term financial planning priorities, constraints and expectations in relation to service levels, assets and affordability for future generations.

1. Financial Sustainability

Financial sustainability is supported by ensuring Council can maintain services and infrastructure over the long term without creating financial stress or unfunded liabilities for future ratepayers. This principle includes:

- Aiming for a sustainable operating result (small surplus or breakeven across the LTFP).
- Ensuring recurrent revenues are sufficient to fund recurrent operating costs.
- Maintaining financial indicators within healthy, targeted ranges.
- Prioritising once-off or non-recurring expenditure using alternative revenue sources such as external funding, specific rate charges, or user-pays income.

2. Rate Stability & Predictability

This principle focuses on providing stable and predictable changes to rate revenue over time, including:

- Aligning rate revenue increases with inflation, growth, and long term cost trends.
- Supporting smooth adjustments over time to avoid significant fluctuations.

- Balancing cost pressures with the community's capacity to pay.

3. Intergenerational Equity

Intergenerational equity is promoted by ensuring current ratepayers fund the services and assets they use, rather than shifting costs to future generations. This includes:

- Using borrowings for long life assets so costs are shared fairly across the generations that benefit.
- Ensuring asset renewal is adequately funded to avoid future backlogs.
- Aligning funding sources with asset lifecycles where possible, acknowledging LGFA funding constraints.
- Prioritising borrowings for new assets to smooth rate impacts and improve intergenerational fairness.
- Strengthening understanding of asset consumption and aligning depreciation with actual usage.

4. Full Funding of Asset Management Plans for Renewal

This principle supports long term asset sustainability by committing to renewal aligned with Asset Management Plans. It includes:

- Ensuring renewal expenditure keeps pace with asset consumption over time (aiming for a 100% asset renewal funding ratio).
- Prioritising maintenance and renewal ahead of investment in new assets.
- Considering lifecycle costs at the concept stage of any new asset.
- Recognising situations where depreciation exceeds actual renewal needs (such as following major new infrastructure investment) and planning for future, cyclical renewal demands.

5. Responsible Borrowing and Debt Management

Borrowing and debt management are guided by a prudent and sustainable approach that:

- Uses debt strategically for new or upgraded assets rather than routine renewal or operating costs.
- Keeps Net Financial Liabilities within endorsed targets.
- Retains borrowing capacity to absorb financial or economic shocks.
- Maintains a balanced treasury management position across fixed and variable interest exposure.

6. Prudent Financial and Risk Management

This principle recognises the need to plan for economic uncertainty, risk and changing conditions. It includes:

- Reviewing and adjusting financial plans annually to respond to emerging trends and pressures.
- Monitoring external risks such as inflation, interest rates, and construction costs.
- Aiming for a small surplus or balanced position over the LTFP to provide a buffer for unforeseen events.
- Balancing conservative assumptions with the risk of over-rating.

7. Value for Money and Efficient Service Delivery

Council seeks to deliver services efficiently while meeting community expectations. This involves:

- Undertaking regular service reviews to identify efficiencies and improvement opportunities.
- Understanding the full cost of services, including full cost attribution.

- Improving cost-of-service accuracy over time.
- Applying user-pays principles where appropriate and ensuring user-pays services are financially self-sustaining.

8. Evidence-Based Decision Making

Long term financial planning is guided by transparent, reliable and well-supported assumptions. This includes:

- Basing assumptions on quality data and documenting key inputs such as inflation, assessment growth, labour costs and grants.
- Ensuring strategic plans are costed and achievable within the LTFP.
- Using independent or authoritative sources where possible to support key assumptions.

9. Funding Diversity

Financial resilience is supported by accessing a diverse range of funding sources, including:

- Actively pursuing grants and co-funding for major or once-off projects while accounting for ongoing operational costs.
- Using fees, charges, developer contributions and commercial activities appropriately.
- Maintaining revenue, treasury and budget policies and reviewing them regularly.

10. Transparency and Community Accountability

This principle focuses on ensuring the community understands long term financial decisions and how they support long term outcomes. It includes:

- Providing clear, accessible information on financial sustainability indicators.
- Demonstrating responsible management of rates, debt and assets.
- Supporting opportunities for community awareness and input.

Significant Influences and Challenges

The LTFP is a long term forecast and as such it is supported by many assumptions, for example: community aspirations, needs and wants, growth, inflation, service levels, federal and state government policy setting and interventions. Many of these factors inevitably are external to Council and as such outside of its control.

Volatile Economic Environment

The current economic environment remains volatile due to factors largely outside of Council's control. **Elevated fuel and energy prices** continue to flow through the broader economy, **contributing to sustained inflationary pressures** across goods, services, labour and construction costs. In response to persistent inflation, **interest rates have risen from historically low levels**, increasing borrowing costs and placing upward pressure on both Council financing costs and household affordability. These conditions create uncertainty for long term forecasting and increase the risk of cost escalation across operating and capital programs, reinforcing the need for prudent financial planning, conservative assumptions and regular review of the LTFP.

Inflation

Inflation has become a key challenge for the LTFP due to ongoing volatility driven by external economic and geopolitical factors. After a period where inflation was declining and broadly within the Reserve Bank of Australia's mid-range target, which supported greater certainty in forecasting, recent world events and conditions have seen more persistent and less predictable price pressures. Elevated inflation increases the cost of service delivery, labour and capital works, and introduces greater uncertainty into long term assumptions, requiring conservative forecasting and regular review of the Plan.

Given the shift in inflation conditions and the continued volatility in the economic outlook, inflation assumptions used in this LTFP have been based on Deloitte Access Economics' March 2026 ten-year forecasts.

Interest Rates

Interest rates have been influenced by global economic events and monetary policy responses, following a period of low and declining rates. The recent shift to higher interest rates presents a challenge for the LTFP by increasing the cost of our existing borrowings, placing pressure on cash flows and reducing Council's debt capacity. This heightens the need for prudent treasury management, timing of large cash outflows including capital works and a conservative approach to financial planning to ensure continued financial sustainability.

Deloitte Access Economics forecasts have been used as the primary basis for the assumptions in this LTFP, informed by advice from BRM Consulting and refined by Council administration to reflect Council's unique financing terms.

Rate Revenue and Growth

Council's major source of income is rates (general rates and waste service charge), which accounts for **approximately 64% of operating revenue** over the ten years of the Plan and is an important part of the planned long term strategy. It supports the funding of Council services to meet community expectations by maintaining essential infrastructure and services such as roads, waste management, footpaths, buildings, and more. It also contributes to the delivery of the Asset Management Plans, including both renewal and upgrade works.

Council recently completed a review of its basis of rating, an important undertaking that had not been reviewed in over 20 years.

At its February 2026 meeting, Council endorsed a number of changes to be introduced over a five (5) year period to ensure the rating structure remains relevant and equitable. The rating review did not result in an increase to rate revenue, focusing on the distribution of rates between different land use categories, not the overall quantum.

However, the rating review did briefly consider the treatment of **growth in rateable assessments**, to which it determined that Council will continue to review rate growth assumptions annually as part of the budget and long-term financial planning process. The purpose of this annual review to ensure growth in rateable assessments is appropriately accounted for and that additional revenue supports service delivery, asset management and infrastructure investment in a sustainable and transparent manner for our growing city.

Asset Management Planning

The LTFP has been prepared with reference to Council's adopted Asset Management Plans and forward works programs, which identify the renewal and upgrade investment required to maintain service levels. Where the Plan applies indexation, this is for modelling purposes within the LTFP and may differ from the presentation of estimates in underlying Asset Management Plans. Asset planning information will continue to be reviewed and refined, with updated Asset Management Plans to be incorporated through future iterations of the LTFP as they are reviewed and adopted by Council.

Fit-for-Future City Capital Projects

Previously known as Making Better Places Program and Sports Recreation and Open Space Strategy (SROSS) has been reviewed. Implementation remains from 2027/2028 (details on next page) and incrementally increases over the life of the plan. In recognition of the need to prioritise renewing ageing assets and continue to invest in new assets to grow and improve the city, a capital allocation of \$7.5m, \$10m and \$12m (unindexed) has been included three years apart (design in year 1 and construction in years 2 and 3) with approximately 50% for renewal and 50% for new/upgrade capital expenditure. Further, grant funding has been incorporated resulting in a cash impact every three-year cycle of \$2.5m (unindexed) for the new/upgrade component of the project.

Wulanda Recreation and Convention Centre (WRCC)

The Wulanda Recreation and Convention Centre is a multi-purpose facility designed to be a community space, with facilities and activities for all ages and abilities. This facility provides substantial year-round indoor facilities, addressing many community needs both now and for future generations. The Wulanda Recreation and Convention Centre has improved Mount Gambier's capacity to host major sporting competitions, conferences, events and performances, providing social and economic benefits. The facility opened in December 2022, with an official opening event held in March 2023. As a significant addition to Council's asset base, Wulanda has increased the value of Council's buildings and structures and the associated depreciation expense. The financial impacts, along with related risks and mitigations, are addressed in the Risks section of this LTFP.

Essential Services Commission of South Australia (ESCOSA)

Consideration of the recommendations from the recent Local Government Advice Scheme report from the Essential Services Commission of South Australia (ESCOSA). City of Mount Gambier was included in tranche three, 2025.

Future iterations of the LTFP will become a primary document that will be reviewed by Essential Services Commission of South Australia (ESCOSA) during their four yearly reviews under the Local Government Advice Scheme established through the Local Government Act 1999. The aim of the Scheme is to provide independent, risk-based advice to assist Councils when making long term financial and investment decisions for the benefit of ratepayers.

Asset Valuation and Depreciation Alignment Risk

Council has only recently implemented annual indexation of depreciation, and this approach was not consistently applied across the full period since the last asset revaluation. As a result, a step-change increase in depreciation is anticipated in 2026/2027 as CPI indexation is applied going forward. In addition, the Major Infrastructure asset class (including roads, footpaths, kerb and channel and public lighting) is due for revaluation

as at 1 July 2026, which may materially impact asset values, depreciation expense and key financial sustainability ratios.

While significant work has been undertaken through the Asset Project to improve asset segmentation and better align asset consumption with depreciation and renewal requirements, this work was not complete at the time of preparing the LTFP. Accordingly, depreciation and renewal funding profiles within the Plan rely on assumptions rather than finalised asset data. There is a risk that future revaluation outcomes and refined asset information result in higher depreciation and renewal requirements than currently forecast, placing pressure on operating results, cash flow, and long-term financial capacity.

Key changes since the last iteration of the Long Term Financial Plan

1. The LTFP has been updated to include the Budget Review 3 position for 2025/2026 and the **budget for 2026/2027 as the base year**.
2. **Interest rates** have been updated to reflect actual interest/forecast rates for credit foncier loans and variable Local Government Finance Authority (LGFA) rates based on Deloitte's Access Economics (DAE), BRM Advisory, administration staff and to relatively align with the forecast level of CPI increases.
3. Forecast **inflation** assumptions have been updated based on Deloitte's Access Economics (DAE) forecasts.
4. Council's **rating strategy** has been reviewed, with Council administration and Elected Members working collaboratively to balance community expectations, the achievement of financial targets and the capacity to deliver Council's suite of strategic plans, including this LTFP. Growth has been identified as a critical factor in supporting long term financial sustainability and servicing an expanding community. As a result, **growth in rateable assessments** is assumed to be fully realised in future years, and growth assumptions have been updated to reflect historical average trends.
5. The **Waste Service Charge (WSC)** has been reviewed to ensure it accounts for the cost of delivering the service, planned waste reduction initiatives and contributes fairly to future capital expenditure.
6. The **Strategic Work Plan** (ie delivery of Council operating and capital priorities over the next two (2) years) has been updated following engagement with Council staff and Elected Members. Individual projects have been reviewed and included or amended to align with delivery of the strategic priorities present now. Where individual projects have a finite period, consideration of ongoing allocation over the life of the LTFP in recognition of the need to resource for future priorities and that growth is maintained for capacity building, our growing community and their expectations. Specific inclusions include:
 - a. Underpinning the Strategic Work Plan, three (3) projects will be delivered to create organisational capacity by identifying efficiencies and reviewing service levels:
 - i. Asset Management Planning Approach – includes \$180k allocation in 2026/2027 for the condition and revaluation of major infrastructure and an allocation in 2027/2028 for the condition and revaluation of buildings and structures. Further inclusions for these are continued on a four-year basis.

- ii. Business Systems and Infrastructure – includes \$200k to continue development of Council's business systems, aligning best use of these systems and improving reporting.
 - iii. Workforce Planning Framework – includes an allocation of \$25k in 2026/2027 for implementation.
 - b. **Rapid Activation** of key precincts, including the central business district (CBD).
 - c. **Master Planning** continues a key feature with adjustments to forecast amounts reflecting actual costs incurred.
 - d. Capacity creation has been included in a number of different ways: to deliver the community's vision and ensure Council can respond effectively to current and future demands, improve service delivery, and operate more efficiently.
 - i. **Capacity Building Strategic Projects** – An allocation of \$435k p.a. (unindexed) has been included to create agility to change and short-lived opportunities, increase ability to be innovative and help fund the delivery of the Strategic Work Plan.
7. Council has recently renegotiated its **Enterprise Bargaining (EB) Agreements**. Updates have been made to reflect known outcomes following EB negotiations which affect the shorter-term. Longer term indexation continues to be applied using Deloitte's Access Economics available estimates.

Exclusions from this Plan

The following potential significant investment/items are excluded from this version of the LTFP:

Waste and Resource Recovery Master Plan

The Waste and Resource Recovery Master Plan, together with the Waste and Resource Recovery Strategy 2023–2030, has charted Council's whole-of-life roadmap for waste management services and assets, including the Waste Transfer Station, ReUse Market, Caroline Landfill and kerbside collections. Following endorsement of this work, Council has proceeded to develop detailed implementation strategies (including costings and prioritisation) for key projects such as waste reduction initiatives, leachate management, improved material diversion and recovery, optimisation of the Caroline Landfill layout, and optimisation of kerbside collection services. At the time of preparing this LTFP, these implementation strategies and associated costings were still underway. Accordingly, only time-critical components required to support near-term decisions and rollouts have been included in the Plan, with remaining program elements to be incorporated through future LTFP updates once confirmed.

Capital Works Costing Principles

Work continues to improve costing principles for the allocation of internal cost to capital projects, including project management, total staff costs, disposal of materials (e.g. road surfaces) and plant usage allocations. The implementation of these principles will be staged across a number of years. This version of the ABP and LTFP includes the results of initial work undertaken and further incremental improvement. Future iterations of the LTFP and supporting AMPs will incorporate refinement as work progresses.

Asset Management

Further review to be undertaken in preparation for the development of the next iteration of the Asset Management Plans / LTFP.

Master Planning

Recommendations from the Master Planning currently in progress and forecast to be completed annually up to and including 2028/2029. Noting that allocations for the Fit-for-Future City capital project expenditure will be prioritised to assist meeting any recommendations.

Visitor Information Services

A review of the visitor information service is currently in progress. The outcomes of this work in progress will be incorporated to future iterations of this plan once complete.

Risks and Opportunities

The LTFP is updated annually and needs to have regard to relevant risk, opportunities and mitigation strategies. During the development of this LTFP we have identified the following:

Risks

Volatility in Economic Conditions - increasing fuel costs, inflation and interest rates.

State/Federal Government - Local Government reforms and funding/cost shifting (e.g. Financial Assistance Grants timing and amount of advance payments, election expenses, ESCOSA costs).

Climate Change Impact - The future impact on the way in which Council operates will need to be considered. Council has a strategic target to achieve a 65% reduction on kerbside waste to landfill by 2030.

Grant Revenue - Whilst grant revenue may fund additional capital works, additional maintenance/renewal expenditure will be incurred as a result. Discontinuation of Local Roads Community Infrastructure (LRCI). Inability to meet Fit-for-Future Program inclusions should grant funding applications be unsuccessful.

Procurement Market Conditions - Current market conditions have either driven up costs, or resulted in less availability of contractors which will also impact on the capacity to deliver.

Asset Renewal Timing and Scale Risk - A significant portion of Council's buildings and structures asset value is concentrated in newer, high-cost assets and components with varying useful lives. While renewal demand for these particular asset components is currently low, future replacement will require substantial funding in specific years. There is a risk that depreciation and renewal funding profiles do not sufficiently build cash capacity over the LTFP horizon, leading to funding gaps and reduced financial flexibility when major renewal becomes due. For context, as at 30 June 2025 WRCC represented approximately 51% net fair value and approximately 33% annual depreciation of the totals for the Building and Structure Asset Class. This accounts for approximately \$1.5m in depreciation annually, that does not require short-term capital renewal.

Asset Financial Management - Changes in asset valuations, depreciation indexation and improved asset data may increase depreciation and renewal requirements beyond current LTFP assumptions, impacting financial sustainability indicators.

Opportunities

Efficiencies - Efficiencies will be investigated in operating expenditure to support capital works expenditure or through strategic procurement activities (where like activities are 'bundled up').

Growth - Higher than projected growth in assessments.

Timing - A review of strategic priorities has been undertaken by the Executive Leadership Team further to consultation across the organisation in the development of the Strategic Work Program. The organisation's capacity to deliver has been considered.

Service Reviews – identifying service efficiencies can help optimise resources and support the sustainable delivery of services that align with community expectations.

Commercial Partnerships/Grant Funding - Seek greater contributions from others to fund current activities/additional projects. Investment in an external funding coordinator has been included as part of one of the three capacity building FTE's to well position us to leverage outside investment and ensure our status as South Australia's regional capital. Attracting further grant revenue will improve ratios if used to fund works already in the LTFP.

Borrowings - In line with our Treasury Management Policy the intent is to have an optimal structure that ensures that the net interest costs associated with borrowing and investing are reasonably likely to be minimised on average over the longer term. This is achieved by maintaining balanced debt structure and ensuring ongoing revenue sources maintain ongoing expenditure.

Summary of Key Assumptions

The LTFP is underpinned by a set of consistent, prudent assumptions across revenue, expenditure, capital investment and the balance sheet. These assumptions reflect current policy settings, known commitments, historical trends and best-available forecasts at the time of preparation.

Operating Revenue

Operating revenue assumptions reflect Council's adopted rating strategy, full cost recovery for waste and user-pays services where appropriate, and the continuation of key recurrent grants. Rates and charges are indexed to support long term financial sustainability, with CPI applied broadly and a Fit-for-Future City margin included where required. Noting the Waste Service Charge (WSC) is based on cost of service recovery. Grant funding assumptions are based on existing programs and known commitments, with one-off grants aligned to the timing of related expenditure. Financial Assistance Grants including Special Local Roads Fund have been based on continuation with CPI increase. Identified capital grants have been included even though formal

approval has not been received. Development-related revenue has been conservatively reset to reflect recent experience and inflated in line with consumer price index (CPI), with fluctuations for Open Space removed.

Operating Expenditure – Materials, Contracts and Other

Operating cost assumptions are based on CPI-indexed growth for materials, contracts and other operating costs, with one-off items removed, inclusion of cyclical expenditure and expenses appropriately smoothed where possible. Employee costs reflect current enterprise arrangements and independent economic forecasts. Additional resourcing and funding have been included to support delivery of Council's Strategic Work Plan and identified organisational capacity requirements.

Operating Expenditure - Employment and Finance Costs

The Plan assumes a modest, steady increase in workforce capacity over its life, delivered through a mix of direct employment and external resources. These resources are more heavily weighted towards the beginning of the plan. Finance costs reflect forecast debt levels and prevailing Local Government Finance Authority interest rates, with a mix of fixed and flexible borrowings structured to balance cost, risk and flexibility.

Capital Expenditure

Capital investment is aligned with Council's Asset Management Plans and forward works programs, with priority given to asset renewal to maintain service levels and asset condition. Provision is made for the ongoing operating, maintenance and depreciation impacts of new and upgraded assets. New capital investment assumptions reflect known projects and currently available information, with future asset planning outcomes to be incorporated through subsequent Plan updates.

Capital Revenue

Capital revenue assumptions include grant funding for identified programs and projects, particularly the Fit-for-Future City projects, recognising that project scope may be reviewed if grant outcomes change. Contributions of physical assets received at no cost are included based on historical experience.

Statement of Financial Position

Balance sheet assumptions are based on historical trends for working capital items, with no material departures assumed. Asset values reflect the combined impact of depreciation, capital investment and disposals, with CPI indexation applied in non-revaluation years. Borrowings are modelled to support approved capital investment and overall cash flow requirements, consistent with Council's treasury and debt management approach.

Rate Strategy (General Rates and Waste Service Charge)

Historical Influences

In accordance with LTFP principles Council has adjusted rating to address earlier periods where rating did not keep pace with rising costs and to support long term financial sustainability. Average residential rates remain significantly below the rural, state and metro average.

Growth in Rateable Assessments

Over previous years we have not grown/increased budget to reflect community growth nor reflected the increase in cost of service provision as a result of this growth as part of our rating strategy. Rather anything above 0.50% conservative growth estimate was absorbed. This has a compounding effect on our ability to maintain service levels to the expectation of our growing community.

Council will continue to review rate growth assumptions annually as part of the budget and long term financial planning process. With the purpose to ensure growth in rateable assessments is appropriately accounted for and that additional revenue supports service delivery, asset management and infrastructure investment in a sustainable and transparent manner. A conservative approach has been used for modelling in the LTFP. Over the past 8 years, average growth in rateable assessments equals 0.77%, which is now reflected in the first 5 years of the LTFP.

Council needs to find the balance between resident expectations and what is appropriate and affordable for Council to provide with the revenue available.

General Rates Increase

Rating for this financial year and beyond considers a number of factors including the following:

- **Average Rates** - City of Mount Gambier's average residential rates have been significantly below the rural South Australian average, being \$1,442 in 2025/2026 compared to \$1,837.
- **Fit-for-Future City** - The modelled rate for 2026/2027 and beyond is based upon CPI plus a maximum of 2% Fit-for-Future City (ex sustainability) margin as required to ensure that Council achieves and maintains its operating surplus to fund future service provision and pay down debt. The fit-for-future margin will be reduced as Council estimates the impact of cost savings and efficiencies are recognised.

It should be noted that the average rate increase per annum is based on the total of all rateable properties. The impact on individual ratepayers may be different based on the change in valuation of their property relative to the overall valuation changes across the Council area.

Waste Service Charge

The Waste Service Charge is reviewed annually and is based on estimated operating and capital costs of delivery of the kerbside collection service(s) in accordance with section 155 of the Local Government Act 1999.

Funding the Plan

Revenue

Council generates revenue and funds this plan from a number of sources to provide services, infrastructure and benefits to the community and ensure the economic, social and environmental sustainability of the region.

Funding is generated from revenue and borrowings aligned with relevant policies, plans and objectives to ensure a balanced approach in generating public value to the community. A summary of the funding that supports this LTFP is shown in the Uniform Presentation of Finances included in the Appendix.

Our main source of revenue is rates, generating approximately 64% of total revenue across the life of the LTFP. This rates revenue includes general rates and waste service charge.

Our second highest source of revenue is user charges, generating 24% of total revenue across the life of the LTFP. User charges are fees and charges associated with the provision of specific services to the community and business. We have made significant improvements to our fees and charges over the last two years, including regular analysis to ensure full cost recovery and that our ratepayers are not subsidising discretionary user services where appropriate. Our main user charges include:

- Waste management fees – Caroline Landfill gate fees, Waste Transfer and the ReUse Market fees
- Wulanda Recreation and Community Centre – for various use and hire of the facility
- Cemetery – covering cremations, burials and associated interment and plaque fees at Carinya Gardens and burials at Lake Terrace Cemetery.
- Council facility rental and hire – varies across ranging from commercial to peppercorn community leases and room hire within existing facilities such as Library and Riddoch Arts and Culture Centre.
- Tours and Retail facilities – offered across Wulanda, Visitor Services and Riddoch Arts and Cultural Centre.

Our third highest source of revenue is generated from Grants, Subsidies and Contributions, accounting for 9% of total revenue across the life of the LTFP. These consist of external funds obtained from other levels of government or other bodies that contribute to either Council's cost of operations or support capital projects. Our biggest source of grant revenue is State Government Financial Assistance Grants.

Borrowings

Council utilises borrowings strategically to support intergenerational equity, particularly for major long life assets. Debt levels are forecast to decrease steadily over the life of the Plan with a small uptake in the final three years to fund new capital components of the Fit-for-Future City projects and taking into consideration Council's guiding principles of Responsible Borrowing and Debt Management and Intergenerational Equity (as described earlier in this document). A key source of funding for this version of the LTFP is borrowings. The borrowings structure is made up of the following:

- **Credit Foncier Loans** - These are fixed term loans with varying terms that have been used to support the construction of the Wulanda Recreation and Convention Centre facility. It should be noted that particular care has been taken in establishing the terms of the individual loans to ensure that towards the end of the LTFP the required flexibility is available.
- **Cash Advance Debentures (CADs)** - These are flexible, variable loans where funds are drawn down and paid back as required.

The mix between fixed and variable debt has been considered throughout this version of the LTFP to ensure that required flexibility and capacity is available to Council. Regular reviews and maintaining a balanced approach to the level of fixed versus variable debt in accordance with the Treasury Management Policy enables disciplined long term debt reduction, reduces exposure to interest rate and refinancing risk, and ensures sufficient flexibility to manage intra-year cash flow cycles.

The level of total borrowings for each year has been included in the Key Financial Ratios section of this document (it should be noted that the borrowings are funded by loans/debt capacity specifically allocated to the construction of the Wulanda Recreation and Convention Centre and other debt capacity for other Council operations).

The table below shows the original available debt facility for the Wulanda Recreation and Convention Centre of \$36.5m and the current actual debt facility of \$28.8m taken up as at 13 May 2026. When interpreting the graph it should be noted that debt values fluctuate according to Council's working capital cycle.

Details of the individual loans/debt capacity in terms of the expiry date and interest rate are referenced in the table below. These figures are provided as at 13 May 2026 and it should be noted that some loans have balloon facilities that allow the loan to be either repaid or refinanced either as another fixed loan or converted to variable. The LTFP assumes that the loans will be refinanced as credit foncier upon expiry until 2031 when they are repaid and converted to flexible cash advance debentures.

Current Debt Facility	Facility Available as at 13/05/2026	Expiry Date	Interest Rate
Credit Foncier 109 amortising	\$3,509,659.91	16/05/2032	4.75%
Credit Foncier 110 amortising	\$8,264,170.95	16/05/2037	4.85%
Credit Foncier 112 amortising*	\$4,608,108.15	15/05/2026	4.95%
Credit Foncier 114 interest only	\$4,750,000.00	17/03/2027	4.88%
CAD 104	\$5,000,000.00	17/06/2028	5.85%
CAD 107	\$10,000,000.00	16/08/2026	5.85%

CAD 116	\$5,000,000.00	15/04/2031	5.85%
---------	----------------	------------	-------

* Balance of loan to be refinanced as credit foncier, interest rate locked in at 5.90%, modelled through LTFP.

Financial Performance Overview

The financial projections demonstrate that Council is expected to achieve its operating surplus, net financial liabilities, and asset renewal funding targets within the forecast period. These key financial indicators are deemed by the Local Government Sector to be the best indicators for determining financial sustainability. Further these indicators are a requirement of Council's annual financial reporting in accordance with Local Government legislation and regulations.

Treasury Management Policy

Council ensures long term financial sustainability using key financial indicators through the LTFP, specifically the following targets:

Operating Surplus Ratio – To achieve a positive operating surplus ratio by 2026/2027.

Net Financial Liabilities Ratio – Achieve a target of less than 100% of total operating revenue by 2026/2027; and

Asset Renewal Funding Ratio - Maintain asset renewal funding ratio of greater than or equal to 100% of the Asset Management Plan

Additional Ratios

Additional ratios considered and referenced as an additional measure of financial sustainability include the borrowing to income ratio and asset sustainability ratio.

Key Financial Indicators

Operating Surplus Ratio

What is the purpose of this ratio?

This financial indicator is useful in determining if current ratepayers are paying enough to cover products and services provided in each period.

How is this ratio calculated?

Operating surplus before capital revenues as a percentage of total operating revenue.

What is the target?

The target to be achieved by 2026/2027 is that Council will achieve a positive ratio (aligned with Council's Treasury Management Policy and the LGFA loan terms to fund the construction of the Wulanda Recreation and Convention Centre).

Result:

Council is expected to return to a balanced budget in 2026/2027. This is the second year the LTFP has modelled a balanced position remaining ahead of its target and delivering a positive result for the remainder of the LTFP. This early achievement reflects strong financial management and continued progress toward long-term sustainability. The average ratio over the life of the LTFP is 0.96%.

It should be noted that the surplus is required in future years for the repayment of current debt and investment in new assets and is in alignment with LTFP guiding principles.

Net Financial Liabilities Ratio

What is the purpose of this ratio?

This financial indicator is useful in determining the level of indebtedness that Council has in comparison to its operating revenue.

How is this ratio calculated?

Net financial liabilities as a percentage of total operating revenue.

What is the target?

Council will achieve a net financial liabilities ratio of less than 100% of total operating revenue 2026/2027 (aligned with Council's Treasury Management Policy and the LGFA loan terms to fund the construction of the Wulanda Recreation and Convention Centre).

Result:

Council met its financial targets 12 months earlier than planned, demonstrating strong financial management and a clear trajectory toward long term sustainability. The Net Financial Liabilities Ratio is projected to continue to reduce over the life of the Plan, with a slight uptake in the last three years of the Plan due to borrowing for new Fit-for-Future City capital projects. The Ratio will remain well below the 100% target for the entire 10-year period of the Plan, averaging 42%.

Asset Renewal Funding Ratio

What is the purpose of this ratio?

This financial indicator is useful in determining if Council is maintaining all of its assets.

This is best demonstrated by comparing total capital renewal expenditure planned against strategic asset management plan requirements.

How is this ratio calculated?

Capital expenditure on renewal or replacement of existing assets as a percentage of asset management plan allocations.

What is the target?

Council will maintain an asset renewal funding ratio of greater than or equal to 100% of Asset Management Plans.

Asset Renewal Funding Ratio

Result:

Council will achieve over the period of the plan at minimum the required expenditure that is set out in the Asset Management Plans.

Renewal expenditure for the future 10 years is expected to be aligned with the Asset Management Plans i.e. a ratio of 100% excluding inclusions for Waste Management, Fit-for-Future City Projects and inclusion of recent condition assessments completed for a selection of major buildings. Over the life of the LTFP the average ratio is 123%.

Spikes in the ratio in years 2030, 2033, 2036 are due to a change in assumption that the **Fit-for-Future City Projects** will be approximately 50% renewal. This decision has been made as part of the review of the LTFP and will be updated in future iterations of the Asset Management Plans (AMP).

In addition to the Fit-for-Future City Projects, detailed condition assessments have been undertaken on majority of major building assets with capital renewal expenditure modelled over a 20 year period. A total of \$3.69m in renewal expenditure above the current AMPs has been incorporated across years 2033, 2034 and 2036. These will be updated in future iterations of the AMPs.

Asset Sustainability Ratio

What is the purpose of this ratio?

This ratio is useful in determining the alignment of asset consumption to the investment in capital renewal of assets.

How is this ratio calculated?

Capital expenditure on renewal or replacement of existing assets as a percentage of annual depreciation.

What is the target?

Generally, the target for this ratio should be 100% on average over the long term. However, due to the significance of WRCC and material capital renewal expenditure not required within the 10-year period of this

LTFP, it is expected that the LTFP ratio be less than 100% on average. This allows for Council to manage their financial sustainability prudently and allow for cash build up over the life of the LTFP to fund future capital renewal beyond the life of this LTFP, particularly in the following 10 to 20 years.

Asset Sustainability Ratio

Result:

Council's Asset Sustainability Ratio is currently tracking below the typical Local Government target range. This outcome is expected in the short term and is largely driven by the inclusion of the Wulanda Recreation and Convention Centre (WRCC) within Council's Buildings and Structures asset class. WRCC represents a material proportion of Council's annual depreciation for this asset class, however it does not require commensurate renewal expenditure within the 10-year period of this LTFP. As a result, renewal spend appears low relative to depreciation, even though Council is continuing to maintain service levels and fund renewal works in line with its Asset Management Plans.

It is also worth noting that major building condition assessments identified approximately \$13.9m in building renewals required (excluding WRCC), with most of this expenditure anticipated to occur between years 10 and 20, outside the scope of this LTFP. This reinforces the importance of using the near-term 'gap' between depreciation and renewal on newer assets such as WRCC to deliberately build funding capacity (cash or cash equivalents), so Council is well positioned to meet future renewal peaks without the need for disruptive rate increases, service reductions or unplanned borrowing.

Borrowing to Income Ratio

What is the purpose of this ratio?

This is a way to measure Council's ability to make loan repayments comfortably without putting the organisation in financial hardship.

How is this ratio calculated?

Total borrowings including CAD divided by total operating revenue.

What is the target?

Council will maintain a target of less than 10%.

Result:

As debt is majority repaid through rates revenue, it is important that we are mindful of how much we borrow and how quickly we can repay our debt. That is why we have a long term view of debt and have focused on Council's debt structure and reducing debt over the life of the LTFP to create capacity to fund future new capital investment.

For all years of the LTFP the borrowing to income ratio is lower than the 10% target. Noting that in the later years of the Plan, additional funding has been incorporated to help fund the new portion of Fit-for-Future City projects and improve intergenerational equity while maintaining financial sustainability in consideration of future capital renewal requirements that fall outside the scope of this plan, but of which we are aware.

Debt structure assumptions i.e. the mix of borrowings between fixed debt and flexible debt and the term of the loans used to fund Council's activities have been considered in the context of the adopted Treasury Management Policy (T150).

Appendices

Detailed assumptions, financial statements and supporting schedules are provided in the Appendices.

Appendix one – Summary table Key assumptions

Key Assumptions	2026/27	2027/28	2028/29	2029/30	2030/31	2031/32	2032/33	2033/34	2034/35	2035/36

Glossary

Term	Definition
Annual net impact to financing activities (surplus (deficit))	Annual net impact to financing activities (surplus (deficit)) equals Operating surplus / (deficit), less net outlays on non-financial assets. The Net lending / (borrowing) result is a measure of the Council's overall (i.e. Operating and Capital) budget. Achieving a zero result on the Net lending / (borrowing) measure in any one year essentially means that the Council has met its expenditure (both operating and capital) from the current year's revenues.
Asset Management Plan (AMPs)	An operational plan for Council's Landfill, Building and Structures, Infrastructure (Roads), Plant and Equipment and Sundry physical assets with the objective of providing the required level of service, maintenance and renewal of such assets in the most cost effective and efficient manner.
Asset Renewal Funding Ratio	Indicates whether Council is renewing or replacing existing non-financial assets at the level its Asset Management Plans identify as required. This provides a more reliable measure than the Asset Sustainability Ratio, which relies on depreciation assumptions. However both ratios are useful to be reviewed together as they may highlight gaps to be addressed.
Asset Sustainability Ratio	Indicates whether the Council is renewing or replacing existing non-financial assets at the same rate as its assets are used or 'consumed'. The ratio is calculated by measuring capital expenditure on renewal and replacement of assets relative to the level of depreciation.
Financial Assets	Financial Assets include cash, investments, loans to community groups, receivables and prepayments, but excludes equity held in Council businesses, inventories and land held for resale.
Financial Sustainability	Financial Sustainability is where planned long term service and infrastructure levels and standards are met without unplanned and disruptive increases in rates or cuts to services.
Net Financial Liabilities Ratio (NFLR)	Is Net Financial Liabilities as a percentage of total operating revenue. The ratio allows interested parties to readily equate the outstanding level of the Council's accumulated financial obligations against the level of one-year's operating revenue. Where the ratio reduces over time, it generally indicates that the Council's capacity to meet its financial obligations is strengthening.
Non-financial or physical asset	Non-financial or physical assets refers to infrastructure, land, buildings, plant, equipment, furniture and fittings, library books and inventories.
Operating deficit	Where operating revenues are less than operating expenses (i.e. operating revenue is therefore not sufficient to cover all operating expenses).
Operating expenses	Operating expenses are operating expenses shown in the Income Statement, including depreciation, but excluding losses on disposal or revaluation of non-financial assets.
Operating revenues	Operating revenues are incomes shown in the Income Statement but exclude profit on disposal of non-financial assets and amounts received specifically for new/upgraded assets (e.g. from a developer).
Operating surplus	Operating surplus is where operating revenues are greater than operating expenses (i.e. operating revenue is therefore sufficient to cover all operating expenses).
Operating Surplus Ratio (OSR)	Operating Surplus Ratio expresses the operating surplus (deficit) as a percentage of operating revenue.
