Were we successful? YES - progress to submission NO - continue concept & business modelling development in readiness for other funding opportunities

Community Feedback

Presentation of design and costs to the community

Concept Design & Financials

Proposed design and cost developed for funding submission

Submission for funds

Council considers full grant submissions for State and Federal Government for \$30M

Frequently asked questions

Why is Council doing this?

Following recent community support and lobbying and the need to update ageing community facilities that can be used during all seasons.

How will the facility affect my rates?

It is too early to determine an impact on rates. The design and financials need to be completed to identify operational costs.

Why is it not just an indoor pool?

The community has identified the need for a multi-purpose facility to service a wide range of community needs.

Is the project definitely going ahead?

Council is preparing a shovel ready proposal for funding purposes. The project will not proceed without funding from external sources and support from the community.

For what purpose will the facility be used?

The facility will be able to host major sporting, social and cultural events and create employment opportunities for years to come.

How will the facility be funded?
